Uganda's swimming fraternity will, for the first time, enjoy the privilege of competing in a classic swimming pool during the third leg of the Uganda Aquatics League at Kabojja International School this weekend.

This follows a partnership between Uganda Aquatics and Kabojja International School, which has constructed a short-course Olympic-size pool. The pool measures 25 meters in length and has eight lanes, each spaced at 1.5 meters.

During the launch of the facility yesterday, Uganda swimming officials, led by president Moses Mwase, and the school's Principal and CEO, Sam Turya, signed a three-year memorandum of understanding to facilitate

Swimmer Husnah Kukundakwe testing the new Kabojja International School pool yesterday

swimming activities at the school.

"We are happy to launch this Olympic-standard facility

that includes a swimming pool, a gym and spa to complement our indoor and outdoor games programs that

support learners' talents and values. The community is also welcome to use the facility," noted Turya.
