Govt to tarmack Lugazi-Kiyindi road

BUIKWE

By Jackie Nambogga

The Government will tarmack the Lugazi-Kiyindi road in Buikwe district in 2020, works state minister Gen. Katumba Wamala has said.

He was speaking during the belated Independence Day celebrations in Buikwe district on Tuesday.

The district also marked eight years since its creation in 2009. Buikwe was carved out of Mukono district. During the celebrations, a new office block was also opened.

Wamala told residents that the Government would work on the road which connects Lugazi town to Kiyindi landing during the 2019/2020 financial year.

The landing site is one of the district's biggest sources of revenue.

This was after the district chairperson, Mathias Kigongo, complained to Wamala about the poor state of the road.

Wamala handed over road equipment which included three trucks and a tractor to the district leadership. The equipment is to be used for opening new access roads and maintenance of the existing ones.

Wamala lashed out at leaders who want to take advantage of the current consultations on the Constitutional Amendment Bill that seeks to remove age limit to jeopardise the country's security. He implored elders to explain to the youth Uganda's history that was characterised by instability.
