

'I want to create my own job'

BY JOSEPH KATO

jkato@ug.nationmedia.com

KAMPALA. Rodgers Rwothungeo scored 10 in UCE and 19 in UACE at St Mary's College Kisubi.

He kept his track of good results posting 19 points from the just

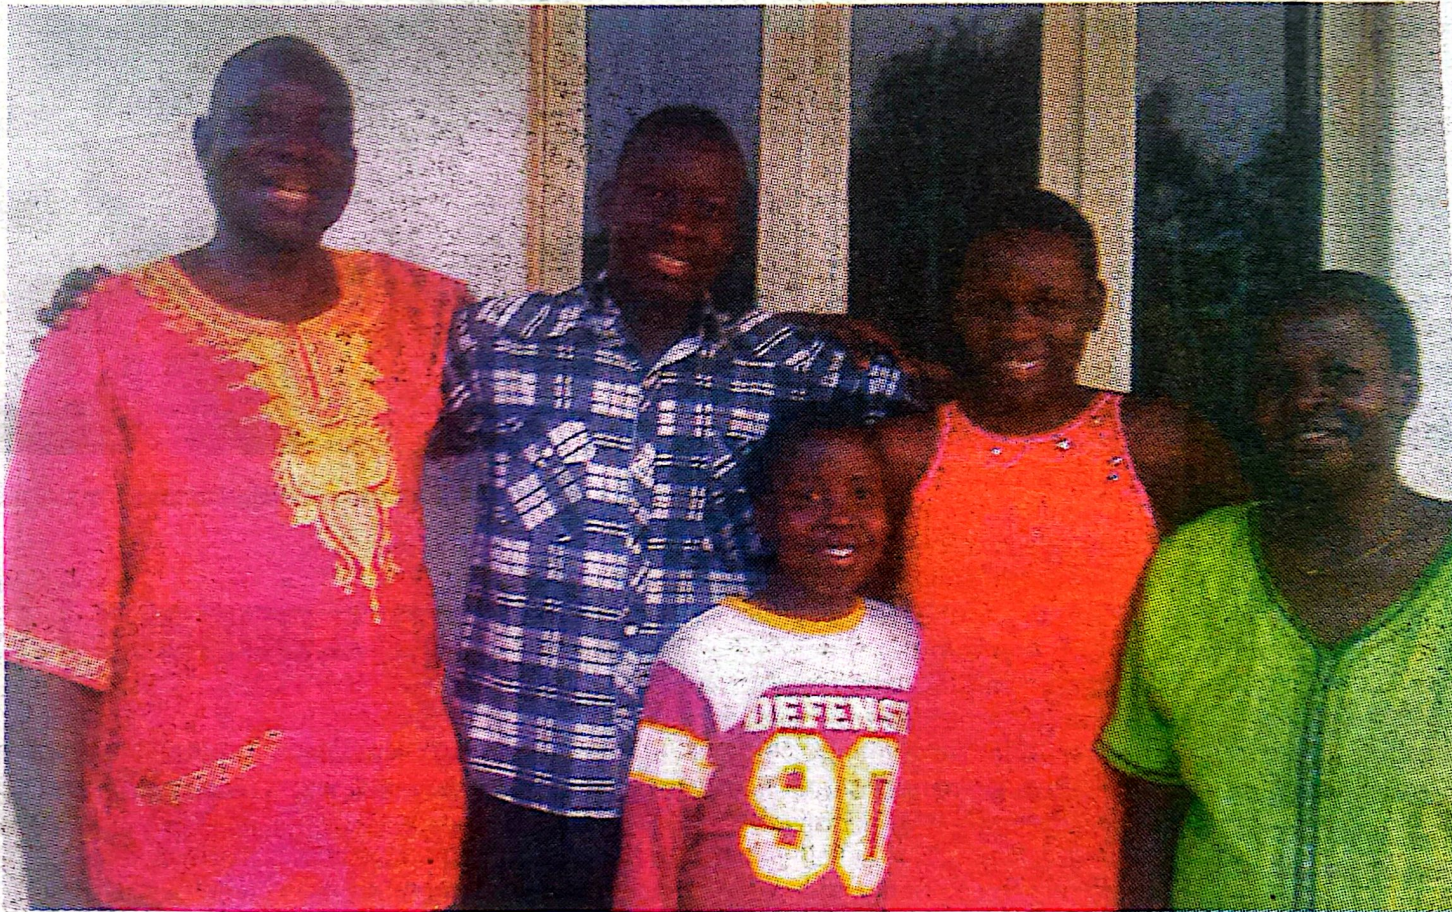

concluded Uganda Advanced Certificate of Education.

Rwothungeo was a student of SMACK where his education was partly financed by Total E & P Uganda.

At O-Level, he scored Aggregate 10 in eight subjects and as he says,

it was not by mistake that he performed well at A-Level. He wants to join Makerere University to pursue a civil engineering degree course.

He says civil engineering will help him to create his own job instead of seeking for employment given that jobs are scarce.
