

Hospital staff warned

KAMPALA: Leaders in Kawempe Division have warned staff of Komamboga Health Centre III to stop absenting themselves from duty. The warning follows complaints from residents over the consistent absenteeism at the health facility, which they allege, has claimed the lives of many patients who are not attended to. Komamboga is the only public health centre in the area. Mr Emmanuel Serunjogi, the division mayor, said he is currently carrying out an investigation.
