

Atim eyes Makerere or MUST after scoring 16

By Joseph Ekol

Aminah Atim, 20, is aspiring to join Makerere University or Mbarara University of Science and Technology (MUST) to pursue a bachelor's degree in pharmacy after scoring 16 points in the Uganda Advanced Certificate of Education (UACE).

Atim, who did biology, chemistry, mathematics and information and communication

Atim (centre) celebrates with her parents

technology (ICT) at Kings College Budo, overcame significant health

challenges that often forced her in and out of school, especially during

Senior Six.

Despite these setbacks, she earned a C in biology, a B in chemistry, B in mathematics, and one point each in ICT and general paper.

She attributed her success to perseverance, determination, and the strong support she received from her parents and aunt, who regularly encouraged her and offered financial assistance during the difficult moments.
