OWC activities need to be revisited

Whereas the President had good intentions of creating Operation Wealth Creation (OWC), programme with to improve household incomes, the whole agenda of OWC seems to be dying.

The President entrusted the soldiers without agricultural knowledge to manage the multibillion project. Recently, I read in the dailies that OWC had deviated from its principal purpose of wealth creation to music industries. Way back, one youth from Serere District, who benefited from OWC animals complained that they gave him blind and barren cow. The young man had to sell the cow and replace with the local breed. Many of the cows that were distributed to these youth either died or never produced. In addition, the management of these cows is so hectic. Imagine these are cows picked from farms with lots of grass from western Uganda, how do you expect them to survive in dry areas like teso?

Again I have read in the news that OWC cows failed to conceive in Gulu. Your Excellency, whereas we acknowledge your struggle to bail us from absolute poverty and turn Uganda into middle income country 2020, the activities of OWC need to be revisited and where possible closed since this is Kisanja Hakuna Mchezo.
