GRANTS, SCHOLARSHIPS, FELLOWSHIPS UP FOR GRABS

BY JACKLINE YANGI

IOM INTERNSHIP PROGRAMME

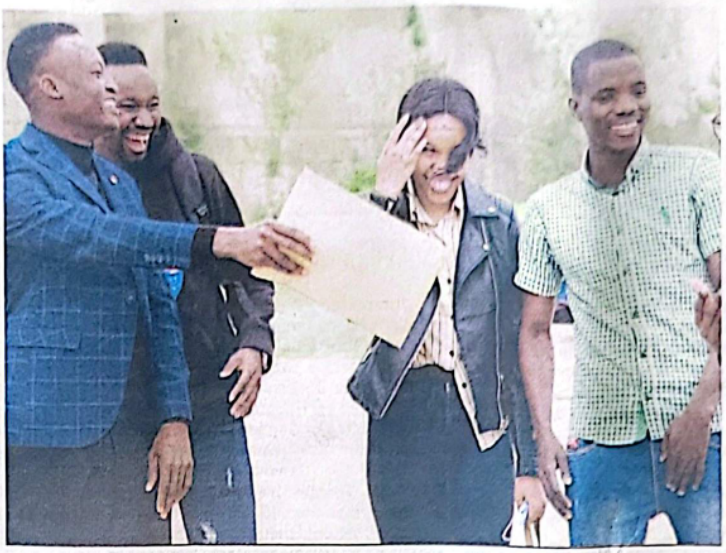

The International Organisation for Migration (IOM) Internship Programme 2026 is now open for applications, with multiple paid opportunities available worldwide, including Uganda, in both remote and on-site formats. The internship cycle will run throughout the year.

Available internship opportunities within IOM include client service intern, mental health and psychosocial support, gender-based violence, migrant protection, research and advocacy.

Successful applicants will receive paid stipends depending on location, exposure to multicultural and international work environments and hands-on experience in migration management.

Eligible applicants must be students or recent graduates with a background in international relations, development, migration, political science, or social sciences and a passion for global impact and humanitarian work.

The deadline for applications is rolling, based on the various positions. For further information on how to apply, ***visit: https://lnkd.in/ee4hSjcC.***

The moment a scholarship changes everything — young Africans seize global opportunities in education, research and development

CLIMATELAUNCHPAD 2026

ClimateLaunchpad 2026 is now accepting applications from early-stage founders ready to turn climate solutions into viable businesses. The ClimateLaunchpad is the world's largest green business ideas competition, designed to transform climate innovations into impactful ventures. Eligibility: Sustainability ventures must be less than two years old and must have raised less than €200,000 in total funding, with no products or services sold on commercial terms.

Applications close on May 15. To apply, visit: *https://climatelaunchpad.org.*

Sub-grants to scale gender-responsive teacher professional development

A call for proposals is now open to all education-focused organisations working to transform teaching practices and tackle gender inequality.

The Teacher Professional Development initiative supports organisations working to improve teaching practices by integrating gender-responsive approaches, particularly at the early childhood education and lower secondary education levels.

Applicants must propose targeted and practical interventions that address one clearly defined constraint limiting programme scalability, align with a broader scaling strategy and demonstrate progress towards expansion and sustainability.

Benefits include funding of up to euros 40,000, support to scale an existing programme and an opportunity to influence education systems and contribute to gender equality in education.

Activities are expected to be realistic and achievable within the funding limit of euros 40,000 over a 12-month duration, with a clear explanation of how the intervention will unlock scaling potential.

Applications close on May 29, 2026. For more information and to apply, ***visit: https://wp.me.***

A CALL FOR GLOBAL ARTISTS AND CREATIVES

The Artist-in-Residence Programme 2026 by Third Wave Fund is now open for applications. Offering a fully funded fellowship-style residency for bold and visionary creatives worldwide, this programme supports artists who are deeply engaged in movements for gender justice and collective liberation.

Benefits include a fully paid residency, collaboration with a leading social justice organisation, global visibility and a platform for work, as well as professional growth and network expansion.

Selected artists will create art-driven campaigns for social change, collaborate with activists and organisers, develop storytelling content for advocacy and participate in community-centred creative processes.

Eligibility: Black, Indigenous and people of colour individuals from marginalised communities in Africa and the diaspora, with proven experience in any artistic discipline, community engagement and collaborative skills.

Applications are due on May 13, 2026. For more information and guidance on how to apply, visit: *https://wp.me/p23f03-e3Q*

BRAC BRIDGE internship programme

The BRAC BRIDGE Internship Programme 2026 is calling upon all final-year students and recent graduates to apply for its six-month programme, which provides an opportunity to work on real development projects.

Selected interns will support day-to-day operations of assigned projects, collaborate with departments and field offices and prepare reports, presentations and research outputs.

Internship areas and departments include education, communications, climate change, advocacy for social change, technology, migration, health, human resource division, global partnerships and thought leadership.

Participants will receive a monthly stipend, a certificate and letter of appreciation upon completion, mentorship from experienced professionals, access to the BRAC University Library and resources, exposure to large-scale development programmes and a potential pathway to full-time employment at BRAC.

Eligibility: Applicants must hold a bachelor's degree from a recognised university or be currently enrolled in their final semester, from any academic discipline, with an interest in development and social impact.

The deadline for applications is May 10, 2026. To apply, visit: ***http://lnkd.in/exadscim.***

Applications open for 2026 AUDA-NEPAD accelerator programme

Applications are now open for the 2026 African Union Development Agency (AUDA-NEPAD) Home-Grown Solutions Accelerator Programme. The initiative is run by AUDA-NEPAD, supported by the Japan International Co-operation Agency, the official development assistance agency of Japan.

The accelerator operates in line with the African Union's Energise Africa initiative and Agenda 2063 aspirations, focusing on supporting African home-grown solutions across healthcare ventures strengthening Africa's health systems and climate-focused ventures driving climate resilience.

The application deadline is May 19. For more details, visit: *https://www.nepad.org/news/calling-african-healthcare-and-climate-ventures-apply-2026-cohort-of-auda-nepads-home.*
