EXECUTIVE SUMMARY x

CHAPTER 1: THE EAST AFRICAN COMMUNITY INTEGRATION PROCESS 1

1.1 Overview of the EAC Integration 2

1.2 EAC Trading Arrangements with other Regional Blocs 4

1.3 Export Promotion Activities 5

CHAPTER 2: MACROECONOMIC AND TRADE DEVELOPMENTS 7

2.1 Global Economic Growth Outlook 8

2.1.1 Africa Economic Outlook 9

2.2 Global Trade Outlook 9

2.2.1 Trends in African Trading 10

2.3 EAC Economic Growth 10

2.3.1 Burundi 10

2.3.2 Kenya 12

2.3.3 Rwanda 14

2.3.4 Tanzania 15

2.3.5 Uganda 16

CHAPTER 3: EAC TRADE PERFORMANCE 19

3.1 Sectoral Distribution of EAC Trade 20

3.2 Total EAC Trade Trends 20

3.3 Intra-EAC Trade Trends 22

CHAPTER 4: TRADE IN THE EAC PARTNER STATES 25

4.1 Burundi 26

4.1.1 International Trade 26

4.1.3 Intra-EAC Trade 28

4.2 Kenya 31

4.2.1 International Trade 31

4.2.3 Intra-EAC Trade 33

4.3 Rwanda 36

4.3.1 International Trade 39

4.3.2 Intra-EAC Trade 40

4.4 Tanzania 41
4.4.1 International Trade 41
4.4.2 Intra-EAC Trade 43
4.5 Uganda 45
4.5.1 International Trade 45
4.5.2 Intra-EAC Trade 48

CHAPTER 5: SPECIAL CATEGORY CONSIDERATIONS WITHIN EAC CUSTOMS UNION.....51
5.1 Exemptions and Remissions 52
5.2 Sensitive Goods 53
5.3 Excisable Products 54
5.4 Tariff Bands 55

CHAPTER 6: CUSTOMS REVENUE PERFORMANCE IN EAC 58
6.1 Burundi 59
6.2 Kenya 59
6.3 Rwanda 59
6.4 Tanzania 59
6.5 Uganda 59

CHAPTER 7: INVESTMENT FLOWS IN EAC.....61
7.1 Global Investment Trends 62
7.2 EAC Investment Outlook 62
7.3 Investment Opportunities in EAC 64
7.4 Investment Climate 64
7.5 EAC Investment Flows 65
7.5.1 Overall Investment Flows 66
7.5.2 Intra-EAC Investment Flows 66
7.6 Employment Creation 68
7.7 Sectoral Distribution of Foreign Direct Investment 69
7.8 EAC Country Specific Sources of Investment 71

CHAPTER 8: CHALLENGES AND POLICY RECOMMENDATIONS.....75
8.1 Challenges to Trade and Investment in the EAC 76
8.2 Policy Recommendations 77

CHAPTER 9: ANNEXES.....78

OPENING STATEMENT DURING THE LAUNCHING CEREMONY

One of the underlying facets of a Customs Union and Common Market is generation, analysis and dissemination of data relating to trade, investment and other key variables that constitute the integration milestones. This becomes even more fundamental with a Monetary Union that requires sustainable measurement and keeping track of the macro-economic performance. Since 2005, the EAC has been producing Trade reports focusing on trade, revenue and investment flows.

This EAC Trade and Investment Report analyses the trade and investment flows in 2015. Its main purpose is to gauge EAC trade performance in the global macro-economic and trade contexts and particularly analyses the intra-EAC trade in goods for the year under review, EAC trade with the rest of the world, tax exemptions, revenue yield and investment flows of Partner States. It also highlights challenges and provides recommendations which inform policy direction.

The EAC Trade and Investment Report for the last 11 years have shown that intra EAC trade has grown from $1.5 billion in 2005 to $5.1 billion in 2015 with the highest level being $5.8 billion in 2013. The Revenue collections have also continued to exhibit positive growth on year to year basis in all the Partner States. The EAC has also witnessed exponential growth in Foreign Direct Investment and Intra EAC investment flows. Although not yet at the desired levels, the trend gives indication that EAC is becoming an attraction of viable investment projects. The flows depicted by these reports are supported by other empirical studies such as the Regional integration Index of 2016 carried out by Economic Commission for Africa and African Development Bank and the improved rankings in the Doing Business Reports of the World Bank.

On the flipside of the positive performance over period since 2005, EAC intra-trade performance in 2015 depicted a downward trend with a decrease of 10 percent from US$5.6 billion in 2014 to US$5.1 billion. Investment flows in 2015 also declined by 16.4% from the previous year although the total investment was nearly double than that of 2012 and 2013. Likewise the trade deficit with the rest of the world continued to increase in 2015. The one year disparity may not be a good measure for the future trends given that 2016 may have experienced a rebound in the fundamental parameters used in the reporting.

The EAC Trade and Investment Report 2015 reveals the challenges that impede trade in EAC as Non-Tariff Barriers (NTBs) that raised the cost of doing business; poor infrastructure at the ports and along the main transport corridors; exemption regime that distorts the implementation of the CET; low value addition in the Region that affects the export earnings of the Partner States; lack of human and financial resources by the implementing agencies such as the investment agencies; delays in conclusion of trade agreements; investment related policies and strategies that are not harmonized at the regional level; and cumbersome administrative and regulatory practices with regard to registering a business and getting licenses.

I have underscored the above details and figures to show the importance of this EAC Trade and Investment Report which is a very useful tool in tracking our performance and essential in guiding us develop corrective measures. I note that this report is of 2015 and wish to ask the Secretariat to make these reports more timely such that EAC can use them valuably immediately after the reporting period. ***With these remarks I wish on behalf of the Council, to launch the EAC Trade and Investment Report 2015.***

.....

Rt. Hon. Ali M. Kirunda Kivejinja
Chairperson of the EAC Council of Ministers

In 2015 the EAC Secretariat in collaboration with Partner States continued to accomplish major strides to deepen the regional integration agenda particularly in the implementation of the Single Customs Territory (SCT), which started as a pilot along the Northern and Central corridors in 2014. It was consolidated in 2015 through finalization of key operational instruments. These included revision of SCT business manuals, development of SCT Monitoring and Evaluation Tool, development of the Framework for Deployment of Staff in other Partner States, and revision of the Enforcement and Compliance Framework.

The instruments were adopted and are being applied by the Partner States. To ensure real time flow of information and minimum clearance time for goods, ports and customs system interconnectivity was further enhanced. The Secretariat and Partner States Customs administration are progressively expanding the scope of goods covered under the SCT in all Partner States. Another great milestone achieved during the period was the coming into force of the revised EAC Rules of Origin, 2015 that came into effect in January the same year. The new EAC Rules of Origin are simpler and do promote value addition and investment in the EAC. A Manual to guide the application of the EAC Rules of Origin, 2015 was developed and adopted.

The EAC Trade and Investiment Report 2015 presents detailed analysis of trade and investment flows within the EAC and between the Region and the rest of the world. I am convinced that the trade and investment data presented in this report will be of great importance to Partner States, Development Partners, Investors, Academia, Civil Society, Researchers and other Stakeholders.

In summary the Trade and Investiment Report shows that the EAC total trade in goods decreased by 7.4 percent from US$ 59.8 billion in 2014 to US$ 55.4 billion in 2015. The total EAC exports in 2015 decreased by 17.5 percent from US$ 19.4 billion in 2014 to US$ 16.0 billion in 2015. Total EAC imports decreased by a modest 2.5 percent from US$ 40.4 billion in 2014 to US$ 39.4 billion in 2015.

The EAC Trade and Investiment Report 2015 shows that the value of intra-EAC trade declined by 10.0 percent from US$ 5.6 billion in 2014 to US $ 5.1 billion. The decline was attributed to the decreases of 8.3 percent, 19.2 percent and 27.5 percent in the value of total trade for Kenya, Tanzania and Rwanda, respectively. During the period, the total intra-EAC exports decreased by 3.2 percent from US$ 3.2 billion in 2014 to US$ 3.1 billion in 2015. The value of total intra-EAC imports decreased by 19.2 percent from US$ 2.4 billion in 2014 to US$ 1.9 billion in 2015.

The Secretariat will continue to mobilize resources to enrich the coverage of the Trade and Investiment Report and widen its scope to include EAC trade in services data so that in future it could publish a holistic trade report. However, this will depend on the availability of additional resources to undertake the comprehensive task.

The timely publication of EAC Trade and Investiment Reports is of great necessity to satisfy the expectations of our stakeholders who heavily rely on trade and investment data presented in the Reports to make informed decisions to promote the regional integration agenda.

I would like to acknowledge the Development Partners especially TradeMark East Africa who have continued to support the EAC integration process by funding the preparation and production of EAC Trade and Investiment Reports. TMEA also provided technical assistance in form of a consultant to improve the quality of the 2015's Trade and Investiment Report. The Secretariat would like to recognize TMEA for this great support.

I also take this opportunity to appreciate the efforts of the Partner States' Experts from various institutions who contributed and/or participated in the preparation of the EAC Trade and Investiment Report 2015. Similarly, I thank the EAC officials from the Directorate of Customs, Trade, Investment and Statistics departments for their contribution in the compilation of this EAC Trade and Investiment Report. The Secretariat is highly privileged to accomplish this great task because of their timely contributions.

Amb. Liberat Mfumukeko
Secretary General, EAC

The East African Community is one of the fastest growing integration arrangements in Africa and is set to expand with the application of the Republic of South Sudan to join the bloc. During the year, the EAC continued its quest towards full economic integration with remarkable progress in the implementation of the Single Customs Territory (SCT) including the upgrade of Regional infrastructure especially the ports of Mombasa and Dar es Salaam, roads, airports and border posts. Implementation of the SCT is set to reduce the cost of doing business by eliminating duplication of processes.

EAC is also looking to improve trade beyond the SCT by promoting trade facilitation initiatives with other trading blocs. These initiatives include the EAC-EU EPAs, AGOA, COMESA-EAC-SADC Tripartite Agreement as well as the EAC-US Investment Partnership Agreement.

This EAC Trade and Investiment Report presents the status and analysis of the trade and investment sectors of the five Partner States in the context of the global trade and investment performance in 2015 as well as an analysis of the revenue performance. The data reveals that the East African Partner States economies continued to grow in 2015 despite the global economic slowdown that affected many economies.

The real GDP growth of the East African Region as a whole remained positive, averaging 5.7 percent over the year. Tanzania, Kenya and Uganda maintained positive growth while Rwanda and Burundi's economic growth declined over the year. EAC has continued to experience a trade deficit with the Rest of the World (RoW). During 2015, the trade deficit for the EAC grew by 11.3 percent to US$ 23.4 billion up from US $21.0 billion in 2014. While, FDI inflows into the region decreased by 16.4 percent to US$ 7.2 billion from US$ 8.6 billion in 2014 as a result of a decrease in FDI to the United Republic of Tanzania and Uganda while there was growth of FDI inflows into Kenya and Rwanda. Overall investment inflows into the EAC for 2015 were meagre by global standards accounting for only about one percent of global investment inflows during the year. To encourage investment promotion, the Region continued to offer exemptions and incentives that exempt from import duty and other charges of equivalent effect, imports for manufacture of goods destined for export markets. While the total duty foregone decreased by 0.8 percent to US$ 1.59 billion in 2015 from US$ 1.6 billion in 2014 as a result of elimination of some exemptions by Partner States, it was still substantial and negatively affected the total revenue yield of the Partner States.

In spite of the growth in trade and investment, 2015 exhibited continued sluggish performance that was witnessed in 2014. Trade in goods volumes as well as investment inflows remained flat or declined as a result of a number of challenges: Non-Tariff Barriers (NTBs) that raised the cost of doing business and affect intra-Regional trade which decreased by 10.0% in 2015 due to: poor infrastructure at the ports and along the main transport corridors; discretion in the implementation of the exemption regime that distorts the implementation of the CET; and low value addition in the Region that affects the export earnings of the Partner States. Also the Region is yet to develop a comprehensive investment strategy to promote all countries as a single investment destination.

National-level investment promotion agencies at the Partner State level are constrained by lack of human and financial resources and national governments still exercise cumbersome regulatory and administrative policies that impact negatively on investment promotion.

TO MITIGATE THIS UN-FAVOURABLE TRADE POSITION IN EAC, THE REPORT PROPOSES THE FOLLOWING KEY POLICY RECOMMENDATIONS:

- Take deliberate steps to reduce the cost of doing business in order to boost exports and investments.
- Adopt a more holistic and coherent approach to attract investment through development of policies that support investment promotion.
- Conclude trade and investments agreements with key trading partners.
- Enhance value addition of EAC export products.

The report is structured in Eight chapters including this executive summary. Chapter Two gives an overview of macroeconomic and trade developments at the Global and Regional levels. Chapter Three is on EAC trade developments at the EAC Partner States level. Chapter Four covers detailed analysis of trade performance for each of the EAC Partner States. The chapter also discusses the challenges to improved trade in goods performance in the Region. Chapter Five reviews the special category considerations in the implementation of the Common External Tariff (CET) of the Customs Union Protocol. Chapter Six analyses customs revenue performance of the Partner States. The chapter highlights the performance of the different categories of duties that are imposed in the process of importing commodities into the Region. Chapter Seven covers investment flows in the EAC Region. The chapter provides the Global and Africa perspective with regard to investments trends and patterns. The chapter reviews the EAC investment trends, patterns, and the key constraints to investment attraction faced by the EAC.

CHAPTER 1:

THE EAST AFRICAN COMMUNITY INTEGRATION PROCESS

1.1 BACKGROUND

The East African Community (EAC) comprises the Republic of Burundi, Republic of Kenya, Republic of Rwanda, Republic of Uganda and the United Republic of Tanzania. The EAC will further expand with the admission of the Republic of South Sudan to join the bloc. It is one of the fastest growing integration arrangements on the African Continent. The Treaty for the establishment of the EAC was signed in 1999 and came into force on 7th July 2000. Since then, the EAC Customs Union which was established in March 2005 has made significant progress. In 2010, the EAC established a Common Market. It signed the Monetary Union in 2013 that will come into force in 2023 and aims for the political federation as the ultimate goal.

The EAC is currently upgrading major regional infrastructure projects which include ports, roads, airports and construction of one stop border posts. Improvements at Mombasa included the completion of berth No. 19, completion of new container terminal (berths 20-23) with an annual capacity of 550,000 TEUs. Efforts commenced for relocation of Kipevu Oil Terminal and Implementation of Safety of Life at Sea (SOLAS) Requirement on Container Weight verification. The major improvements at the Dar es Salaam port include the ongoing Dar es Salaam Port Gateway Project improvement which covers deepening and strengthening of existing Berths 1 to 7, to between 13 to 15m below CD; Deepening and widening the entrance channel and turning basin in the port to the end of Berth 14, to between 13 to 15m below CD; and the implementation of SOLAS Requirement on Container Weight verification. These infrastructure developments are aimed at reducing the cost of doing business, improve competitiveness domestically and in the global market thereby increasing trade and investment in the region, which in turn will improve the quality of life for all East Africans.

1.2 OVERVIEW OF EAC INTEGRATION

Customs Union

Partner States are committed to a road map for a fully-fledged Customs Union as set out in the Treaty and the Customs Union Protocol. The rationale for a fully-fledged customs union is to minimize and ultimately facilitate seamless movement of goods. Over the last three years, a number of activities aimed at implementation of the fully-fledged customs union were implemented. These included installation of web-based IT systems for data capture in all revenue authorities, mutual recognition of quality standards within the EAC framework and a tracking mechanism for transit cargo.

Establishment of EAC Single Customs Territory

The attainment of the Single Customs Territory is premised on the need to consolidate the implementation of the Customs Union in accordance with the Treaty establishing the EAC and the Protocol. This framework spells out the main pillars of the Single Customs Territory. The main pillars are Free Circulation of Goods, Revenue Management and the Legal and Institutional Framework.

Partner States agreed on the principle whereby goods originating from one Partner State easily cross to another and goods imported from outside the Customs Union once entered are free to circulate within the EAC. The destination principle was adopted where assessment and collection of revenue

is at the first point of entry and revenue are paid in the destination Partner State subject to the fulfilment of key pre-conditions particularly the use of electronic technology for the assessment, payment and transfer of funds. Also, the implementation of the SCT will necessitate the review of some aspects of the current legal and institutional framework of the Customs Union.

A Single Customs Territory (SCT) reduces the cost of doing business by eliminating duplication of processes. It also reduces administrative costs, regulatory requirements and the risks associated with non-compliance on the transit of goods. The SCT enhances trade in locally produced goods, particularly agricultural goods and boosts the relationship between the private and public sectors. It also acts as a springboard for attracting foreign, domestic and cross-border investment.

The framework on the operationalization of the Single Customs Territory was adopted in 2014. Five Technical Working Groups (TWGs) were established to steer implementation of activities targeted to ensure that the SCT is fully operational. During 2015 , the Technical Working Groups initiated a number of reforms under the Customs Business Systems Enhancement Project (BSEP). These included the Ascyudda World, the Electronic Cargo Tracking System (ECTS) and the Authorised Economic Operator (AEO). Also, the Electronic Single Window (ESW)-a one-stop electronic trade clearance platform to support, simplify and automate trade procedures and improve the doing business environment for the SCT to prosper- was established.

The implementation of the SCT was enhanced by the construction of One-Stop Border Posts (OSBP) linked through Integrated Border Management systems (IBM) to support the coordination of all agencies operating at the border posts. Similarly, initiatives to support elimination of Non-Tariff Barriers (NTBs) and reduce delays in movement of goods were initiated in the Partner States. Partner States held many bilateral meetings aimed at eliminating NTBs between themselves. Quality standards and testing of goods imported into the country were boosted through the setting up of smaller quality testing laboratories to enable goods to be tested without subjecting them to unnecessary delays.

The institutional framework and systems for delivery of the Community agenda were further strengthened through closer engagement between the Secretariat and the East African Legislative Assembly (EALA) as well as the East African Court of Justice (EACJ) as well as the EABC.
The implementation of SCT led to a number of achievements which include full roll out of all intra trade goods for all Partner States cleared under SCT, reduction in the number of multiple declarations and eliminated duplicate processes at the point of entry in the EAC and at final destination. Also cargo moving within EAC is subjected to a single regional bond guarantee, reduced clearance time from Mombasa to Uganda from 18 – 22 days to 4-6 days, Mombasa to Rwanda from 22 days to 6 days, Dar es salaam to Kigali /Bujumbura from 18 – 21 days to 3 - 4 days and reduced turnaround times for transporters from 1 to 3 round trips from Mombasa to Kampala/Kigali in a month and 2 to 4 round trips per month from Dar es Salaam to Kigali.

The ongoing cooperation with the regional private sector bodies, mainly the East African Business Council (EABC), Confederation of Informal Sector Organizations in EAC (EA-CISO) and through trade and investment promotion conferences builds the foundation upon which private sector networks are being expanded.

The EAC Rules of Origin came into force in January, 2015 after their gazettement vide Legal Notice No. EAC/3/2015 of 23rd January, 2015. The revised EAC Rules of Origin are trade facilitative, simpler and supportive of the EAC market. They promote investment in the value adding activities.

1.3 EAC TRADING ARRANGEMENTS WITH OTHER REGIONAL BLOCS

The EAC continued to improve its trade arrangements through promotion of the following trade facilitation initiatives.

EAC-EU EPA Negotiations

The EAC-EU EPA provisions cover: Trade in goods; Agriculture; Economic and Development cooperation; Institutional provisions; Dispute avoidance and settlement; General exceptions; General and final provisions; and related Annexes and Protocols. The agreement also contains an extensive chapter on fisheries – aiming mainly to reinforce cooperation on the sustainable use of resources - and provides further negotiations on services and trade-related rules in the future.

The EAC has committed to liberalise the equivalent of 82.6 percent of imports from the EU by value. Currently, more than half of these imports are already imported duty free, not only from the EU but from the entire world under the EAC Customs Union. The remaining trade between the two blocs will be progressively liberalised within 15 years from the time the EPA agreement enters into force.

The EAC-EU EPA text was agreed by the chief negotiators initialled and reviewed by EAC and EU lawyers on 11th September 2015. The text was sent for translation in order to pave the way to the signing and ratification of the EPA in 2016.

The African Growth and Opportunity Act (AGOA)

The Republic of Gabon and the United States of America hosted the annual US– Sub Saharan Africa Trade and Economic Cooperation Forum, (AGOA) in Libreville, Gabon. The 2015 Forum provided a unique opportunity to: celebrate the recent reauthorization of AGOA; take stock of AGOA's successes over the previous 15 years; strategise for the next 10 years under AGOA; and launch a dialogue on the shared vision for future of US-Africa trade.

The Secretariat and Partner States developed a Regional AGOA Strategy. The EAC AGOA Strategy intends to catalyse and invigorate conditions that facilitate maximum utilization of benefits portended in AGOA. The strategy's objectives are to: increase production and export of tradable products; diversify products exported to the US from EAC Region; intensify value addition; and promote investment.

COMESA, EAC, SADC Tripartite FTA

The TFTA agreement was signed on 10th June 2015 in Sharm el Sheikh, Egypt during the 3rd Tripartite Summit of Heads of State and Government. The Agreement will come into force 30 days after the 14 Tripartite Member/Partner States have deposited their instruments of ratification. The Tripartite Summit also signed the Sharm el Sheikh Declaration launching the Tripartite FTA

and commencement of Phase II of the tripartite negotiations and adopted a Tripartite FTA Post Signature Implementation Roadmap. Work is on–going to finalize the outstanding issues under the phase 1 of the Tripartite Negotiations namely: Rules of Origin, Trade remedies and tariff negotiations. Work is also in progress to finalize the Agreement on Movement of Business Persons; and on the Industrial Development and Infrastructure pillars.

EAC-US Trade and Investment Partnership Agreement

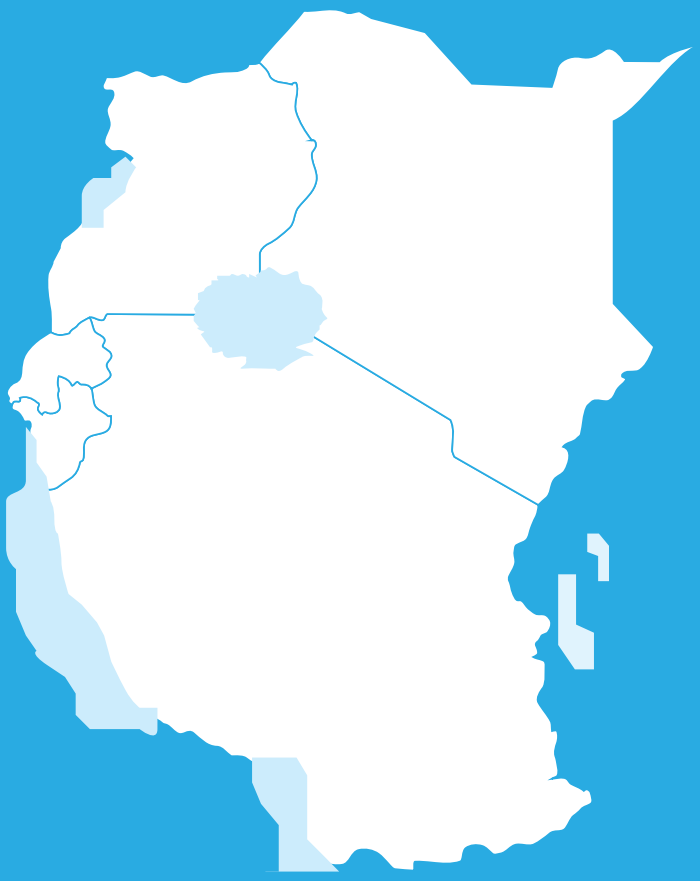
The EAC–US Cooperation Agreement on Trade Facilitation, Sanitary and Phytosanitary (SPS) measures and Technical Barriers to Trade (TBT) was signed on 26th February 2015 during the EAC–US Ministerial meeting in Washington D.C. The objective of the Agreement is to increase exports, expand investment, enhance job creation and economic growth. The EAC-US Trade and Investment Partnership has the following components: Cooperation Agreement on Trade Facilitation, SPS and TBT; Regional Investment Treaty; Continued Capacity Building; and, Commercial Dialogue. The EAC Secretariat developed draft work plans on Trade Facilitation, SPS and TBT which were considered by the Technical Officials of the EAC and US during a joint meeting held in August 2015.

1.4 EXPORT PROMOTION ACTIVITIES

East African Community Special Economic Zones

In order to attract investment and promote industrialization in the Region, the Sectoral Council on Trade, Industry, Finance an Investment (SCTIFI) approved in principle the establishment of various Special Economic Zones (SEZs) schemes in the Region. The schemes include among others, Industrial Parks, Free Trade Zones, Tourist Parks, ICT Parks, Science and Technological Parks as provided under Article 32 of the EAC Customs Union Protocol. In order to support implementation of the protocol, SCTIFI directed the EAC Secretariat to draft regulations on the various investment promotion initiatives under the SEZ scheme. Drafting the SEZ regulations commenced in May 2015 and once complete and adopted by the Council, the Regulations will provide a clear and harmonised framework for the development, operations and management of SEZs in the Region.

MAERSK



CHAPTER 2:

OVERVIEW OF MACRO-ECONOMIC AND TRADE DEVELOPMENTS

2.1 GLOBAL ECONOMIC GROWTH OUTLOOK

According to the World Economic Outlook 2016, global real GDP growth for 2015 decreased to 3.1 percent compared to 3.4 percent growth in 2014 as shown in table 2.1. According to the World Trade Report 2015, real GDP growth in the developed economies as a whole remained stagnant at 1.9 percent similar to the 2014 real GDP growth. Among the developed countries, the real GDP growth in the US remained stagnant at 2.4 percent similar to the growth registered in 2014 while the Euro Zone recorded a growth of 1.7 percent in 2015 compared to 0.9 per cent in 2014. Growth in emerging markets decreased by 0.6 percent from 4.6 percent in 2014 to 4.0 percent in 2015. The slow growth was attributed to declining commodity prices especially crude oil and metal prices, capital market volatility and reduced capital flows as well as the contraction of China whose growth was recorded at 6.9 percent in 2015, down from 7.3 percent in 2014.

In 2015 headline inflations decreased in the developing as well as developed countries. According to the IMF (2016), the fall in headline inflation could be attributed to the fall in commodity prices especially crude oil and mineral ores. With the exception of Brazil, Russia and Venezuela, inflation in emerging markets decreased from 4.5 percent in 2014 to 4.2 percent. Similarly, inflation in developed economies also declined during the year. In the US, inflation declined to 0.1 percent while in Japan, inflation deceased to 1.5 percent by end of 2015. In other smaller advanced economies especially in Eastern Europe and Asia, inflation remained low in 2015. In China, consumer price index inflation was 1.5 percent in 2015.

World Bank (2016) shows that the weakening global commodity prices and specific economic shocks in 2014 and 2015 resulted into depreciation of global currencies especially in emerging markets with flexible exchange regimes. Among the more advanced economies, there were only modest changes. In real effective terms, the Euro appreciated by 3.7 percent and the US dollar by 2.3 percent. Financial market volatility over the later part of 2014 and throughout 2015 was attributed to the slowdown of global economies especially in China and India. This led to lower equity prices and higher interest rate spreads on safe assets. Household credit also grew in 2015 in the US and the Euro Zone (excluding Greece) as a result of improved financial conditions among small and medium enterprises and households.

TABLE 1: SUMMARY OF GLOBAL ECONOMIC GROWTH PERFORMANCE

2.1.1 AFRICA ECONOMIC OUTLOOK

According to the African Development Bank's Africa Economic Outlook 2016, the rate of growth of Africa's economies increased by about 0.6 percent to 4.5 percent in 2015 from 3.9 percent in 2014. This was a positive development after sluggish growth in 2013. Despite the growth, some resource rich countries on the continent experienced an economic downturn due to falling global crude oil prices. The economic growth of Sub-Saharan Africa decreased to 4.5 percent in 2015 from 5.2 percent in 2014. The slowdown in growth can be attributed to deteriorating commodity prices as well as falling global demand for exports from the Region.

2.2 GLOBAL TRADE OUTLOOK

According to the Global Trade Reports of 2016, global trade in goods grew by 2.8 percent in 2015. This was a modest increase of 0.3 percent compared to growth in 2014. Several factors are advanced to explain the slow goods trade growth in 2015. These included the weak economic recovery from the 2009 economic crisis that affected global demand. Currency exchange fluctuations including an appreciation of about 15 percent of the US dollar against most of the world currencies and collapsing oil and metal prices affected import demand for a majority of exporting countries. In US dollar terms, the global trade in goods in 2015 grew by only 0.6 percent to US$ 18.93 trillion up from US$ 18.5 trillion in 2014. Developed countries' share of global trade in goods declined although it still constitutes over 50 percent of the value of global trade in goods.

TABLE 2: GLOBAL TRADE AND INVESTIMENT : ANNUAL PERCENTAGE GROWTH, 2011-2015

REGION/ COUNTRY	2011	2012	2013	2014	2015

Source: *WTO Secretariat 2016*

While the growth of export volumes was modest during 2015, exports of developing countries continued to grow faster at about 3.3 percent compared to exports from developed countries that grew at 2.6 percent. At the same time, imports destined to developed countries increased by 4.5 percent while imports destined to developing countries only increased modestly at 0.2 percent.

In regional terms, South America registered the lowest import growth due to recessionary pressures in the big South American's economies especially Brazil. Crude oil as well as machinery, communication equipment and motors constituted a large proportion of international trade in value terms. Although the price of crude oil continued to fall over the last two years, crude oil sales alone in value terms amounted to about US$ 3.4 trillion over the period 2014-2015. At the same time, the value of global trade in machinery accounted for about US$ 3.0 trillion over the same period. Trade in light engineering, textiles and agricultural commodities over the period averaged about US$ 1.6 billion or less than 10 percent of global merchandise trade.

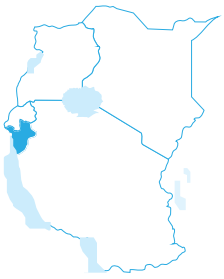
According to the Asia Pacific Trade and Investment Report 2015, the contribution of Asia to import volumes was substantial although the overall impact declined as a result of slowing down in growth of China and other Asian economies. Asia contributed only about 0.6 percent of the global increase amounting to about 23 percent in world import trade while Europe contributed about 1.5 percent of the 2.6 percent in growth in world import trade mainly due to the rebounding of the intra- EU trade over the 2015 period. North America contributed about 1.1 percent of the global import growth while there was negative growth registered in Africa and the Middle East.

2.2.1 TRENDS IN AFRICAN TRADING

About 27 percent of Africa's trade was dominated by China with most of the goods exported including crude oil, metals and other primary products. Intra-Africa trade also expanded in 2015 accounting for about 18 percent of total trade up from 16 percent in 2014 with manufactured products accounting for over 60 percent of the intra-Regional trade. The European Union remained a key export partner for African commodities, although exports to EU increased only marginally by 0.2 percent in 2015. On the other hand, trade between Africa and the United States declined in 2015 to US$ 70.5billion. Proposals for enhancing intra-Africa trade include the implementation of the Tripartite Free Trade Area (TFTA) as well as the establishment of the Continental Free Trade Area (CFTA).

2.3 EAC ECONOMIC GROWTH

According to the African Development Bank's Africa Economic Outlook 2015 East Africa's growth decreased in 2015 to 5.6 percent from over 7 percent in 2014. Despite the reduction in real GDP growth during 2015, East Africa remained among Africa's fastest growing regions. Growth in East Africa was driven by the services sector although the construction and industrial sectors contributed significantly to growth in the goods sector of Regional trade among East African countries. Also, there are differences in the growth of the member countries that make up the EAC.



2.3.1 BURUNDI

Economic Growth

During 2015, Burundi's economy recorded a recession with growth recorded as negative 3.9 per cent, against a growth of 4.5 percent in 2014. The decrease was mainly linked on the negative growth in primary sector by negative 3.6 percent

in 2015 against a growth of 3.7 percent in 2014 Growth in secondary sectors was negative 14.1 percent in 2015 compared to a growth of 7.4 percent in 2014. The services sector decelerated and grew by 2.0 percent in 2015 against a growth of 4.4 percent in 2014. In primary sector, this decline of production is linked to the decrease in food production. Food production grew by negative 3.6 in 2015 compared to a growth of 3.7 percent reported in 2014. Food crops grew by negative 4.7 percent in 2015 compared to a growth of 3.4 percent in 2014 Agricultural export growth was registered at 1.9 percent in 2015 compared to a growth of 12.2 percent in 2014.

The secondary sector has suffered from the underperformance of food industries whose growth was negative 4.0 percent in 2015 compared to a growth of 2.0 percent in 2014. The manufacturing sector growth was negative 4.4 percent in 2015 compared to a growth of 17.7 percent in 2014. The construction sector growth was registered at negative 35.1 percent down from a growth of 9.0 percent in 2014.

The deceleration in the services sector to 2.0 percent in 2015 from 4.4 percent in 2014 was mainly due to a decrease in trade, which grew at negative 9.0 percent in 2015 compared to a growth of 5.8 percent in 2014. The transport sector growth was negative 24.8 percent in 2015 compared to a growth of 4.5 percent in 2014. This decrease in the trade and transport outweighed the growth in ICT and administration. ICT, mainly communication and internet sectors, grew by 32 percent in 2015 compared to 6.4 percent in 2015 while public administration grew by 8.2 percent in 2015 up from 0.1 percent in 2014.

Inflation

Burundi's annual inflation amounted to 5.6 percent in 2015 up from 4.4 percent in 2014. This loss of purchasing power is mainly linked with the increase of food prices to 5.8 percent in 2015 from 2.0 in 2014. The non-food prices decelerated to 5.4 percent in 2015 from 6.2 percent in 2014.

The food inflation was driven by higher prices of some products like bread and cereals which grew by 4.6 percent in 2015; meat prices grew by 5.5 percent; fish prices by 14.9 percent; fruits by 3.4 percent; and vegetables by 5.6 percent. Prices of dairy products especially milk, cheese and eggs increased by 6.6 percent and sugar and sugar products by 3.5 percent. The deceleration in non-food inflation was driven by the decrease in prices of furnishings, household equipment and routine maintenance to 6.6 percent in 2015 compared to 17.3 percent in 2014. Health sector prices grew by 3.8 percent in 2015 compared to 8.3 percent in 2014. Transport sector prices grew by 0.7 percent in 2015 compared to 6.4 percent in 2014 while prices of other goods and services grew by 6.4 percent in 2015 down from 10.4 percent in 2014.

Exchange Rate

In 2015, the Central Bank of Burundi continued to implement the exchange rate policy based on the floating exchange rate driven by market mechanisms. During this period, the Burundi franc appreciated against major foreign currencies by 3.5 percent against Swiss francs; 11.4 percent against Japanese Yen; 6.3 percent against Special Drawing Rights (SDRs); 6.3 percent against Sterling Pound; 15.2 percent against Euro; 7.3 against Kenyan shilling; 16.6 percent against Tanzanian shilling;

17.9 against Ugandan shilling; and 2.4 percent against Rwandan francs. However, Burundi francs depreciated by 1.6 percent against the US dollar.

Balance of Payments

Burundi's current account deficit stood at US$ 371.3 million in 2015 compared to US$ 384.5 million recorded in 2014. This was mainly due to a contraction in goods and services balance which declined to US$ 646.6 million in 2015 from US$ 709.6 million recorded in 2014 combined with the deceleration of secondary income to US$ 277.7 million in 2015 from US$ 331.9 million in 2014.

The capital and financial account recorded a sharp decrease to US$ 365.0 million in 2015 from US$ 387.3 million 2014 mainly due to the decline in both capital transfers to US$ 55.6 million in 2015 from US$ 81.8 million recorded in 2014. The financial account balance declined to US$ 305.5 million in 2015 from US$ 309.4 million in 2014. There was also a decrease of direct investment balance and other investments balance to US$ 49.9 million in 2015 from US$ 81.7 million in 2014 and to US$ 86.8 million in 2015 from US$ 176.9 million in 2014, respectively.

National Savings

Domestic consumption, which amounted to US$ 3.3 billion, exceeded the Gross Domestic Product of US$ 2.8 billion. Consequently, gross domestic savings fell to negative US$ 506. 3 million in 2015 compared to US$ 23.2 million in 2014. Gross national savings decreased to US$ 230.8 million in 2015 from US$ 348.4 million in 2014. This was due to higher consumption and decrease of primary and secondary incomes to US$ 275.4 in 2015from US$ 325.2 million in 2014. The net lending of the economy remained almost the same levelat about US$ 405.37 million in 2015 similar to US$ 403.92 million in 2014. There was a drop in investment to US$ 172.1 million in 2015 from US$ 753.5 million in 2014.

External Debt

External debt stock increased by 5.9 percent to US$ 442.6 million in 2015 from US$ 424.5 million in 2014. This growth resulted from new drawings of US$ 19.9 million and capital gains from revaluation of US$ 9.2 million which exceeded the repayment of principal of US$ 4.2 million. The new drawings were related to direct debt to finance the road sector, agriculture, energy and other public equipment.

The public external debt primarily funded public sector infrastructure, various projects, productive sectors and social sectors whose relative shares represented 47.5 percent, 26.9 percent, 18.0 percent and 8.3 percent of the total outstanding public external debt, respectively. Over 99 percent of external debt was concessional of which 76 percent was from multilateral sources while 14 percent was bilateral debt.

2.3.2 KENYA

Economic Growth

Kenya's economy remained resilient in 2015, growing by 5.6 percent in 2015 up from 5.3 percent in 2014. The growth was supported by significant infrastructure investments, improvement in agricultural productivity and lower energy prices. The sectors which registered strong performance were

agriculture, manufacturing, construction, transport and storage and financial services sector which grew by 5.6 per cent, 3.5 per cent, 13.6 per cent, 7.1 percent and 8.7 per cent, respectively. Growth in the construction sector was attributed to increased investment in infrastructure development such as the Standard Gauge Railway (SGR) and roads project as well as real estate development. Growth in agriculture was attributed to improved animal production. Growth in the financial services sector was buoyed by enhanced financial innovations in the sector.

Inflation

Kenya's annual average inflation declined to 6.6 percent in 2015 from 6.9 percent in 2014, mainly on account of lower oil prices, low cost geothermal energy and prudent monetary policy. However, the overall month on month inflation exceeded the 7.5 percent upper bound of the Government target range to average at 8.0 percent in December 2015 from 6 percent in December 2014. The adverse situation is attributed to drought conditions early in the year, which pushed up the prices of potatoes, tomatoes, milk, cabbages, beans and onions; and the impact of the revised excise taxes that was effected from 1st December, 2015.

Exchange Rate

In Kenya the foreign exchange market remained generally stable during 2015, trading at an average of 98.18 per US$, compared to 87.92 per US$ in 2014. Despite the general stability in the Shilling for most of 2015, the foreign exchange market recorded a sharp depreciation from April to September 2015, on account of volatility in the global financial market and some indiscipline in the foreign exchange markets. Consequently, the CBK raised the policy rate by 300 basis points between May and July 2015 to mitigate the impact of the volatility on inflation expectations. This resulted to stability in the Shilling during the third quarter of 2015.

Balance of Payments

In Kenya the overall balance of payments recorded a surplus of US$ 254 million in 2015 compared to a deficit of US$ 1,454 million in 2014. The improvement in the overall balance reflected a reduction in the liabilities in the financial account and the improvement in the current account balance.

The current account balance improved to a deficit of 6.8 percent of GDP in 2015 from a deficit of 9.8 percent of GDP in 2014. The narrowing of the current account balance was attributed to a lower import bill which more than offset declining exports receipts. The lower import bill was on account of lower oil prices in the international market. The financial account was in surplus reflecting higher inflows, specifically through project loans to finance the Standard Gauge Railway project underway.

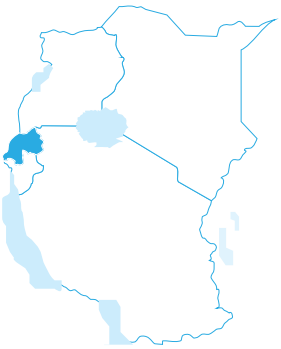
The deficit in the financial account declined to US$ 5,070 million in 2015 from US$ 7,010 million in 2014, reflecting an increase in net acquisition of all categories of financial assets (Foreign Direct Investment, Portfolio Investment and Other Investments) as well as reduction in net liabilities especially the Portfolio Investment.

National savings

The level of gross savings increased by 6.8 percent to US$ 7,291.8 million in 2015 compared to US$ 6,829.4 million in 2014. As a share of GDP, the gross savings increased to 11.5 percent from 11.1 percent over the same period, reflecting higher savings relative to consumption, following the introduction of financial innovation products in the market.

External Debt

The overall debt stood at US$ 26.4 billion (22.9 percent of GDP) as at the end of fiscal year 2014/2015 and comprised bilateral, multilateral and internal debts which constituted 17.1, 26.3 and 45.3 percent of the total debt, respectively. External debt rose from US$ 13.0 billion as at the end of fiscal year 2013/2014 to US$ 14.4 billion as at the end of 2014/2015 fiscal year. On the other hand, the domestic debt decreased from US$ 12.3 billion to US$ 11.9 billion over the same period.



2.3.3 RWANDA

Economic Growth

In 2015, the Rwandan economy grew at almost the same rate as in 2014. The growth was estimated at 6.9 percent compared to 7.0 percent in 2014. In 2015, the Services sector contributed 47 percent of GDP while the agriculture and industry sectors contributed 33 percent and 14 percent to GDP, respectively.

Inflation

In 2015, Rwanda achieved a moderate stable inflation on the account of sustained and well-coordinated monetary and fiscal policies coupled with limited inflationary pressures from trading partners and easing international commodity prices especially oil prices. The headline inflation averaged 2.5 percent over 2015 and rose to 4.5 percent in December 2015 compared to 1.8 percent recorded in December 2014.

Exchange rate

In 2015, the foreign exchange market was under relatively higher pressure mostly resulting from the strengthening of the US dollar around the world, the contagion from high depreciation of Regional currencies and associated speculative behaviour, and the decline in exports earnings. As a result, the FRW depreciated against the US$ by 7.6 percent in 2015, trading for FRW 747.41 to the dollar from FRW 694.37 to the dollar by the end of December 2014. In the same period, the FRW appreciated by 3.2 percent versus the EURO but depreciated by 2.8 percent against the British Pound (GBP). The Rwanda Franc also appreciated by 4.6 percent, 13.5 percent and 11.6 percent against the Kenyan, Tanzanian and Ugandan shillings, respectively. The appreciation of FRW against the three Member States' shillings was mainly due to the weakening of Regional currencies against the US$.

Balance of payments

In 2015, Rwanda's overall estimation of the balance of payments has shown a deficit of US$ 28.4 million compared to a deficit of US$ 90.4 million in 2014. This achievement was a result of a decrease in exports of goods, -6.8 percent compared to a low decrease in imports of -3.20 percent which are always higher than exports about fourfold. Capital grants decreased from US$ 337.1 million in 2014 to US$ 294.8 million in 2015.

National Savings

The Gross national savings in 2015 increased to US$ 986.7 million from US$ 991.8 million recorded in 2014. As a share to Nominal GDP, the percentage share of Gross National Savings decreased to 12.2 percent in 2015 from 12.5 percent reported in 2014.

External Debt

In 2015, the public external debt was mostly composed of loans from multilateral institutions, such as IDA and the African Development Bank representing 83.2 percent of total public external debt. The remaining 16.8 percent were from bilateral partners. Compared with 2014, the public external debt stock of Rwanda rose by 16.9 percent to US$ 2.8 billion at the end of 2015 from US$ 2.4 billion at the end of 2014. This was mainly driven by an increase of 23.5 percent of multilateral debts which rose to US$ 260.8 million.

2.3.4 TANZANIA

Economic Growth

In 2015, Tanzanian economy maintained a growth of 7.0 percent as registered in 2014. The performance was mainly driven by the increase in production of electricity using natural gas which contributed to a boom in construction activities; and a rise in industrial and cement production.

Inflation

The overall annual average inflation in 2015 slowed down to 5.6 percent from 5.8 percent registered in 2014 mainly due to low oil prices in the World market and also low prices of some non-food items including alcohol, tobacco and narcotics, housing, water, electricity, gas and fuel. Also furnishing, housing equipment and maintenance; health; transport; and tight monetary and prudent fiscal policies contributed to the performance.

Exchange Rate

The value of the Tanzanian shilling (TZS) compared to the US dollar depreciated marginally from January to December 2015. The rate of depreciation accelerated towards the end of the year. In 2015, the shilling was traded at an average rate of TZS 1,985.39 per US$ compared to an average of TZS 1,652.51 to the US$ in 2014.

Balance of Payment

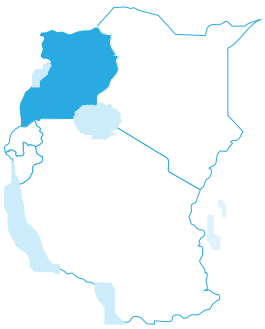
In 2015, Tanzania's overall balance of payments registered a deficit of US$ 258.4 million compared to deficit of US$ 233.8 million recorded in 2014.Capital and financial account transactions could not fully offset the deficit in the current account. Gross official reserves amounted to US$ 4.1 billion at the end of December 2015, and it was sufficient to cover four months of projected imports of goods and services excluding those financed by foreign direct investment.

National Savings

The level of gross national savings increased by 7.76 percent from US$ 10.4 billion in 2014 to US$ 11.3 billion in 2015. This was largely as a result of the increase in inflows through foreign direct investment over the past five years. A share of National Savings to GDP increased from 21.6 percent to 24.6 percent over the same period.

External Debt

The external debt stock, as at the end of December 2015 went up by US$ 832.6 million to US$ 15.4 billion compared US$ 14.6 billion in 2014. The profile of external debt by borrower category shows that the central government continued to account for the largest share of about 80.8 percent amounting to US$ 12,455.1 million while private sector debt amounted to US$ 2,953.4 million at the end of December 2015. The increase was on account of new disbursements and accumulation of interest arrears by the private sector. External debt by creditor category shows that multilateral creditors accounted 46.8 percent of the debt followed by commercial creditors, which was 34.4 percent of the total debt.



2.3.5 UGANDA

Economic Growth

Uganda's economy registered a growth in real GDP of 5.3 percent in 2015, up from 4.8 percent in 2014. This performance was on account of investments in infrastructure improvements in food crops production as well as the development of the industry and services sectors, notably tourism. The commencement of construction of the Karuma and Isimba dams during the year contributed significantly to sustained economic growth. Overall growth was dampened by the fall in oil prices that affected investment in the energy sector as well as lower commodity prices for coffee and cotton that reduced Uganda's export earnings. During the year, the Government continued with prudent macroeconomic policies that helped to contain government expenditure and maintain economic growth and activities.

Inflation

Uganda's annual average inflation rate rose from 4.3 percent in 2014 to 5.2 percent in 2015. Inflationary pressures rose during the year largely on account of surging food crop prices, exchange rate depreciation and increased domestic demand.

Exchange rate

The Uganda shilling (UGX) underwent significant depreciation pressures in 2015. The UGX depreciated by 24.8 percent against the US$ from an average exchange rate of UGX 3,245.5 to the US$ in 2014 to UGX 3,377.0 per US$ in 2015. This was largely due to global strengthening of the US$ against other international reserve currencies, the widening current account balance, heightened demand for foreign exchange, especially by the corporate sector, as well as speculative tendencies in the domestic foreign exchange market.

Balance of payments

Uganda's overall balance of payments in 2015 was recorded as a deficit of US$ 396.7 million. This was a reversal from a surplus of US $ 215.9 million registered in 2014. However, the current account deficit improved by 2.7 percent from US$ 2,381.3 million in 2014 to US$ 2,216.3 million in 2015, driven by a lower import bill. Official foreign exchange reserves declined to US$ 2,843.1 million as at the end of December 2015 from US$ 3,246.3 million as at the end of December 2014.

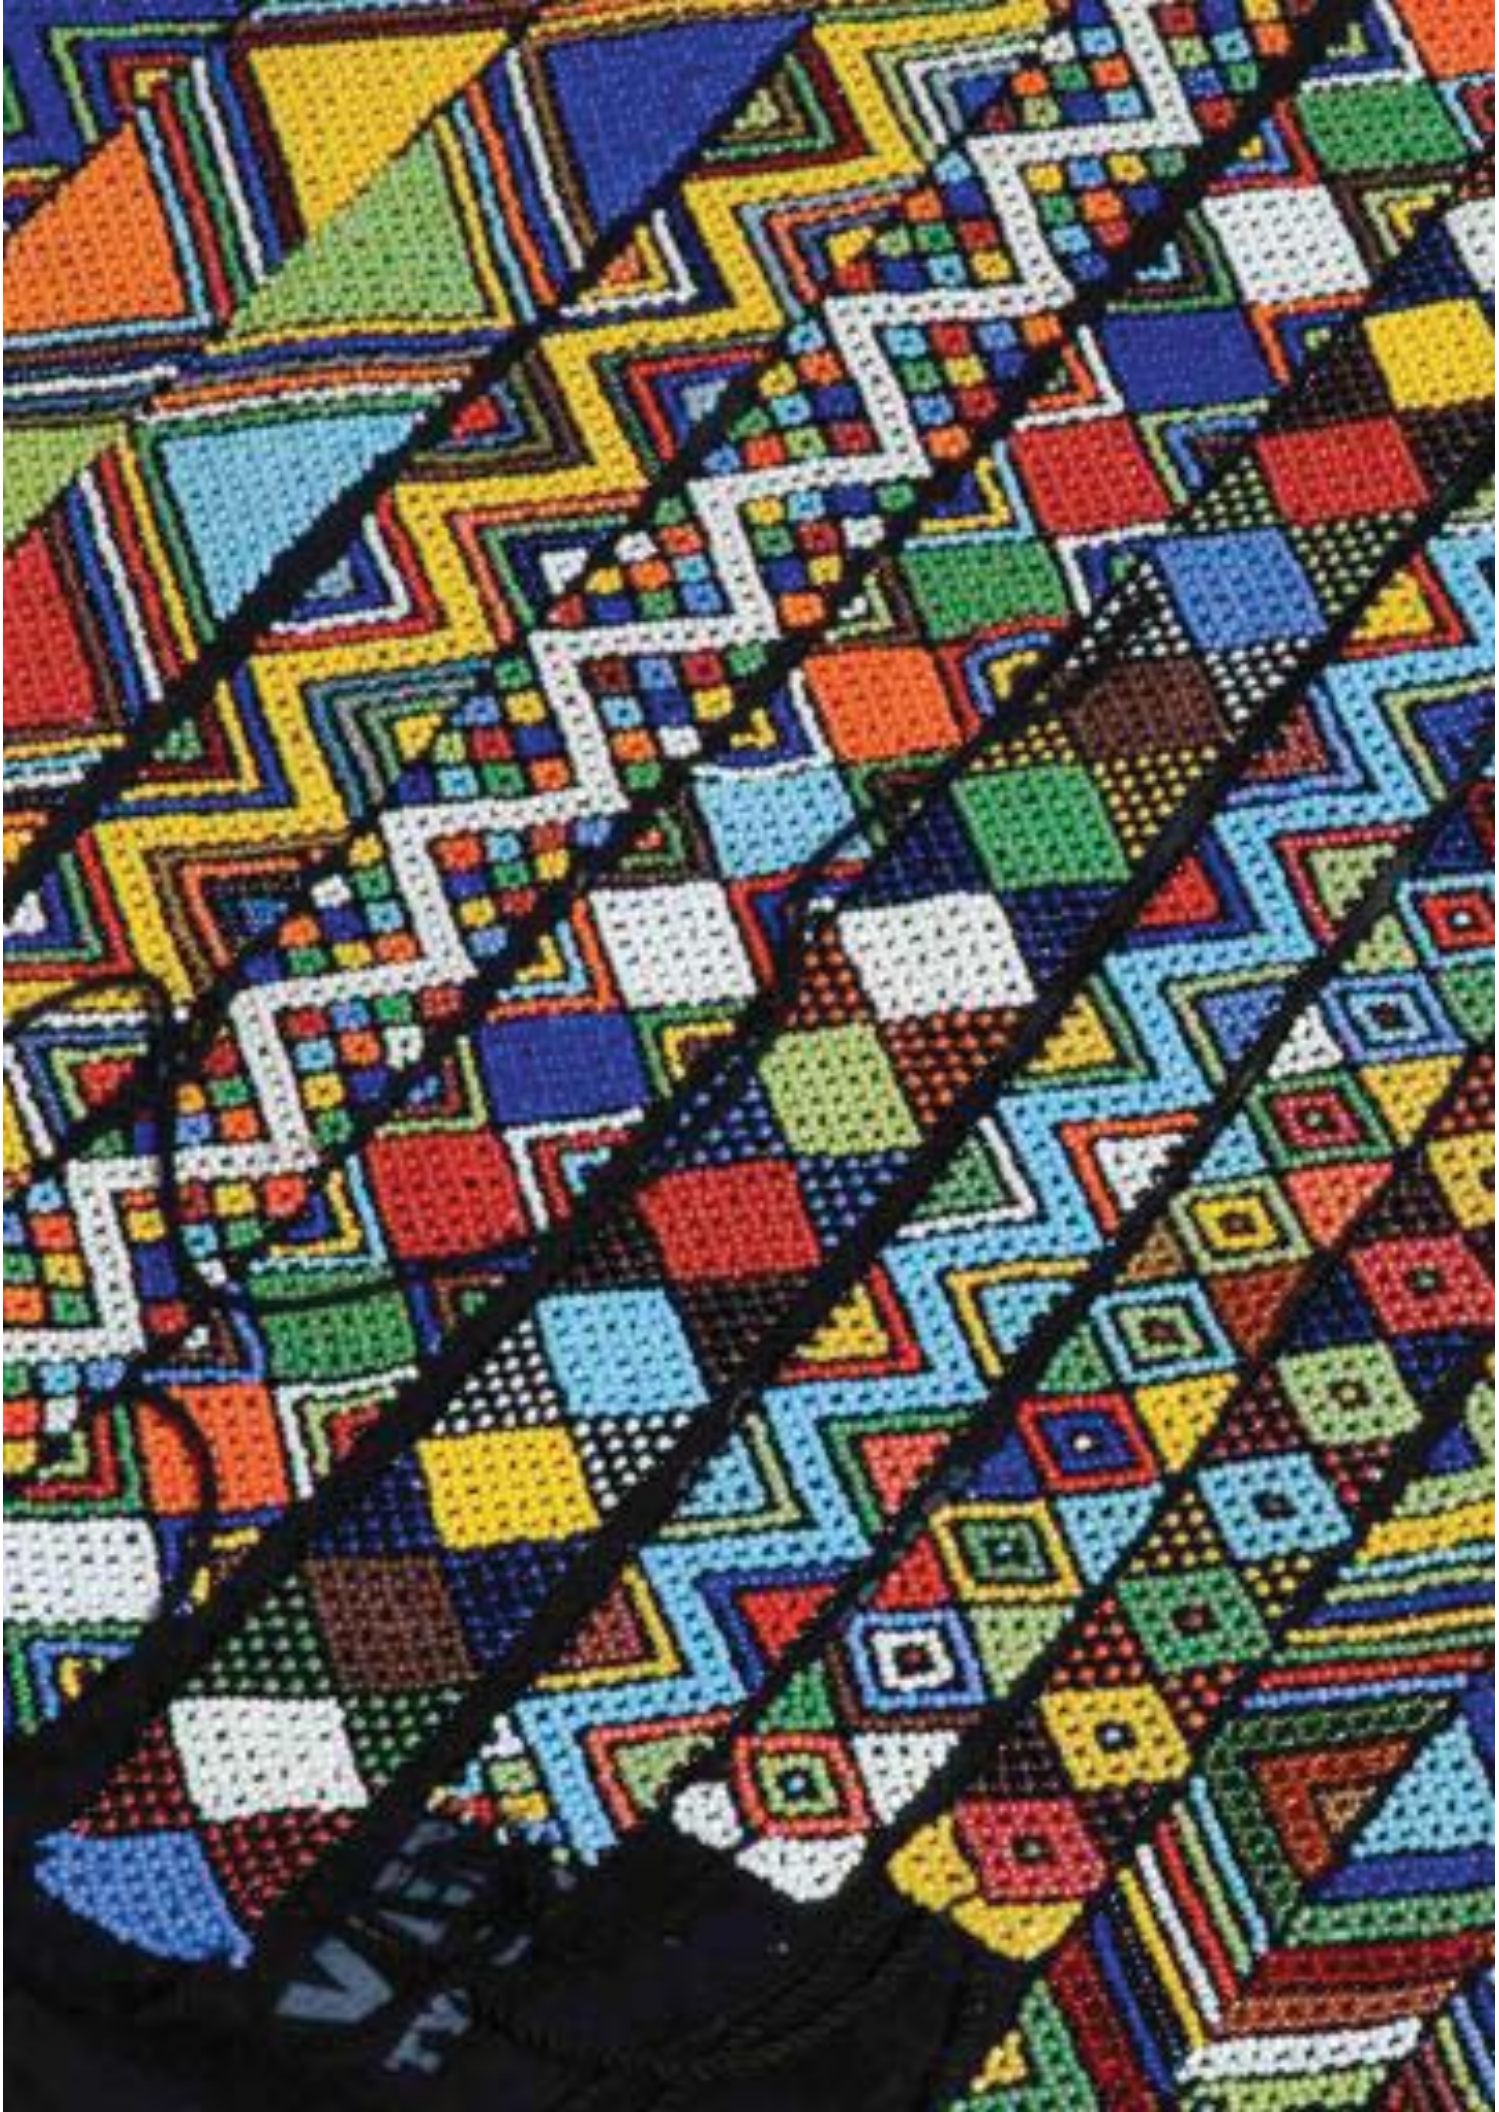
National Savings

In 2015, Uganda's Gross National Savings as a percent of GDP was 17.7 percent. This was higher than the 16.8 percent recorded in 2014. The world's average Gross National Savings as a percentage of GDP is averaged at 17.5 percent. This suggests that Uganda's Gross national Savings as a percent of GDP is almost matching the world's average percentage points.

External Debt

Uganda's external debt stock increased from US$ 4.3 billion as at the end of December 2014 to US$ 4.9 billion as at the end of December 2015. Multilateral creditors remain the major sources of external debt, accounting for 79.3 percent of debt outstanding at the end of 2015, down from 86.0 percent at the end of December 2015. The share of outstanding external debt stock owed to bilateral sources increased by 71.0 percent in 2015, to US$ 1.0 billion, largely driven by new loans from China to finance the numerous infrastructure projects being implemented by the Government.

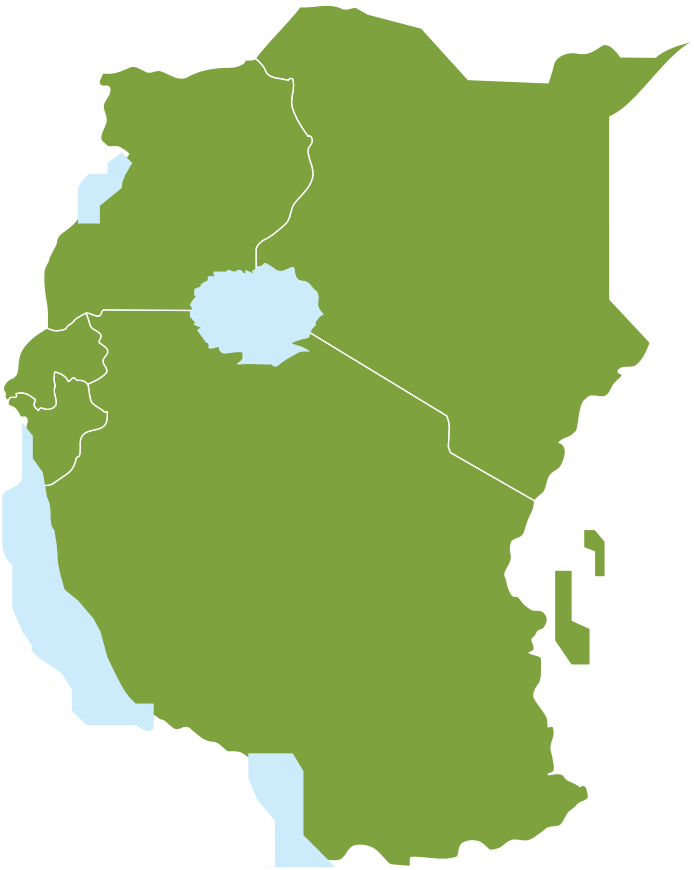
Kampala City



CHAPTER 3:

EAC TRADE PERFORMANCE

3.1 SECTORAL DISTRIBUTION OF EAC TRADE



A large proportion of trade between East African countries and the rest of the world consists of trade in primary commodities although trade in finished products is growing. The main exports in 2015 included tea, coffee, cocoa, and horticultural products as well as mineral ores especially gold and diamond. According to ***the Africa Trade and Investment Report 2016,*** EAC is heavily dependent on imports. The key imports from the rest of the world include petroleum products, machinery and electronics, motors, iron steel and plastics, pharmaceutical and cereals specifically rice.

3.2 TOTAL EAC TRADE TRENDS

The total EAC trade in goods is presented in table 3.1 below. The table shows that EAC recorded a 7.4 percent decline in trade to US$ 55.4 billion in 2015 from US$ 59.8 billion in 2014. Total EAC exports in 2015 fell by 17.5 percent to US$ 16.0 billion from US$ 19.4 billion in 2014. The bulk of EAC exports were destined to COMESA and the European Union amounting to14.6 and 15 percent respectively. Intra-EAC exports amounted to 19.6 percent of total exports.

Total EAC imports fell by a modest 2.5 percent to US$ 39.4 billion in 2015 from US$ 40.4 billion in 2014. Imports from the EU accounted for about 13.3 percent while intra-EAC imports accounted for about 5.0 percent in 2015. Overall, the region registered a trade deficit in the trade with the rest of the world. In 2015, the trade deficit for the EAC grew by 11.3 percent to US$ 23.4 billion up from a deficit of US$ 21.0 billion in 2014.

2.5%

Total EAC imports fell by a modest 2.5 percent to US$ 39.4 billion in 2015

13.3%

Imports from the EU accounted for about 13.3 percent while intra-EAC imports accounted for about 5.0 percent in 2015

Notes*:*
(1) COMESA excludes Kenya, Uganda, Burundi and Rwanda
(2) SADC excludes Tanzania
(3) COMESA and SADC have overlapping membership

3.3 INTRA-EAC TRADE TRENDS

The value of intra-EAC trade declined by 10.0 percent from US$ 5.6 billion in 2014 to US$ 5.1 billion in 2015 as shown in Table 4 below. According to table 3.2, the decline was mainly attributed to the decreases of 8.3 percent, 19.2 percent and 27.5 percent in the value of total trade for Kenya, Tanzania and Rwanda, respectively.

Table 4: TOTAL INTRA-EAC TRADE, 2011-2015 (US$ MILLION)

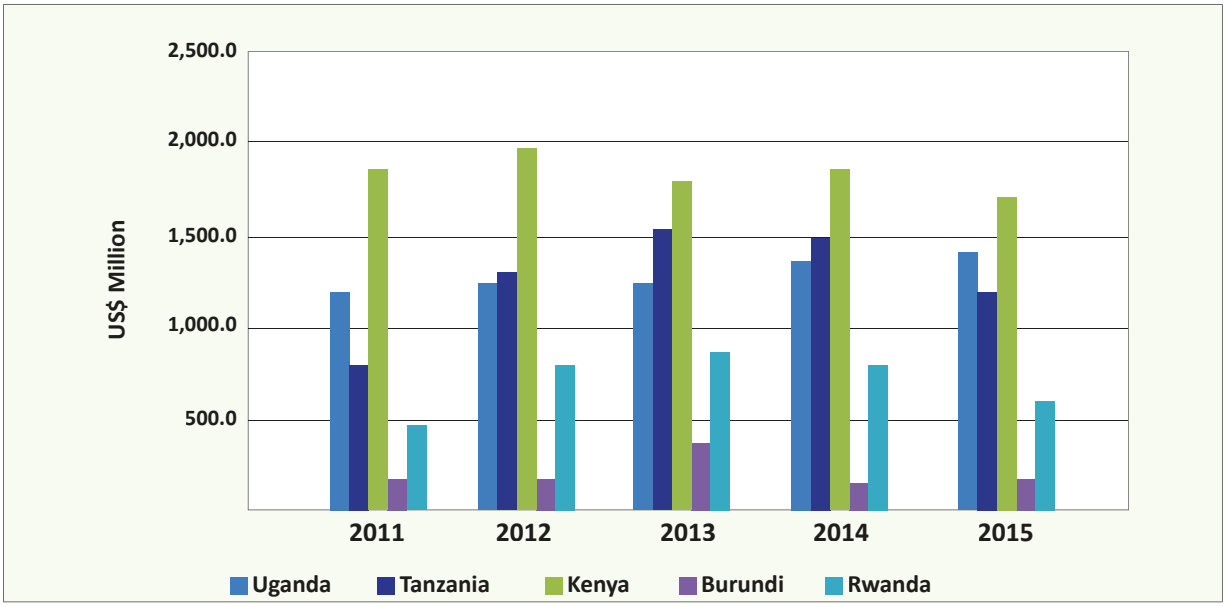
Source: Partner States Revenue Authorities, Central Banks and National Statistics Offices

Uganda and Burundi recorded an increase in their shares of total intra-EAC trade while that of Kenya, Rwanda and Tanzania decreased. During the year, the level of intra-regional imports to Uganda decreased by 8 percent to US$ 630.2 million from US$ 684.6 million in 2014. However, the increase in total trade could be attributed to the increase of more than 20 percent in the total exports to the Partner States to US$ 771.6 million from US$ 642.2 million in 2014. On the other hand, the increase in total trade of Burundi could be attributed to the increase in the level of imports which rose by 7.3 percent to US$ 151.1 million in 2015 from US$ 126.1 million in 2014. During the year, Kenya continued to dominate intra-EAC trade, accounting for about 33.4 percent of total intra-EAC trade while Uganda and Tanzania accounted for 27.7 percent and 23.7 percent of the total intra-EAC trade, respectively.

The composition of intra-EAC trade was mainly dominated by agricultural commodities namely; coffee, tea, tobacco, cotton, rice, maize, and wheat flour and manufactured goods such as cement, petroleum products, textiles, sugar, confectionery, beer, salt, vegetable fats and oils, iron and steel, paper, plastics, and pharmaceutical products as in previous years.

Figure 1: TOTAL INTRA-EAC TRADE, 2011-2015 (US$ MILLION)



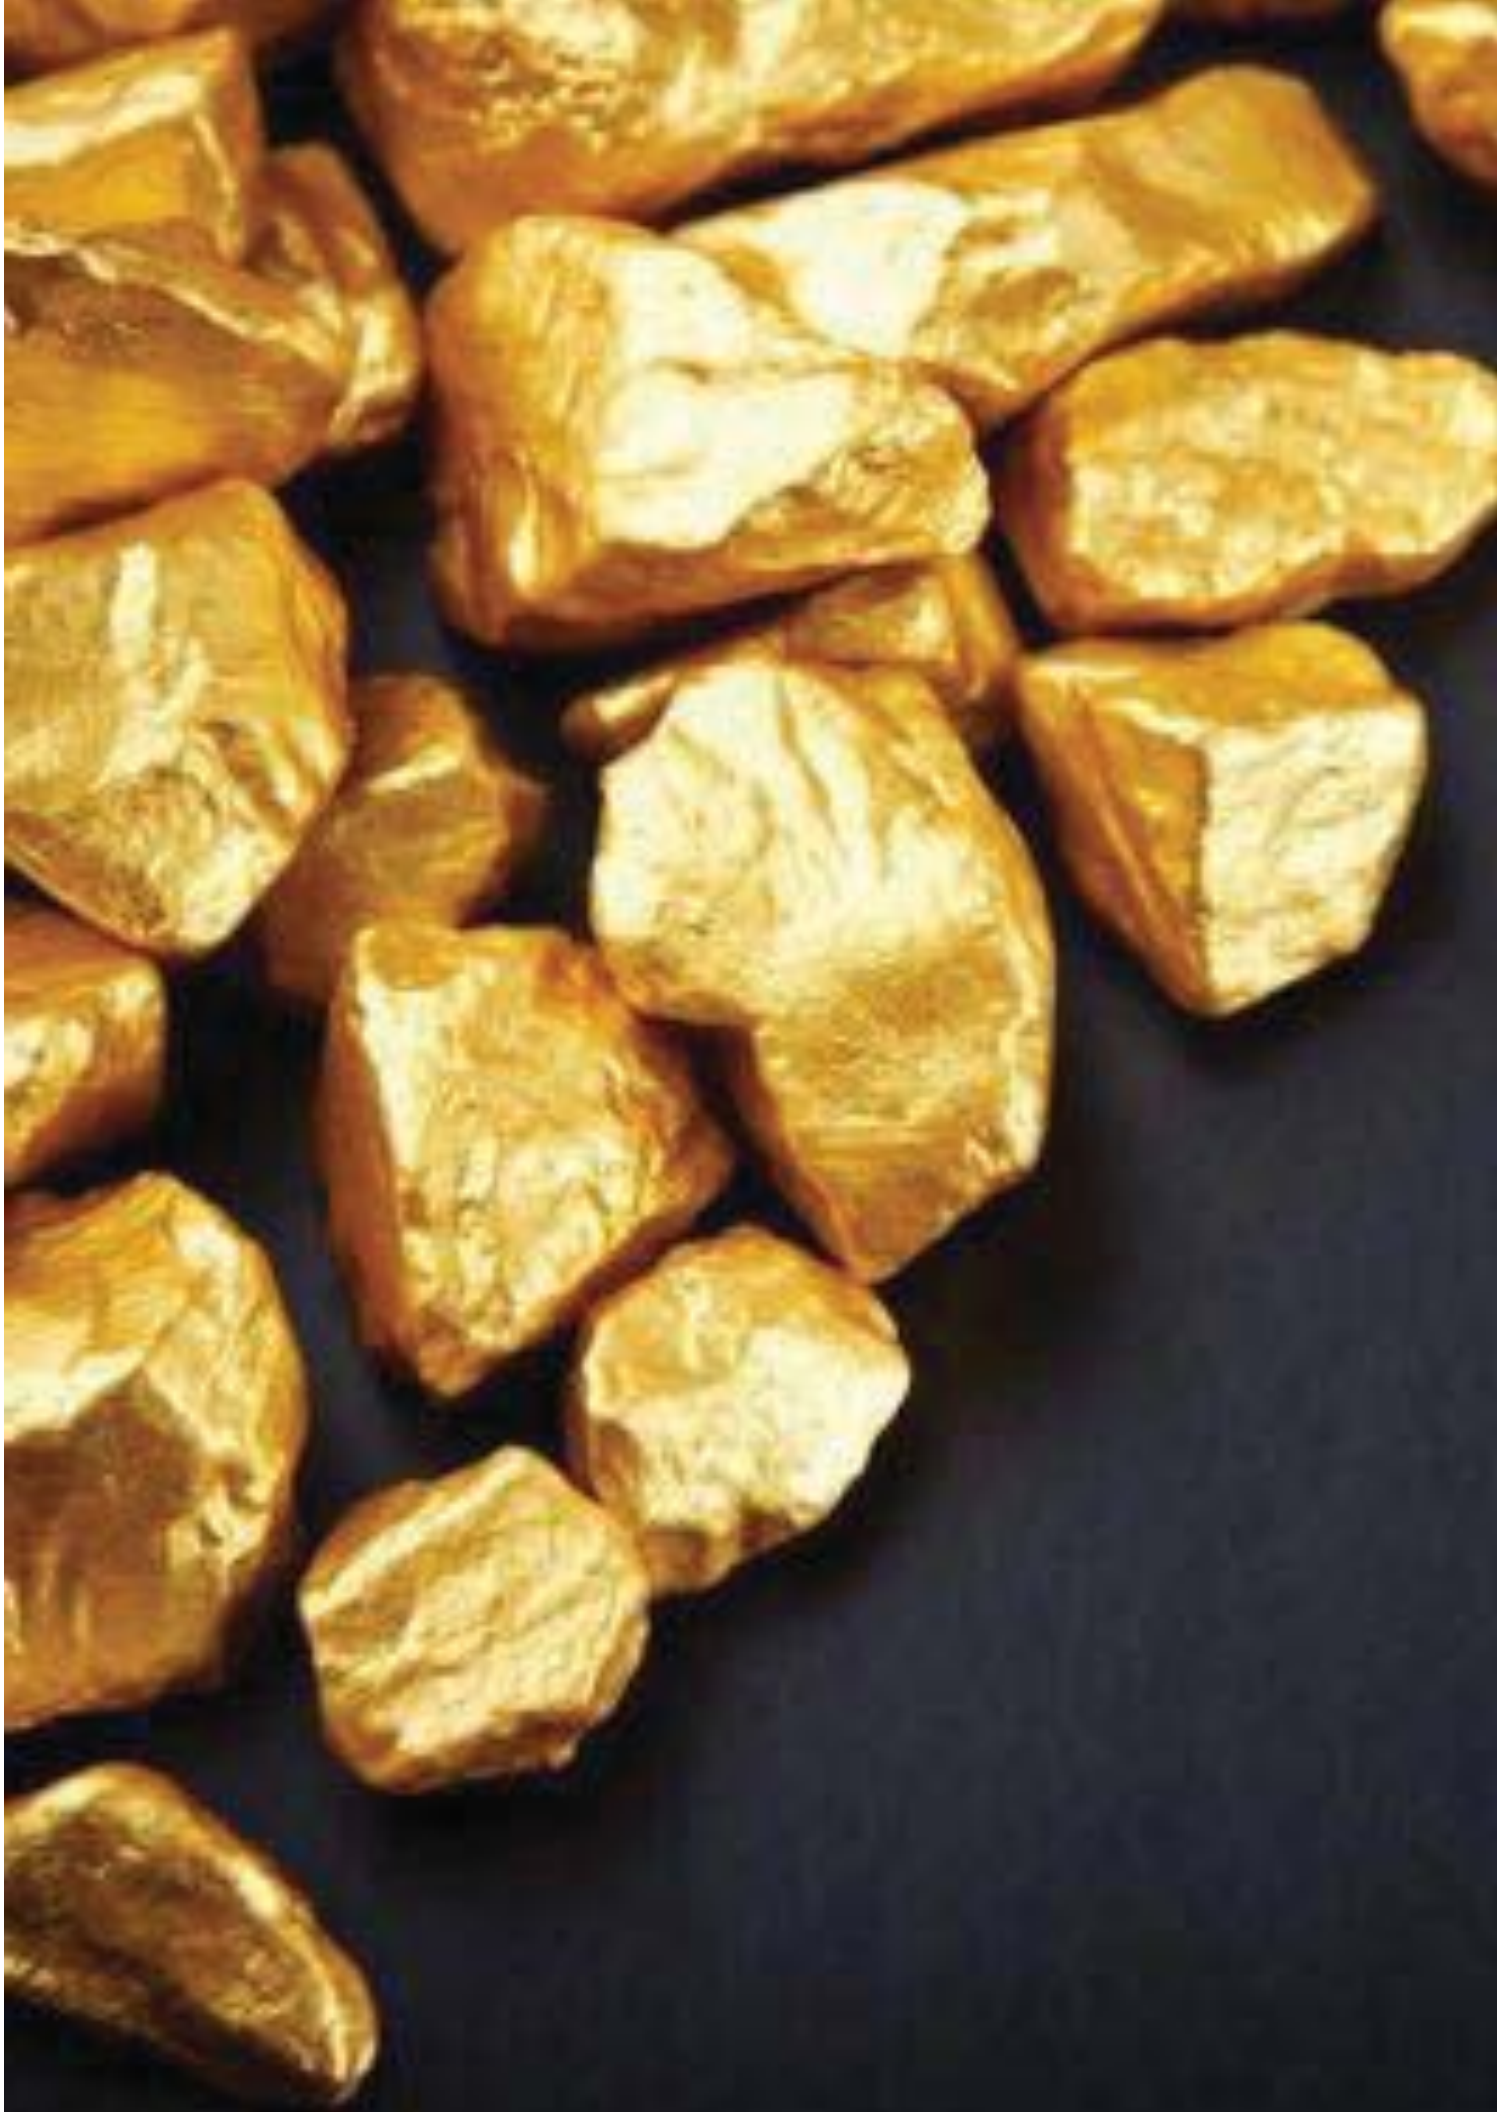
Source: Partner States Revenue Authorities, Central Banks and National Statistics Offices

Intra-EAC Exports

During the review period, the total intra-EAC exports decreased by 3.2 percent to US$ 3.1 billion in 2015 from US$ 3.2 billion in 2014. Uganda, Tanzania and Burundi recorded growths of 20.1 percent, 18.6 percent and 6.2 percent, respectively. Total exports from Uganda, Tanzania and Burundi amounted to US$ 771.6 million, US$ 27.0 million and US$ 924.8 million, respectively. However, Kenya's exports registered a decline of 10.1 percent to US$ 1.3 billion in 2015 from US$ 1.4 billion in 2014 while Rwanda's exports also registered a decline of 66 percent to US$ 118.9 million in 2015 from US$ 352.4 million in 2014.

Intra-EAC Imports

The value of total intra-EAC imports decreased by 19.2 percent to US$ 2.0 billion in 2015 from US$ 2.4 billion in 2014. Burundi and Rwanda registered positive growths in imports of 7.3 percent and 1.9 percent, respectively. However, Tanzania, Uganda and Kenya recorded declines of 60.7 percent, 8.0 percent and 2.2 percent of intra-EAC imports, respectively. Overall, the major intra-EAC imports consisted of industrial products namely: cement, petroleum products, sugar, confectionery, vegetable fats and oils; iron and steel; paper, plastics, pharmaceutical products, inorganic chemical compounds, fertilizers, and agricultural products such as cereals (rice, maize, wheat flour).



CHAPTER 4:
TRADE IN THE EAC PARTNER STATES

During the year, EAC Partner States continued to trade among themselves as well as with other Regional integration blocs and the rest of the world. Total intra-Regional exports decreased by 3. 2 percent to US $ 3.1 billion in 2015 from US$ 3.2 billion in 2014. Imports over the same period also decreased by 19.2 percent to US$ 1.9 billion from US$ 2.4 billion in 2014. Overall, trade among the Partner States decreased by 10 percent during the year to US$ 5.1 billion from US$ 5.6 billion in 2014. The main trading partners outside the EAC Region included EU, COMESA, SADC, USA, UAE, India and China. EAC continued to experience a trade deficit in the trade with the rest of the world due to the high import bill incurred on the capital goods, finished products and fuel products compared to the revenue generated from the exports. Most of the exports to the rest of the world constituted primary commodities and mineral ores.

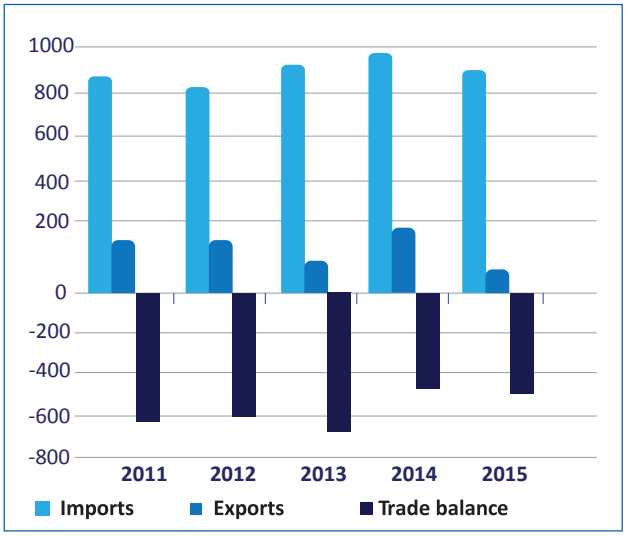
4.1 BURUNDI

4.1.1 INTERNATIONAL TRADE

Burundi's international trade in 2015 decreased by 9 percent to US$ 910.7 million from US$ 1.0 billion recorded in 2014 as shown in the Figure 2 below. The decrease in international trade was largely a result of a decrease in imports from US$ 861.1 to US$ 792.9 million and in exports from US$ 168.4 to US$ 117.2 million due to the decrease of trade with India (69.9 per cent), Japan (35.9 percent) and Rwanda (67.5 percent).

During the same period, the EU was Burundi's major trading partner with trade volume of US$ 179.4 million which was about 19.5 percent of the total trade. China's trade with Burundi amounted to about US$ 101.5 million or 11.1 percent of total trade, while India's trade with Burundi amounted to US$ 74.6 million or 8.1 percent of total trade. Meanwhile, total trade with UAE increased by 73.1 percent to US$ 92.4 million in 2015 from US$ 53.4 million in 2014. Overall, Burundi's trade deficit in 2015 decreased to US$ 673.8 million from US$ 692.7 million in 2014 on account of the decrease in both exports and imports over the year.

FIGURE 2: BURUNDI'S TOTAL EXPORTS, IMPORTS AND TRADE BALANCE, 2011-2015

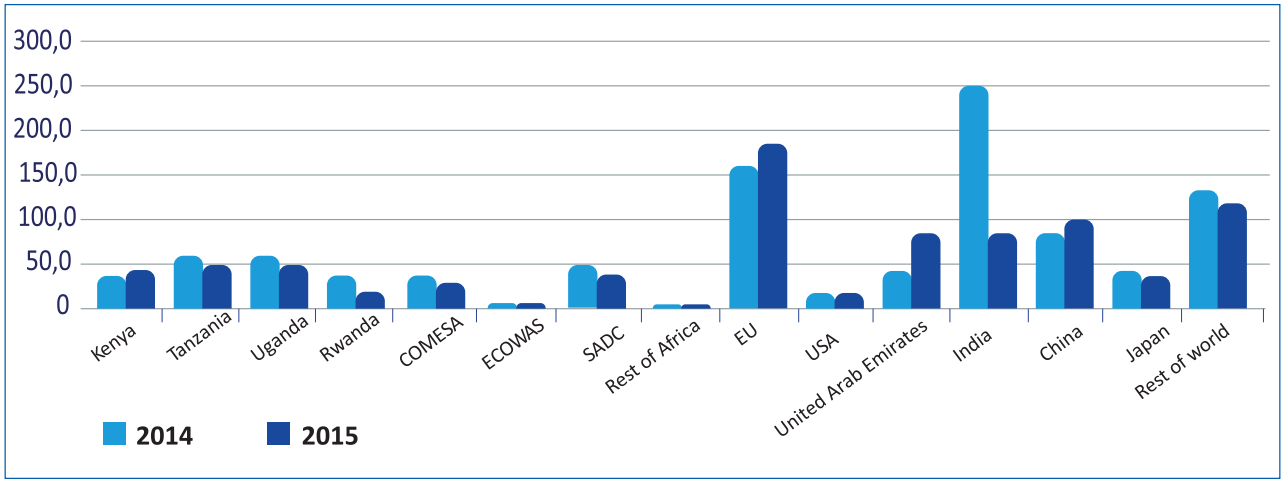


Source: *Burundi National Bureau of Statistics 2016*

Imports

In 2015, Burundi's imports decreased by 13 percent to US$ 792.9 million from US$ 911 million in 2014. Burundi's imports from the rest of the world in 2014 and 2015 is summarized in Figure 3 below. The figure shows that the EAC Partner States, SADC, EU, China, India, Japan and United Arab Emirates were Burundi's leading import partners during 2015 and 2014.

FIGURE 3: BURUNDI'S IMPORTS BY COUNTRY/REGION OF ORIGIN



Source: *Burundi National Bureau of Statistics*

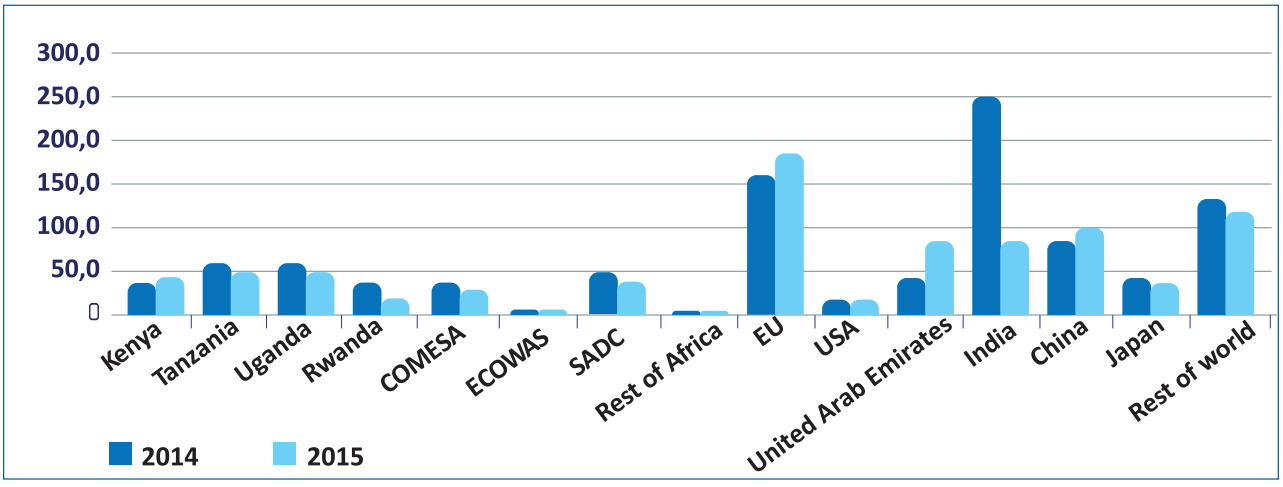
During 2015, imports from UAE increased by 171.2 percent to US$ 76.7 million in 2015 from US$ 28.3 million in 2014 while imports from China increased by 37.2 percent to US$ 99.5 percent from 72.5 percent in 2014.

Domestic Exports

Domestic exports from Burundi decreased by 28 percent to US$ 117.2 million in 2015 from US$ 162.7 million in 2014 mainly due to the decrease in coffee exports by 27.4 percent.

COMESA, UAE, EU and SADC were Burundi's key export destinations. Even if UAE and EU are leading Burundi Domestic exports, there was a decrease by 40 percent and 61 percent, respectively. However, domestic exports to USA, Japan and Uganda increased respectively by 68 percent, 34 percent and 11 percent during the same period.

FIGURE 4: BURUNDI'S IMPORTS BY COUNTRY/REGION OF ORIGIN

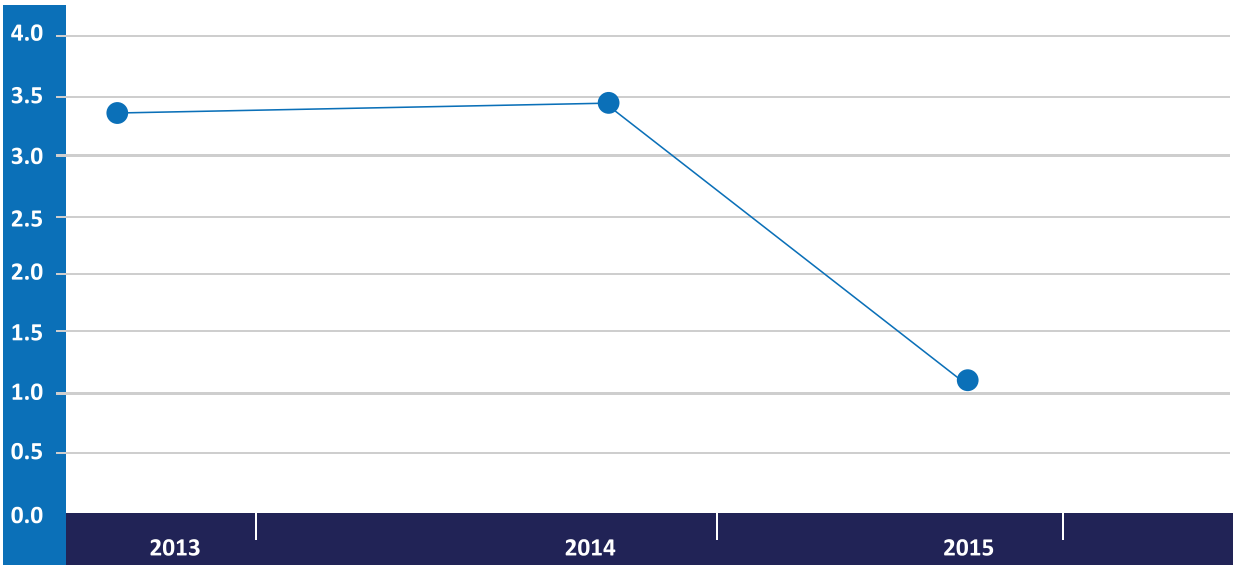


Source: *Burundi National Bureau of Statistics*

Re-Exports

The share of re-exports to total exports in 2015 decreased to 1.4 percent from 3.5 percent in 2014. In terms of value, Burundi's re-exports decreased from US $ 5.7 million in 2014 to US $ 1.8 million in 2015. The decline in the value of re-exports was due to a decrease in the re-exports of vehicles used for tourism and transport of goods.

FIGURE 5: BURUNDI'S RE-EXPORTS AS PERCENTAGE OF TOTAL EXPORTS, 2013-2015



Source: *Burundi National Bureau of Statistics*

4.1.3 INTRA-EAC TRADE

Burundi's total trade with EAC Partner States increased by 17.6 percent to US$ 178.1 million in 2015 from US$ 151.5 million in 2014. Imports from the Partner States increased by 19.9 percent to US$ 151.1million in 2015 from US$ 126.1 million in 2014. Similarly, exports increased by about 6.2 percent to US$ 27 million in 2015 from US $25.5 million in 2014. Burundi trade with Kenya and Uganda increased while trade with Tanzania and Rwanda decreased over the year. Total trade with Kenya increased by 25 percent to US$ 62.9million in 2015 from US$ 50.3 million in 2014 while trade with Uganda increased by 67 percent to US$ 45.5 million in 2015 from US$ 27.2 million in 2014.

During the year, trade with Rwanda and Tanzania decreased by 10 percent and 4.6 percent, respectively. Overall, the trade deficit between Burundi and the EAC Partners increased by 23. 3 percent to US$ 124.1 million in 2015 from US$ 100.6 million in 2014. Nevertheless, the trade deficit between Burundi and Tanzania decreased by 3.5 percent to US$ 51.7 million in 2015 from US$ 53.6 million in 2014.

Intra-EAC Imports

Burundi's imports from EAC Partner States increased by 19.9 percent to US$ 151.1 million in 2015 from US$ 126.1 million in 2014. Imports from Rwanda and Tanzania declined by 8.4 percent and 4.1 percent, respectively, during the same period. However, imports from Kenya and Uganda increased by 28.4 percent and 72.9 percent, respectively, to US$ 48 million and US$ 41.3 million, in 2015.

Intra-EAC Domestic Exports

Burundi's domestic exports to the EAC Partner States increased by 9 percent from US$ 23.6 million in 2014 to US$ 25.8 million in 2015. In the EAC Region, Kenya remains the main destination of Burundi's domestic exports accounting for 57.7 percent followed by Rwanda, which accounted for 19.1 percent of the intra-EAC domestic exports. Uganda and Tanzania accounted for 15 percent and 8.3 percent of the intra-EAC domestic exports, respectively.

TABLE 6: BURUNDI: INTRA-EAC EXPORTS, 2011-2015 (US$ MILLION)

Intra-EAC export flows	2011	2012	2013	2014	2015

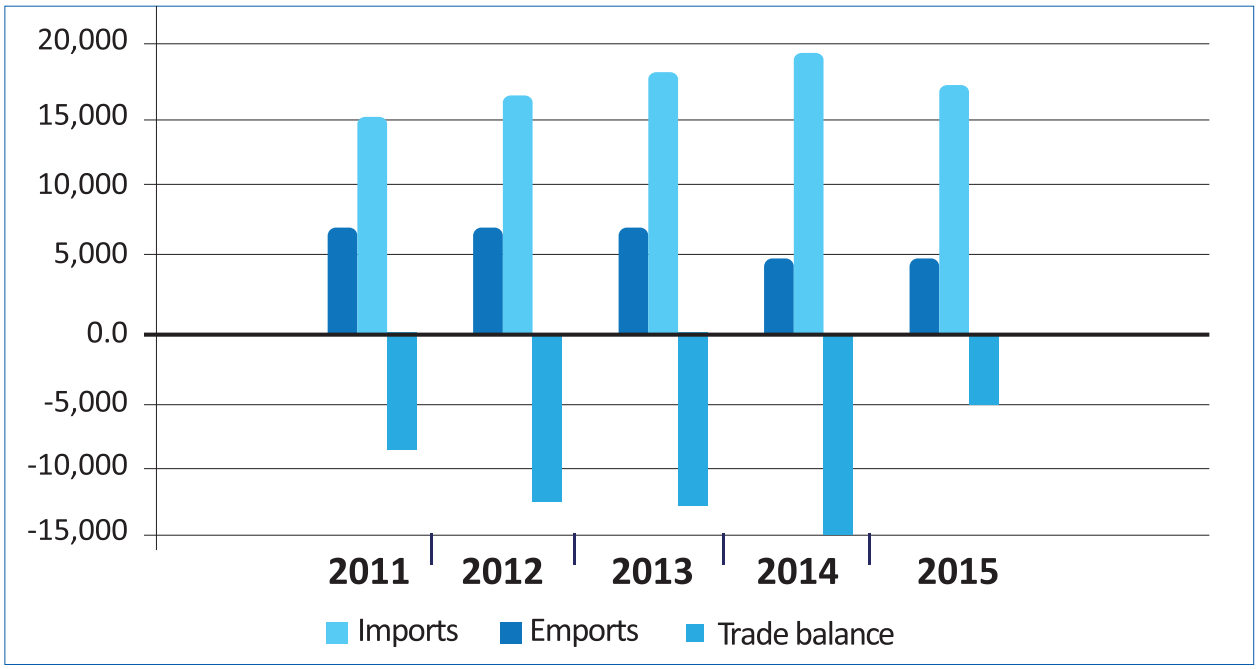
4.2 KENYA

4.2.1 INTERNATIONAL TRADE

Kenya's total trade in 2015 is presented in annex table 1. The table shows that Kenya's total trade declined by 10.7 percent to US$ 21.9 billion in 2015 from US$ 24.5 billion in 2014. During the year, EU, China, India and EAC were Kenya's leading trading partners accounting for 16.6 percent, 15.3 percent, 12.1 percent and 7.7 percent of the total trade, respectively, compared to 16 percent, 11.8 percent, 12.7 percent and 7.5 percent, respectively, in 2014. Kenya's total trade with China increased by 15.0 percent to US$ 3.3 billion in 2015 reflecting higher imports from that Region. However, total trade with EU, India and EAC declined by 7.3 percent, 14.7 percent and 8.3 percent, respectively, reflecting a decline in both merchandise imports and exports.

The decline in the EAC Region, was due to reduced trade with Tanzania and Burundi. The decline was by US$ 181.9 million and US$ 20.5 million, respectively. Meanwhile, trade with Uganda and Rwanda increased by US$ 30.6 million and US$ 17.7 million, respectively. In the EU Region, Kenya's trade with United Kingdom declined by 10.0 percent. Overall, the trade deficit narrowed by US$ 2.2 billion to US $10.1 billion in 2015 from US$ 12.3 billion in 2014. The narrowing of the trade balance was attributed to reduction in merchandise imports, which more than offset the declining exports.

FIGURE 7: KENYA'S TOTAL EXPORTS, IMPORTS AND TRADE BALANCE, 2011-2015

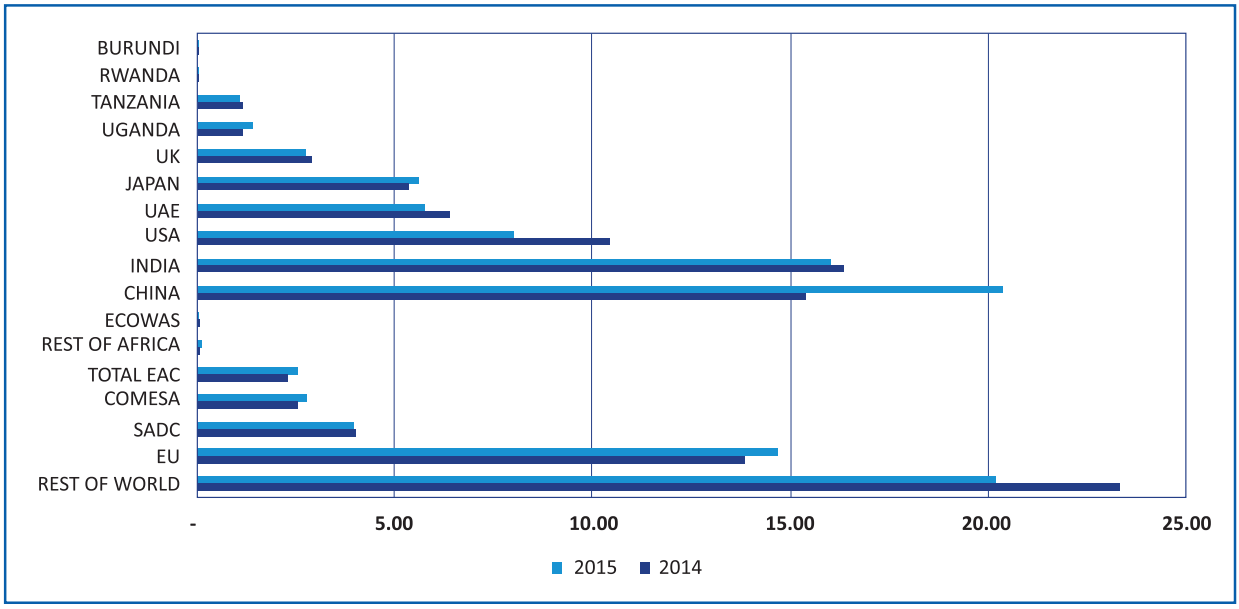


Source: *KRA, KNBS & CBK*

Imports

Kenya's imports declined by 13.1 percent to US$ 16.0 billion in 2015 from US$ 18.4 billion in 2014. The decline was largely on account of 34.3 percent reduction in the value of oil imports to US$ 2.2 billion in 2015 from US$ 3.3 billion in 2014, owing to the decline in oil prices in the international market. In addition, there was reduction in the value of importation of aircraft and associated equipment by 42.6 percent to US$ 846.3 million and reduced importation of industrial machinery by 26.1 percent to US$ 2.2 billion in 2015. The leading sources of Kenya's imports were China, European Union and India, jointly accounting for 51.0 percent of the total imports in 2015. The reduction in the share of imports from USA was on account of reduced importation of aircraft and associated equipment during 2015, compared with 2014.

FIGURE 8: KENYA'S IMPORTS BY COUNTRY/REGION OF ORIGIN (PERCENT SHARE)

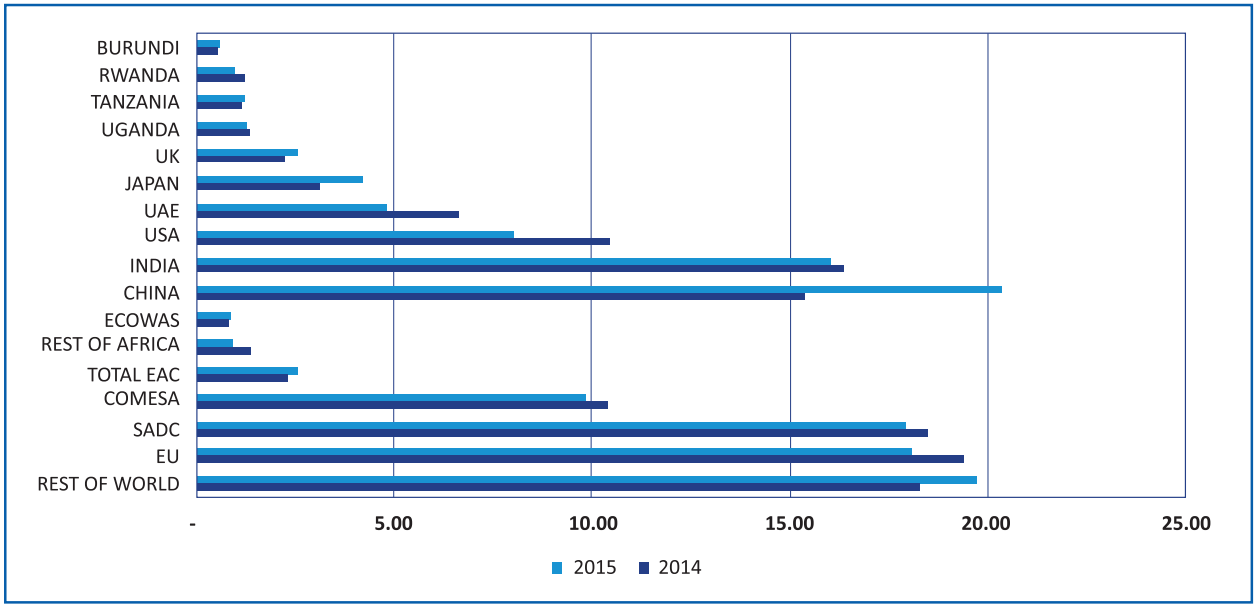


Source: *KRA, KNBS & CBK*

Domestic Exports

In 2015, Kenya's domestic exports declined by 2.8 percent to US$ 5.1 billion from US$ 5.2 billion in 2014. The main export destinations in 2015 were the European Union, EAC and USA, which jointly accounted for 50.5 percent of total exports. However, exports to these three regions declined marginally, compared to 2014. In the EAC Region exports to Tanzania and Burundi declined while exports to Uganda and Rwanda improved. The main exports commodities included tea, horticulture, articles of apparel and clothing accessories, coffee and iron and steel.

FIGURE 9: KENYA'S DOMESTIC EXPORTS BY DESTINATION (PERCENT SHARE)



Source: *KRA, KNBS & CBK*

Re-exports

Kenya's re-exports declined marginally by 4.1 percent to US$ 838.1 million in 2015 from US$ 874.1 million in 2014. Consequently, the share of re-exports to total exports declined from 14.3 percent to 14.2 percent during the review period. The decline was mainly in the re-exports of petroleum oil.

FIGURE 10: KENYA'S RE-RXPORTS AS PERCENT OF TOTAL EXPORTS

4.2.3 INTRA-EAC TRADE

In 2015, Kenya's total trade with EAC Partner States declined by 8.3 percent to US$ 1.7 billion from US$ 1.8 billion in 2014. Kenya's trade surplus with EAC Partner States declined by US$ 135.7 million to US$ 878.1 million in 2015. The reduction in trade surplus was as a result of a 10 percent decline in exports to the Region.

Intra-EAC Domestic Exports

Kenya's domestic exports to the EAC Partner States declined by 6.4 percent to US$ 1,070.2 million in 2015 from US$ 1,143.4 million in 2014. However, the share of the domestic exports to the EAC countries to total domestic exports increased marginally to 83.2 percent from 79.9 percent over the same period. In 2015, domestic exports to Rwanda and Tanzania rose by 15.8 percent and 6.3 percent to US$ 164.3 million and US$ 474.1 million, respectively. However, domestic

exports to Uganda and Burundi fell by 9.0 percent and 6.0 percent to US$ 677.6 million and US$ 59.7 million, respectively, during the review period. Domestic exports to Uganda, Tanzania, Rwanda and Burundi accounted for 49.3 percent, 34.5 percent, 11.9 percent and 4.3 percent of Kenya's intra-EAC total domestic exports, respectively. Domestic exports to Rwanda mainly comprised iron and steel, mineral fuels and animal and vegetable fats and oils while the major domestic exports to Tanzania were animal and vegetable fats and oils, soap, pharmaceutical products and iron and steel products.

TABLE 8: KENYA'S INTRA-EAC EXPORTS, 2011-2015 (US$ MILLION)

	Inter- EAC Export Flows	2011	2012	2013	2014	2-15

	Percent share of inter Re-export	9.6	13.6	16.5	20.1	16.8

Intra-EAC Re-Exports

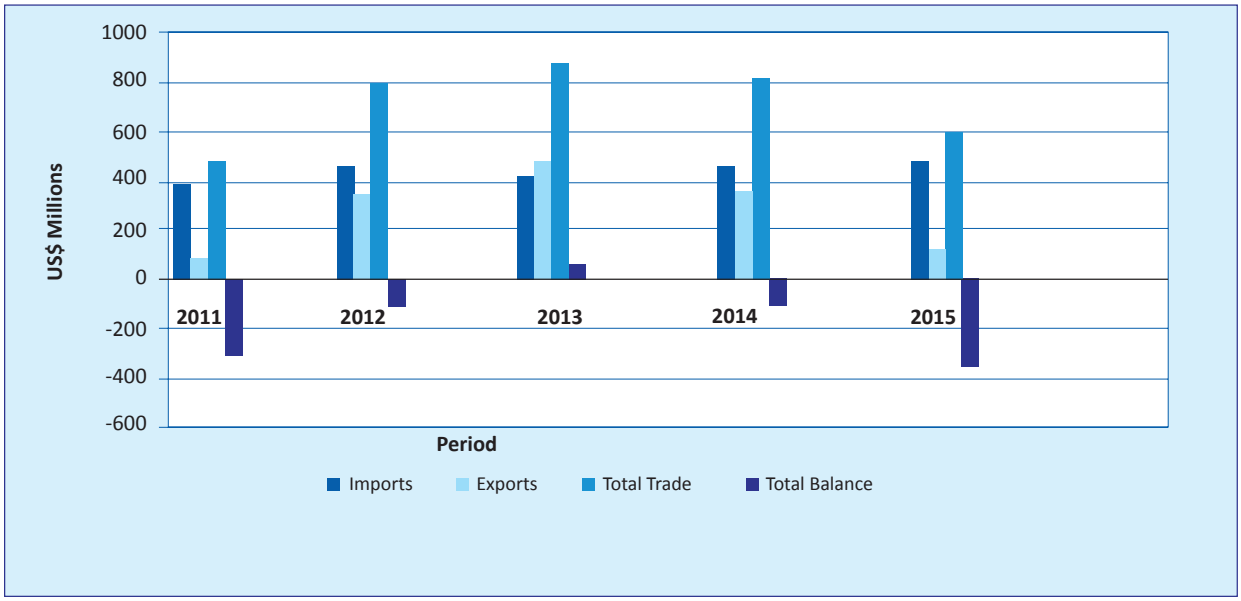
In 2015, Kenya's intra-EAC re-exports declined by 24.9 percent to US$ 215.7 million from US$ 287.4 million in 2014. The share of re-exports to total exports to the EAC countries also declined to 16.8 percent from 20.1 percent recorded in 2014. Re-exports to Uganda, Tanzania and Rwanda declined by 37.8 percent, 15.0 percent and 15.2 percent, respectively. Re-exports to Burundi however increased marginally by 3 percent to US$ 17.8 million. Re-exports to Rwanda mainly comprised fertilizers, mineral fuels and pharmaceutical products while major re-exports to Tanzania were mineral fuels and pharmaceutical products. The main re-exports to Uganda were mineral fuels, motor vehicles, fertilizers and pharmaceutical products.

4.3 RWANDA

4.3.1 INTERNATIONAL TRADE

Rwanda's total external trade decreased by 5.60 percent to US$ 2.4 billion in 2015 from US$ 2.6 billion in 2014. Exports during the year amounted to US$ 580.1 million or 23.8 percent of total trade while imports amounted to about 76 percent of total trade or US$ 1.9 billion in 2015. Exports during the year decreased by 10.93 percent from US$ 651.28 million to US$ 580.09 million while imports decreased by 3.81 percent from US$ 1.9 billion to about US$ 1.85 billion. Overall, Rwanda's trade deficit decreased by 0.1 percent to US$ 1.28 billion in 2015. The decrease in the trade deficit was due to reduction in both imports and exports during the year.

FIGURE 12: RWANDA'S TOTAL EXPORTS, IMPORTS AND TRADE BALANCE, 2011-2015



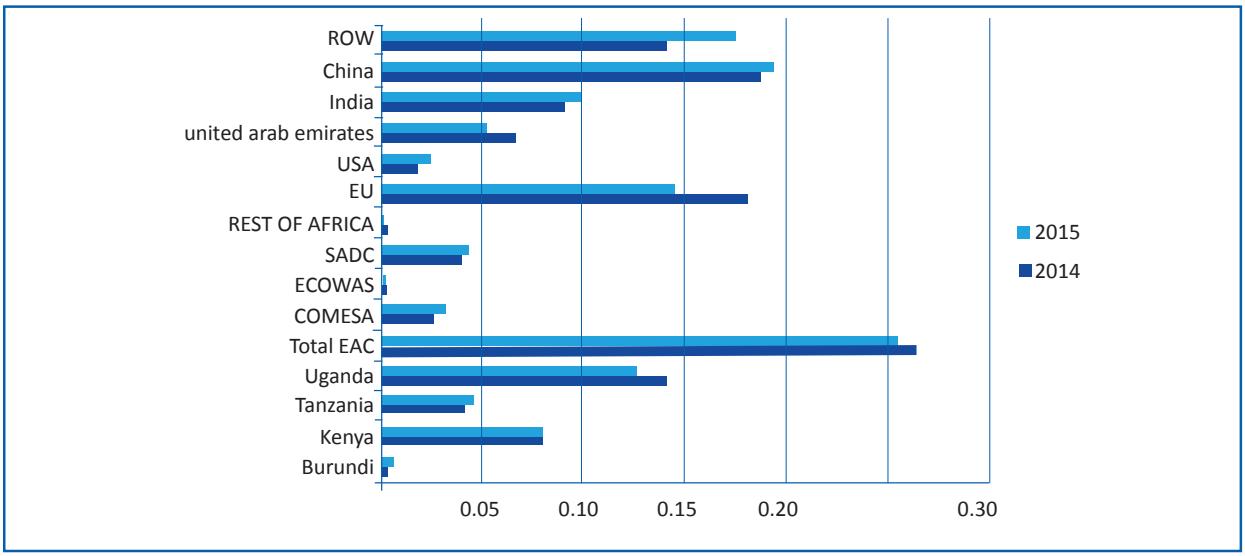
Source: *KRA, KNBS & CBK*

Imports

Rwanda's imports decreased by 3.81 per cent in 2015, from US$ 1.93 billion in 2014 to US$ 1.85 billion in 2015. Rwanda's imports in 2015 were dominated by electrical machinery and equipment; nuclear reactors, boilers, machinery and mechanical appliances; vehicles; salt, sulphur, earths and stone, plastering materials, lime and cement; iron and steel; pharmaceutical products; cereals; animal or vegetable fats and oils and their cleavage products; sugars and sugar confectionery. They contributed 60.19 percent of total imports. The main sources of Rwanda's imports were EAC, China, EU, India, and United Arab Emirates which contributed 74.34 percent of the total imports. Rwanda's imports from China during the year amounted to US$ 358.7 or 19.3 percent of total

imports. Imports from EU amounted to US$ 269.5 and constituted about 14.5 percent of total imports while in the EAC, Rwanda imported goods amounting to US$ 233.6 million or 12.6 percent of total imports from Uganda.

FIGURE 13: RWANDA'S IMPORTS BY COUNTRY/REGION OF ORIGIN (PERCENT SHARES)

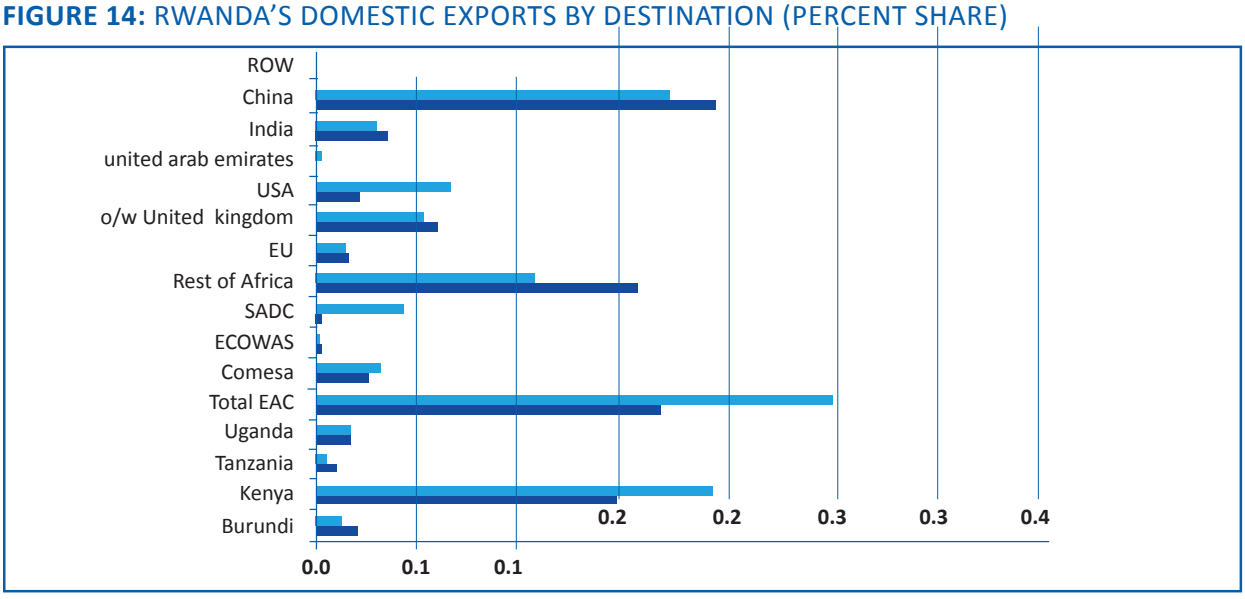


Source: *RRA and NISR*

Domestic Exports

Rwanda's domestic exports decreased by 9.26 percent to US$ 410.37 million in 2015 from US$ 452.23 million in 2014. The main domestic exports include coffee, tea, ores, pearls, precious or semi-precious stones, precious metals, products of the milling industry, and furniture; which accounted for 77.18 percent. Rwanda's domestic exports to EAC are 23.96 percent of the total.

FIGURE 14: RWANDA'S DOMESTIC EXPORTS BY DESTINATION (PERCENT SHARE)



Source: *RRA and NISR*

Re-exports

The share of Rwanda's re-exports to total exports decreased by 3.31 in 2015. The value of re-exports decreased by 14.74 per cent from US$ 199.06 million in 2014 to US$ 169.72 million in 2015. The main re-exports products included mineral fuels, mineral oils, animal or vegetable fats and oils and cereals which together make 72.37 percent of total re-export value in 2015.

Source: *RRA and NISR*

4.3.2 INTRA-EAC TRADE

In 2015, Rwanda's total trade with EAC decreased by 9.03 percent to US$ 593.0 million in 2015 from US$ 651.9 million in 2014. Total exports to the Partner States amounted to US$ 118.8 million while imports amounted to US $474.1 million. Uganda was Rwanda's main trading partner in 2015 with total trade amounting to US$ 243.4 million which was 41.05 percent of total trade. Rwanda's trade with Kenya amounted to US$ 238.6 million which was 40.3 percent, while Tanzania and Burundi accounted for 14.48 and 4.2 percent of total trade respectively. Rwanda's trade deficit with Uganda decreased by 9.8 percent to US$ 223.8 million in 2015 from US$ 259.3 million in 2014 while the trade deficits with Tanzania and Kenya increased during the year. Overall, the trade deficit between Rwanda and EAC decreased by 4 percent to US$ 355.31 million in 2015 from US$ 370.1 million in 2014.

Intra-EAC Imports

Rwanda's imports from EAC Partner States decreased by 7.21 percent to US$ 474.13 million in 2015 from US$ 510.98 million in 2014. Rwanda's imports from EAC Partner States were dominated by goods from Uganda which accounted for 49.27 percent, followed by Kenya with 31.22 percent. The main imports from Uganda included salt, lime and cement, fats, cereals, soap, lubricating preparations, waxes, polishing or scouring preparations, candles, modelling pastes, iron and steel, fish and crustaceans. Main imports from Kenya were salt, fats, iron and steel, plastics and articles thereof, paper and articles of paper, and footwear.

Intra-EAC Domestic Exports

Domestic exports to EAC Partner States increased by 3.96 percent to US$ 98.28 million in 2015 from US$ 94.53 million in 2014. However, total intra-EAC exports during the year decreased by 15.7 percent to US$ 118.8 million in 2015 from US$ 140.9 million in 2014. Rwanda's domestic exports to Kenya increased by 19.38 percent to US$ 80.29 million in 2015 from US$ 67.25 million in 2014 while domestic exports to Tanzania decreased by 64.10 per cent to US$ 2.02 million in 2015 from US$ 5.67 million in 2014. Domestic exports to Uganda decreased by 9.12 per cent to US$ 9.22 million in 2015, from US$ 10.15 million in 2014. Domestic exports to Burundi registered a decrease of 41.10 per cent to US$ 6.75 million in 2015 from US$ 11.47 million in 2014.

TABLE 10: INTRA-EAC EXPORTS, 2011-2015 (US$ MILLION)

Intra-EAC Re-Exports

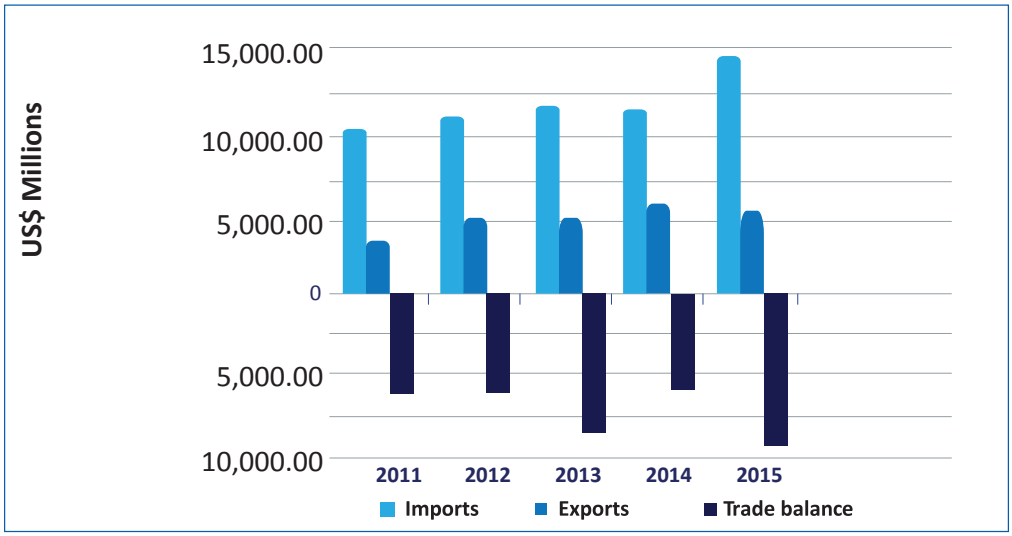
Rwanda's re-exports to the EAC Partner States decreased by 55.7 percent to US$ 20.6 million in 2015 from US$ 46.3 million in 2014. The main re-exports to EAC region are comprised of minerals, vehicles, and appliances.

4.4 TANZANIA

4.4.1 INTERNATIONAL TRADE

Tanzania's total trade in 2015 increased by 4.57 percent to US$ 20.6 billion from US$ 19.7 billion recorded in 2014. The increase in total trade was attributed to the increase in imports by 15.32 percent to US$ 14.7 billion in 2015 from US$ 12.8 billion in 2014. Tanzania's main trading partners during 2015 included India, China, EU and Kenya. Overall, trade deficit increased by over 51 percent to US$ 8.9 billion in 2015 from US$ 5.8 billion in 2014.

FIGURE 17: TANZANIA'S EXPORTS, IMPORTS AND TRADE BALANCE, 2011 – 2015

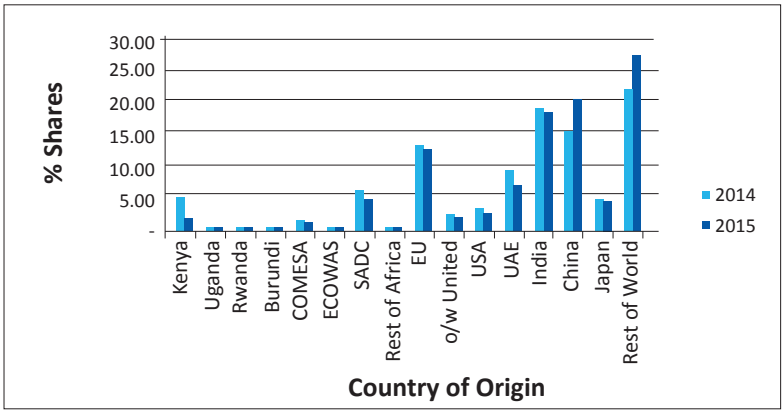


Source: *TRA and NBS*

Imports

Tanzania's imports increased by 16.6 percent to US$ 14.7 billion in 2015 from 12.8 billion in 2014. The increase was in part due to importation of petroleum products, motor vehicles, pharmaceuticals, chemical products, wheat bran, electrical equipment and machinery. During the year, Tanzania's main import countries included China, India and EU. Tanzania's imports from China amounted to US$ 2.9 billion accounting for about 20.4 percent of total imports while imports from India amounted to about US $ 2.7 billion or 18.4 percent of total imports. Tanzania also imported goods amounting to US$ 1.8 billion or 12.6 percent of total imports from the EU.

FIGURE 18: TANZANIA'S IMPORTS BY COUNTRY/REGION OF ORIGIN



Source: *TRA and NBS*

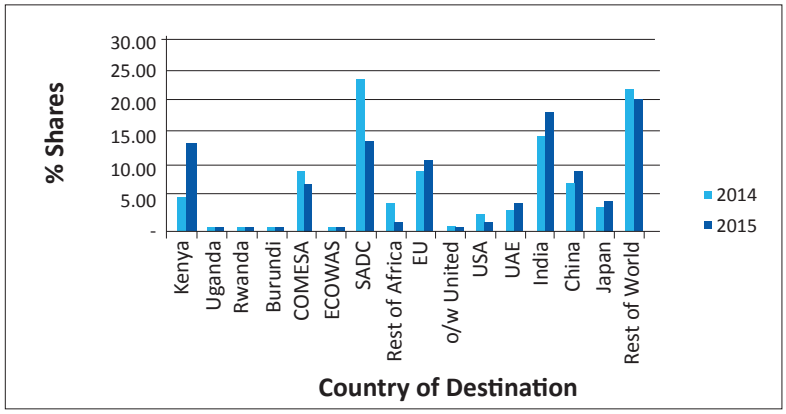
Domestic Exports

In 2015, Tanzania's domestic exports decreased by 15.27 percent to US$ 5,854.25 million compared to US$ 6,909.6 million in 2014. The goods which were mostly exported included gold, cashew nuts, precious metal, tobacco, coffee, sesame oil and yellowish tunas. During the period under review, India, SADC, Kenya, EU and China were among the leading destinations for Tanzania's domestic exports jointly accounting for 67.62 percent. Exports to India amounted to US$ 1.1 billion or 19.6 percent of total exports while exports to SADC amounted to US$ 833 million or 14.2 percent of total exports. COMESA and Japan were the other key export destinations accounting for 5.85 percent and 3.94 percent of total Tanzania exports, respectively.

15.27%

Tanzania's domestic exports decreased by 15.27 percent to US$ 5,854.25 million compared to US$ 6,909.6 million in 2014.

FIGURE 19: TANZANIA'S DOMESTIC EXPORTS BY DESTINATION, 2014 -2015

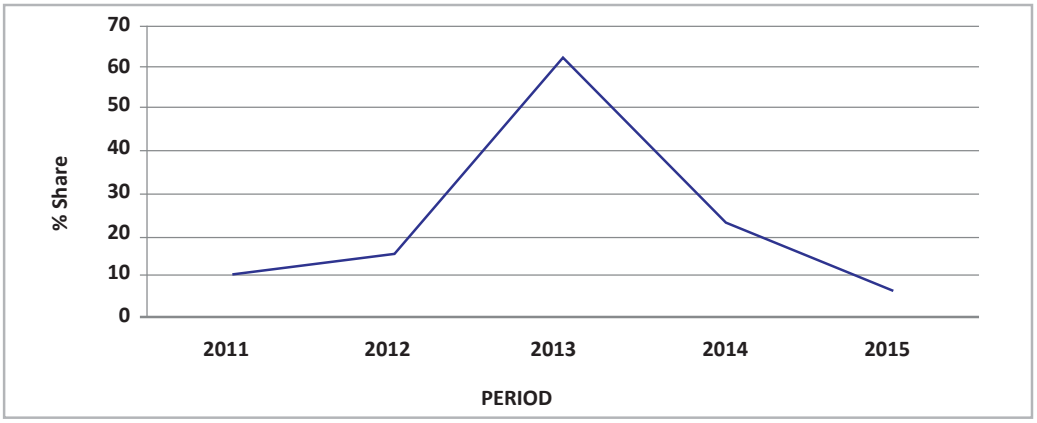


Source: *TRA and NBS*

Re-Exports

In 2015, Tanzania's re-exports increased to US$ 2.0 billion from US$ 1.2 billion recorded in 2014. The share of re-exports to total exports increased to 34.3 percent recorded in 2015 from 17.0 percent in 2014. The goods re-exported included light vessels, fire-floats, motor vehicles, electrical equipment and spare parts, mineral fuels, fertilizer and machinery parts.

FIGURE 20: SHARE OF TANZANIA'S RE-EXPORTS TO TOTAL EXPORTS, 2011- 2015



Source: *Tanzania Revenue Authority and National Bureau of Statistics*

4.4.2 INTRA-EAC TRADE

Tanzania's total trade with other EAC Partner States in 2015 decreased by 19.20 percent to US$ 1.2 billion from US $ 1.5 billion recorded in 2014. Tanzania's trade balance with EAC Partner States drastically increased to a surplus of US$ 646.20 million in 2015, up from a surplus of US$ 69.6 million recorded in 2014. The surplus was due to a decrease in imports and an increase in exports. During the year Tanzania recorded a trade surplus with all EAC Partner States.

Intra-EAC Imports

In 2015, Tanzania's imports from EAC Partner States decreased to US$ 278.60 million from US$ 709.90 million in 2014. Imports from Kenya decreased by 63 percent due to closure of Uchumi Supermarket operations in Tanzania while imports from Burundi increased to US$ 1.00 million in 2015 from US$ 0.60 million in 2014. However, imports from Uganda and Rwanda declined in 2015 to 18.67 percent and 65.63 percent from US$ 48.20 million and US$ 3.20 million in 2014, respectively.

Intra EAC Domestic Exports

Tanzania's domestic exports to EAC Partner States increased by 4.8 percent to US$ 924 million in 2015 from US$ 779.40 million in 2014. The share of re-exports to the EAC Partner States against total exports was 7.15 percent compared to 22.9 percent recorded on 2014. Kenya remained the major destination accounting for 85.84 percent of Tanzania's domestic exports to EAC Partner States followed by Uganda which accounted for 5.5 percent of domestic exports. Rwanda and Burundi accounted for 4.5 percent and 4.2 percent, respectively.

TABLE 12: TANZANIA'S INTRA-EAC EXPORTS, 2011-2015 (US$ MILLION)

	Intra-EAC export flows	2011	2012	2013	2014	2015

Intra EAC Re-Exports

Tanzania's re-exports to EAC Partner States decreased substantially to US$ 71.2 million in 2015 compared to US$ 178.5 million in 2014. Major Tanzania's re-export destinations during the period were Kenya, Uganda and Burundi. Total re-exports accounted for 7.15 percent of Tanzania's total exports. The major re-exports to EAC Partner States were motor vehicles and mineral fuels.

4.5 UGANDA

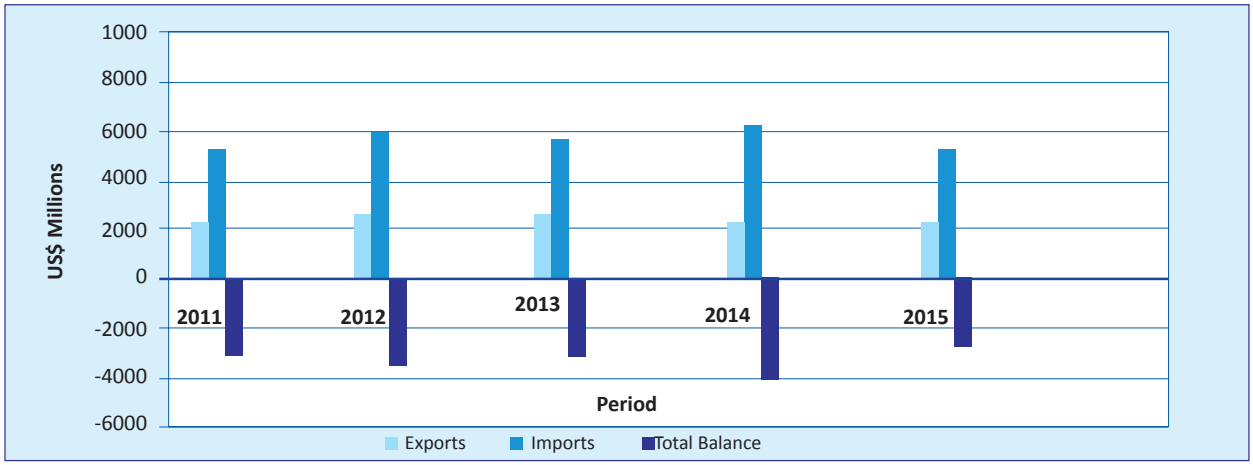
4.5.1 INTERNATIONAL TRADE

In 2015, Uganda's total trade decreased by 6.5 percent to US$ 7.8 billion from US$ 8.3 billion in 2014. This was attributed to a decline in imports over the calendar year. Imports declined to US$ 5.5 billion in 2015 from US$ 6.1 billion in 2014. Exports remained the same at US$ 2.3 billion in 2015 similar to US$ 2.3 billion recorded in 2014 due to the decline of prices of key commodities such as coffee, cotton, and tobacco.

Imports from India decreased by 22.6 percent to US$ 1.2 billion in 2015, while exports declined by 13.5 percent to US$ 23.9 million from US$ 27.9 million in 2014. Uganda's trade deficit with India improved by 22.8 percent to US$ 1,129.2 million, while that with China worsened by 21.3 percent to US$ 817.3 million. The other trading partners with which Uganda recorded trade deficits were Japan, UAE and USA estimated at US$ 332.2 million, US$ 323.5 million and US$ 54.4 million, respectively.

With the exception of COMESA (excluding Rwanda, Burundi and Kenya), Uganda continued to register trade deficits with other regional trade blocs. In 2015, Uganda's trade surplus with COMESA (excluding Rwanda, Burundi and Kenya), stood at US$ 138.2 million, which was a decrease of 22.2 percent, compared to the surplus recorded in 2014. In 2015, the trade deficit with EU increased by 29.3 percent to US$ 196.3 million, with UK accounting for 27.6 percent of the deficit. The improvement in the trade balance over the period under review was partly attributed to the continued decline in prices of oil in the international market. Figure 22 summarises the developments of Uganda's international trade.

FIGURE 22: UGANDA'S TOTAL EXPORTS, IMPORTS AND TRADE BALANCE, 2011 -2015

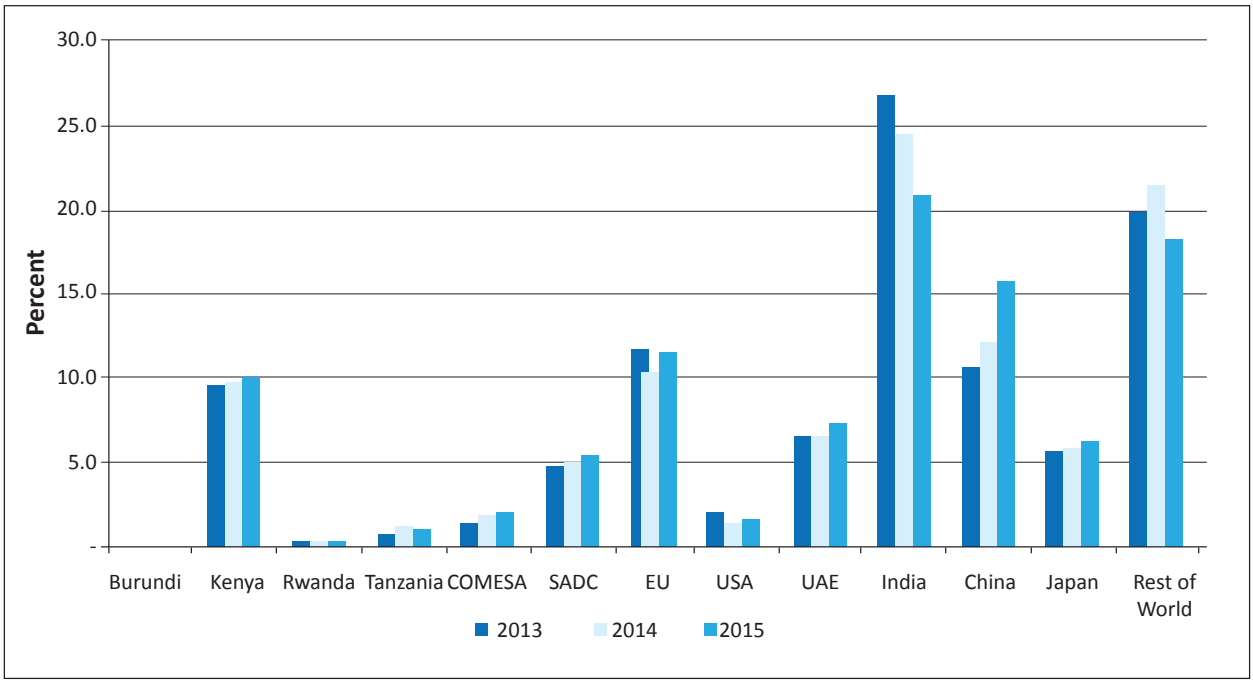


Source: *UBOS, BOU and URA*

Imports

Uganda's import values decreased by 9.0 percent to US$ 5.5 billion in 2015 from US$ 6.1 billion in 2014. The decrease was mainly attributed to falling prices of oil on the international market. The major items imported into Uganda included: petroleum products, motor vehicles, machinery, cereals, telecommunication equipment, medical and pharmaceutical products, and iron and steel. The major sources of Uganda's imports were China, India, EU, Kenya, United Arab Emirates and Japan.

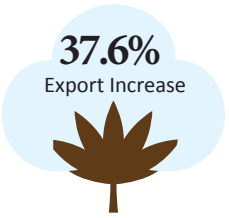
FIGURE 23: UGANDA'S SHARE OF IMPORTS BY COUNTRY /REGION OF ORIGIN, 2013-2015



Source: *UBOS, BOU and URA*

Domestic Exports

In 2015, Uganda's domestic exports increased by 3.3 percent to US$ 1.74 billion from US$ 1.68 billion in 2014. The major regional destinations of Uganda's domestic exports included EAC and EU countries accounting for 37.6 percent and 24.6 percent, respectively. The share of exports to the EAC Region increased slightly to 37.6 percent in 2015 from 31.4 in 2014. The value of domestic exports to EAC Region grew by 23.6 percent to US$ 655.4 million in 2015 from US$ 530.3 million in 2014. The major domestic products exported in 2015 included coffee, tea, fish, cement, tobacco and cotton.



The major domestic products exported in 2015 included coffee, tea, fish, cement, tobacco and cotton.

Source: *UBOS, BOU and URA*

Re-Exports

Uganda's re-exports decreased by 9.0 percent to US$ 523.0 million in 2015 from US$ 573.4 million recorded in 2014. The main items re-exported included: telephones, petroleum products, sugar and confectionary, rice animal and vegetable fats, and oil. Total re-exports accounted for 23.1 percent of Uganda's total exports. Figure 4.23 shows trends of the proportion of re-exports to total exports.

Source: *UBOS, BOU and URA*

4.5.2 INTRA-EAC TRADE

In 2015, Uganda's total trade with EAC Partner States increased by 5.7 percent to US$ 1.4 billion on account of an increase in exports. Uganda's trade balance with EAC Partner States improved to a surplus of US$ 141.5 million in 2015 from a deficit of US$ 42 million in 2014. The trade surplus was due to higher exports earning received in the year coupled with a reduction in the import bill. Figure 4.24 summarises the trend of Uganda's intraEAC exports, imports and trade balance.

Intra-EAC Imports

Uganda's imports from EAC Partner States decreased by 8.0 percent to US$ 630.2 million in 2015 from US$ 684.6 million in 2014. Kenya remained Uganda's main source of imports accounting for 88.0 percent of Uganda's Intra-EAC imports valued at US$ 554.5 million in 2015. The main imports from Kenya included petroleum products, cement, iron and steel and pharmaceutical products. Imports from Tanzania decreased to US$ 62.9 million in 2015 from US$ 75.7 million in 2014. The main imports from Tanzania included petroleum products, coffee and plastic products.

Intra-EAC Domestic Exports

Uganda's domestic exports to EAC Partner States increased by 23.6 percent to US$ 655.4 million in 2015 from US$ 530.3 million recorded in 2014 as indicated in Table 14 below. Domestic exports to Kenya increased by 43.6 percent to US$ 427.0 million in 2015 from US$ 297.4 million in 2014. Domestic exports to Rwanda declined by 3.2 percent to US$ 237.6 million in 2015 from US $245.3 million in 2014. The major items exported to Kenya included maize, tobacco and cereals.

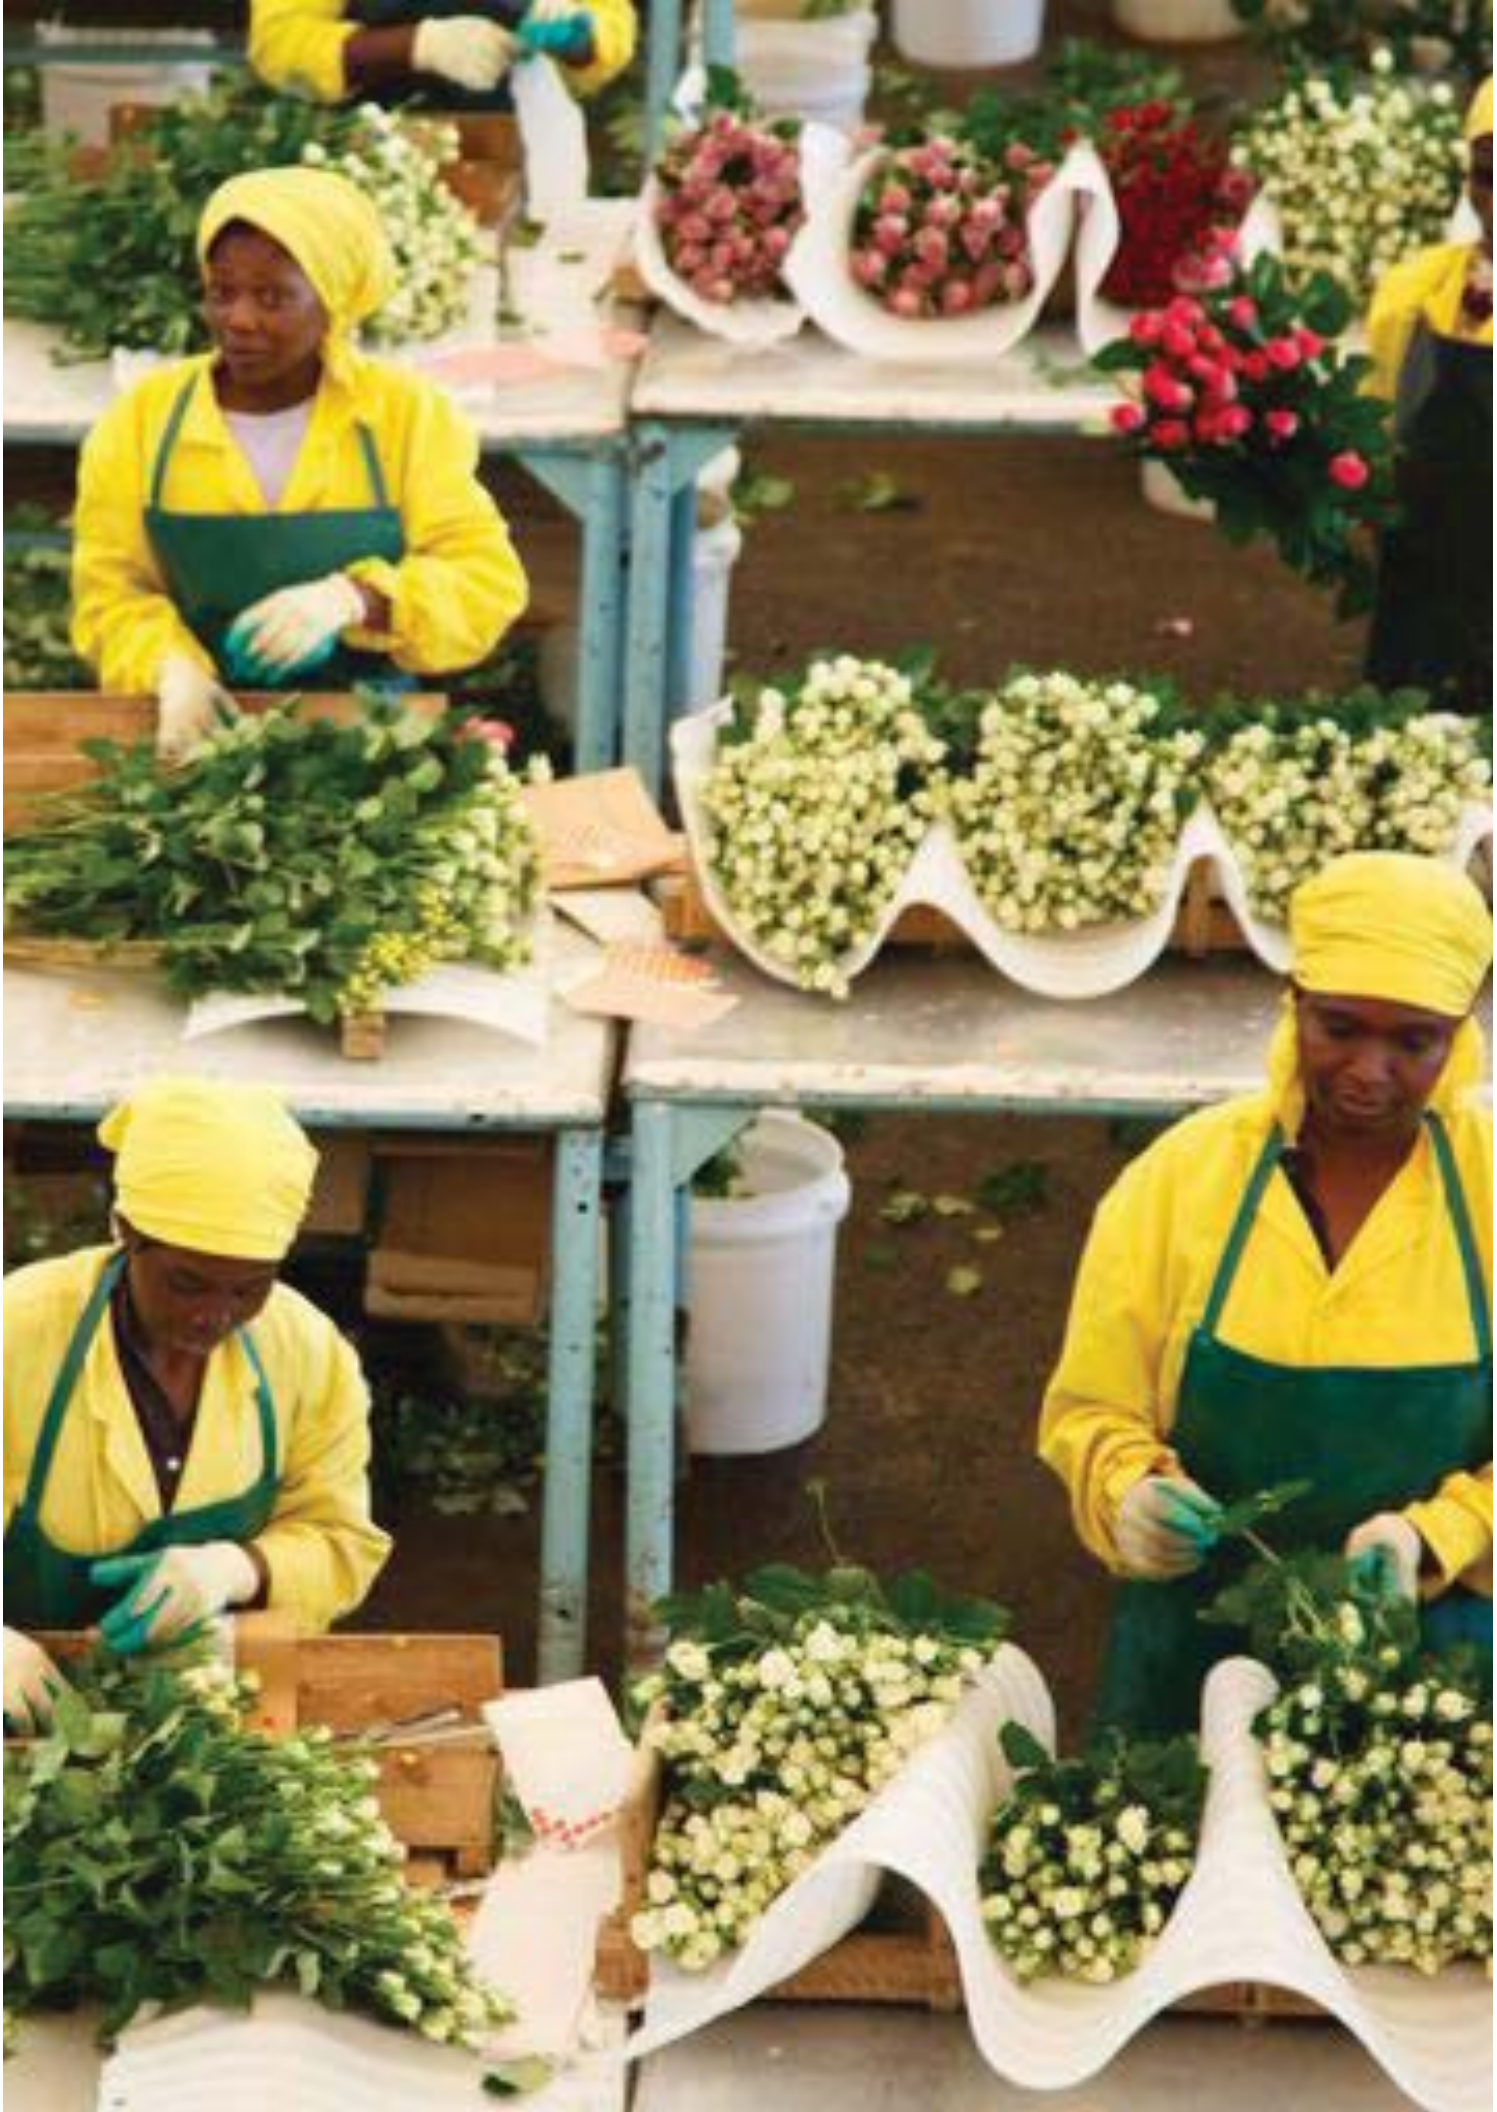
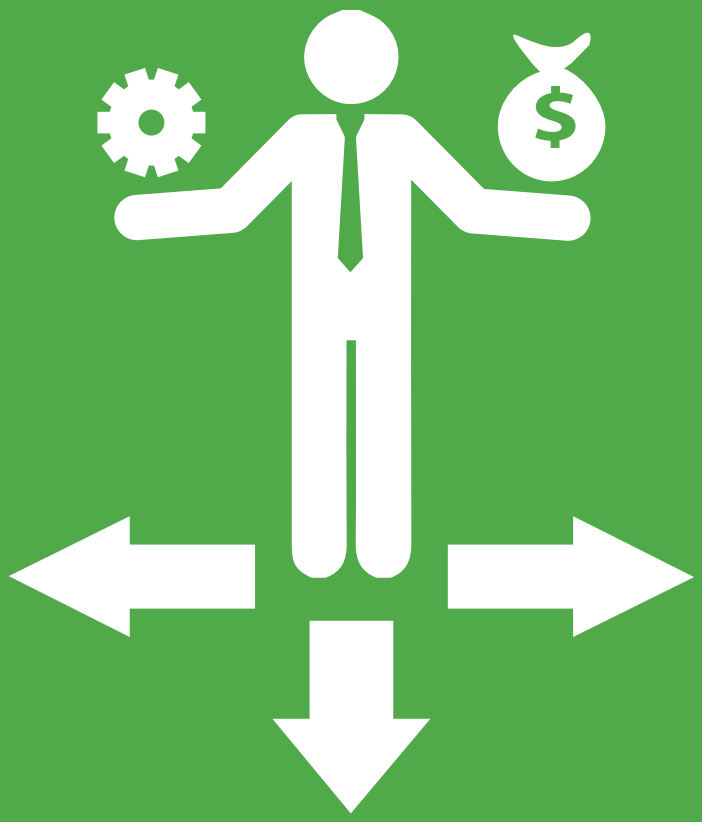
Intra-EAC Re-Exports

In 2015, Uganda's re-exports to EAC partner states were valued at US$ 116.2 million representing an increase of 4.0 percent to US$ 116.2 in 2015 from US$ 111.9 million in 2014. Kenya and Rwanda were the major destinations with major re-exports being plastic products, rice, vehicles and iron and steel products.





CHAPTER 5:

SPECIAL CATEGORY CONSIDERATIONS WITHIN EAC CUSTOMS UNION

5.1 EXEMPTIONS AND REMISSIONS

During the review period, Kenya, Rwanda and Tanzania recorded a decline in import levels of goods under exemptions and remissions, as shown in Table 15. Most imported goods granted exemptions and remissions included goods for investment projects, aid funded projects, charitable organizations, embassies and consulate goods. While the total duty foregone decreased by 0.8 percent to US$ 1.59 billion in 2015 from US$1.6 billion in 2014 as a result of elimination of some exemptions by Partner States, it was still substantial and negatively affected the total revenue yield of the Partner States.

TABLE 15: DUTY FOREGONE DUE TO EXEMPTIONS AND REMISSIONS, 2011-2015 (US$ MILLION)

		2011	2012	2013	2014	2015	Percentage change

Burundi

In Burundi, the value of goods imported under exemptions and remissions regime recorded an increase to US$ 310.9 million in 2015 from US$ 77.6 million in 2014. Similarly, revenue foregone increased to US$ 80.4 million in 2015 from US$ 7.55 million in 2014 during the same period.

Kenya

In Kenya, the value of goods imported under exemptions and remissions regime increased by 3.1 percent to US$ 3,126.5 million in 2015 from US$ 3,032.8 million in 2014. Similarly, revenue foregone increased by 7.0 percent to US$ 664.2 million in 2015 from US$ 621.0 million in 2014.

The revenue foregone as a result of exemptions as a percentage of GDP rose to 1.1 percent in 2015 from 1.0 percent in 2014.

Rwanda

Rwanda's imports subject to exemptions decreased by 5.5 percent to US$ 646.6 million in 2015 from US$ 684.3 million in 2014. Revenue foregone decreased by 3.81 percent to US$ 182.2 million in 2015 from US$ 189.4 million in 2014. Trade taxes increased by 7. 8 percent to US$ 369.4 million in 2015 from US$ 342.7 million in 2014. The commodities that have benefited from these exemptions are mainly rolled iron and steel, medicaments and other medical instruments. Duty forgone as percentage of GDP decreased to 2.2 percent in 2015 from 2.4 percent recorded in 2014.

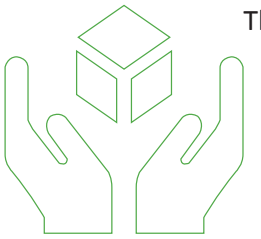
Tanzania

In 2015, the value of goods imported under exemptions and remissions regime amounted to US$ 2.9 billion, which was 27.2 percent lower than the amount recorded in 2014. Similarly, revenue foregone as a result of the exemptions went down to US$592.6 million in 2015 from US$ 730.9 million in 2014.

Uganda

During 2015, the value of imports that qualified under exemption and remissions regime increased to US$ 305.9 million in 2015 from US$ 295.6 million in 2014. Similarly, revenue forgone as a result of the exemptions increased to US$ 70.1 million from US$ 53.2 million recorded in 2014. The major goods imported under the exemption regime included parts of helicopters/planes, photo sensitive semiconductor devices, mosquito nets and diagnostic or lab reagents.

5.2 SENSITIVE GOODS



The value of imported sensitive goods by EAC Partner States decreased by 6.8 percent to US$ 3.4 billion in 2015 from US$ 3.7 billion in 2014. The value of sensitive goods imported from EAC Partner States decreased by 15.8 percent to US$ 402.6 million in 2015, from US$ 477.9 million in 2014. Similarly, the value of sensitive goods imported from non-EAC countries decreased by 5.4 percent to US$ 3.0 billion in 2015 from US$ 3.2 billion in 2014.

Burundi

Burundi's imports of sensitive goods from non-EAC countries decreased by 24 percent to US$ 55.0 million in 2015 from US$ 72.5 million in 2014. During the same period, the value of sensitive goods imported from EAC Partner States increased by 44.8 percent to US$ 39.81 million in 2015 from US$ 27.51 million recorded in 2014. Burundi's total imports of sensitive goods decreased by 5.2 percent to US$ 94.8 million in 2015 from US$ 100 million in 2014.

Kenya

Kenya's imports of sensitive products from non-EAC countries decreased by 1.9 percent to US$ 1,341.3 million in 2015 from US$ 1,367.9 million in 2014. This was largely on account of decreases in the import values of motor vehicles for transportation of goods; wheat and meslin; and rice. During the review period, imports of wheat and meslin decreased by 5.6 percent to US$ 361.7 million. Rice imports decreased by 19.9 percent to US$ 134.7 million, while those of motor vehicles for transport of goods decreased by 2.9 percent to US$ 362.7 million. However, imports of cane or beet sugar increased by 28.5 percent from US$ 93.5 million in 2014 to US$ 120.1 in 2015. Imports of sensitive products from EAC Partner States decreased by 10.6 percent to US$ 144.4 million in 2015 from US$ 161.5 million in 2014.

Rwanda

In 2015, Rwanda's imports of sensitive goods from non-EAC countries increased by 14.5 percent to US$ 200.93 million from US$ 191.56 million in 2014. Major imports included sugar, wheat, motor vehicles for the transportation of goods, worn clothing, and rice. Rwanda's imports of sensitive goods from EAC Partner States decreased by 14.57 per cent from US$ 131.63 million in 2014 to US$ 112.46 million in 2015. Major sensitive products imported by Rwanda from EAC Partner States included cement and maize. Rwanda's total imports of sensitive products decreased by 3 percent to US$ 313.4 million in 2015 from US$ 323.2 million in 2014.

Tanzania

Tanzania's imports of sensitive goods from non-EAC countries decreased by 10.1 percent to 869.14 US$ million in 2015 from US$ 967.2 million in 2014. Goods that recorded significant increase include cereal flours, industrial sugar, woven fabrics of cotton, primary cells and batteries. Goods that recorded decrease include Portland cement, matches, woven fabrics with man-made fibres, maize corn, wheat or meslin flour. The value of sensitive goods imported from EAC Partner States decreased by 65.7 percent to US$ 17.7 million in 2015 from US$ 51.7 million in 2014. This can be accounted for by the decrease in importation of milk and cream, beer made from malt, tobacco and Portland cement. Tanzania's total imports of sensitive goods decreased by 13 percent to US$ 886.8 million in 2015 from US$ 1.0 billion in 2014.

Uganda

In 2015, the total value of sensitive goods imported in Uganda decreased by 8.3 percent to US$ 652.3 million from US$ 711.3 million recorded in 2014. The value of sensitive goods imported from non-EAC countries decreased by 6.9 percent to US$ 564.1 million in 2015 from US$ 605.8 million in 2014. The major sensitive goods imported from non-EAC Partner States included wheat and meslin, motor vehicles, sugar and worn clothing. The imports of sensitive goods from EAC Partner States also decreased by 16.5 percent to US$ 88.2 million in 2015 from US$ 105.6 million in 2014. The main imports of sensitive products from EAC Partner States mainly included cement, beer, cigarettes and rice.

5.3 EXCISABLE PRODUCTS

In 2015, the importation of excisable goods in the EAC Region decreased by 27.0 percent to US$ 11.1 billion from US$ 15.2 billion in 2014, with petroleum products accounting for the largest share of the total excisable imports.

Burundi

Imports of excisable goods decreased by 40 percent to US$ 258.8 million in 2015 from US$ 433.8 million in 2014. The decline was largely attributed to a decrease of 46 percent and 30 percent in imports of petroleum products and imports of motor cars, and other motor vehicles for the transport of persons, respectively.

Kenya

Imports of excisable goods decreased by 34.1 percent to US$ 2.9 billion in 2015 from US$ 4.3 billion in 2014. The decrease was largely attributed to a 40.7 percent decrease in imports of petroleum products to US$ 2.2 billion in the same period from US$ 3.7 billion in 2014.

Rwanda

In 2015, Rwanda's value of imported excisable goods decreased by 13.0 percent, to US$ 190.5 million from US$ 218.8 million in 2014. The reduced import value of excisable goods was attributed to a 55.3 percent decrease in imports of petroleum oils to US$ 38.0 million in 2015 from US$ 85.0 million in 2014.

Tanzania

In 2015, the value of Tanzania's imported goods that attracted excise duty decreased by 23.8 percent to US$ 4.2 billion from US$ 5.5 billion in 2014. The decrease was mainly attributed to the reduction of imports of petroleum products, mineral fuels, tobacco and plastic items.

Uganda

Uganda's imports of excisable products decreased to US$ 1.1 billion in 2015 from US$ 2.2 billion in 2014. The major drivers of the decrease in the value of excisable products were the decrease in imports of petroleum products to US$ 850.2 million in 2015 from US$ 1.4 billion in 2014 and that of sugar to US$ 78.9 million from US$110.2 million in 2014. Also salt and sulphur imports decreased to US $35.3 million from US$ 137.8 million in 2014. These commodities constituted the major excisable products in the year jointly accounting for over 88.9 percent of the total value of excisable products.

5.4 TARIFF BANDS

The EAC Customs Union adopted a three tariff band structure with different rates as illustrated in Table 5.2. As shown in the table, raw materials and capital goods were charged at zero percent. Most of the goods imported in all EAC Partner States were under the category of zero tariff band. Imported goods under this category were mostly used in production and investment projects. Intermediate goods are charged a rate of 10 percent while finished goods are charged an import duty of 25 percent.

TABLE 16: VALUE OF IMPORTS BY TARIFF BAND, 2011-2015 (US$ MILLION)

Burundi

In 2015, the share of Burundi's imported goods under zero percent tariff band to total imports increased to 78.2 percent in 2015 from 76.5 percent recorded in 2014. The value of imported goods under the zero percent tariff band increased to US $ 619.8 million in 2015 from US$ 597.8 million in 2014. During the same period, the value of Burundi's imported goods under 10 percent and above 25 percent tariff band improved by 1.2 percent and 16.7 per cent, respectively. On the other hand, the value of imported goods under 25 percent declined by 11.6 per cent.

Kenya

The share of Kenya's goods imported under zero percent tariff band to total imports decreased to 60.3 percent in 2015 from 65.2 percent in 2014. The value of goods imported under the 0 percent tariff band decreased to US$ 9.7 billion in 2015 from US$ 12.0 billion in 2014. During the review period, the share of goods imported under 10 percent tariff band increased to 14.1 percent in 2015 from 12.8 percent in 2014, while those under 25 percent tariff band increased to 20.4 percent in 2015 from 17.1 percent in 2014.

Rwanda

In 2015, Rwanda commenced full implementation of the three tariff band structure that was agreed in July 2009, with the exception of sensitive products that were charged at rates above 25 per cent. In line with the new investment code in Rwanda, the exceptional flat rate of 5 percent previously applied to import of goods under the former Rwandan investment code were no longer applied in 2015.

Rwanda's imports of goods under zero percent tariffs decreased by 25.1 per cent to US$ 949.2 million in 2015 from US$ 1.3 billion in 2014 and accounted for 47.87 percent of the total value of imports (including exemptions). Imports under the 10 percent tariff accounted for 12.2 percent of total imports and increased by 104.1 percent to US$ 241.85 million in 2015 from US$ 118.5 million in 2014 while imports under the 25 percent tariff accounted for 36.2 percent of total imports and increased by 77.0 percent to US$ 73.9 million in 2015 from US$ 41.7 million in 2014.

Tanzania

In Tanzania, merchandise imports under the zero tariff band accounted for 55.6 percent of the total imports in 2015. Total imports under the zero rate decreased by 22.2 percent to US$ 5.9 billion from US$ 7.5 billion recorded in 2014. The value of goods imported under the 10 percent tariff band decreased by 10.3 percent to US$ 2.1 billion in 2015 from US$ 2.3 billion in 2014. Similarly, the value of goods imported under the 25 percent tariff band decreased by 10.9 percent to US$ 2.4 billion in 2015 from US$ 2.7 billion in 2014.

Uganda

In 2015, the value of goods imported under the zero percent tariff band accounted for 65.7 percent of total imports. This was a decrease of 4.4 percent to US$ 3.99 billion in 2015 from US$ 4.3 billion recorded in 2014. The major imports under the zero percent tariff band included crude palm oil, mineral fuels and oils, machinery and appliances, electrical equipment, pharmaceutical products and iron & steel. During the same period, imports under the 10 percent tariff band decreased by 1.5 percent to US$ 561.7 million from US$ 650.6 million in 2014. The growth in imports under the 10 percent band was slower than the 10.7 percent growth registered in 2014. The main products under 10 percent band included wheat, vehicles for the transport of goods, new pneumatic tyres, bituminous mixtures and vehicles parts and accessories. The value of imports under the 25 percent tariff band decreased by 2.1 percent to US$ 754.1 million in 2015 from US$ 883.7 million in 2014. Goods imported under the 25 percent tariff band constituted about 12.4 percent of total imports into the country and mainly included vehicles, palm olefin and footwear.

CHAPTER 6:
CUSTOMS REVENUE PERFORMANCE IN EAC

In 2015, total customs revenue from EAC Partner States increased marginally by 0.3 percent from US$ 8,196.8 million in 2014 to US$ 8,223.7 million in 2015. The share of customs revenue to total revenue increased by 1.1 percentage point from 35.6 percent in 2014 to 36.7 percent in 2015 as illustrated in Table 17.

	% age of Customs Revenue to Total Revenue	46.3		46.9		42.3		42.5		42.9		43.3									

6.1 BURUNDI

In 2015, Burundi's total customs revenue increased to US$ 190.6 million from US$ 1 47.5 million in 2014. The share of total customs revenue to total tax revenue increased to 50.7 percent in 2015 from 34.8 percent in 2014. VAT on imports accounted for 22.9 percent of the total customs revenue and decreased by 9.9 percent in 2015. The performance rate for VAT and import duty decreased to a performance rate of 48.6 percent and 85.7 percent from 100.4 percent and 94.1 percent in 2014, respectively.

6.2 KENYA

Kenya's total customs revenue decreased to US$ 3,838.6 million in 2015 from US$ 3,885.4 million in 2014. This translated into a performance rate of 94.8 percent of the set target of US$ 4,048.9 million. The share of total customs revenue to total revenue increased to 33.8 percent in 2015 from 33.7 percent in 2014. VAT on imports accounted for 36.4 percent of the total customs revenue decreasing by 5.8 percent to US$ 1,398.4 in 2015 from US$ 1,484.7 million in 2014. The performance rates for VAT and import duty increased to 88.6 percent and 97.3 percent in 2015 from 87.4 percent and 84.5 percent in 2014, respectively.

6.3 RWANDA

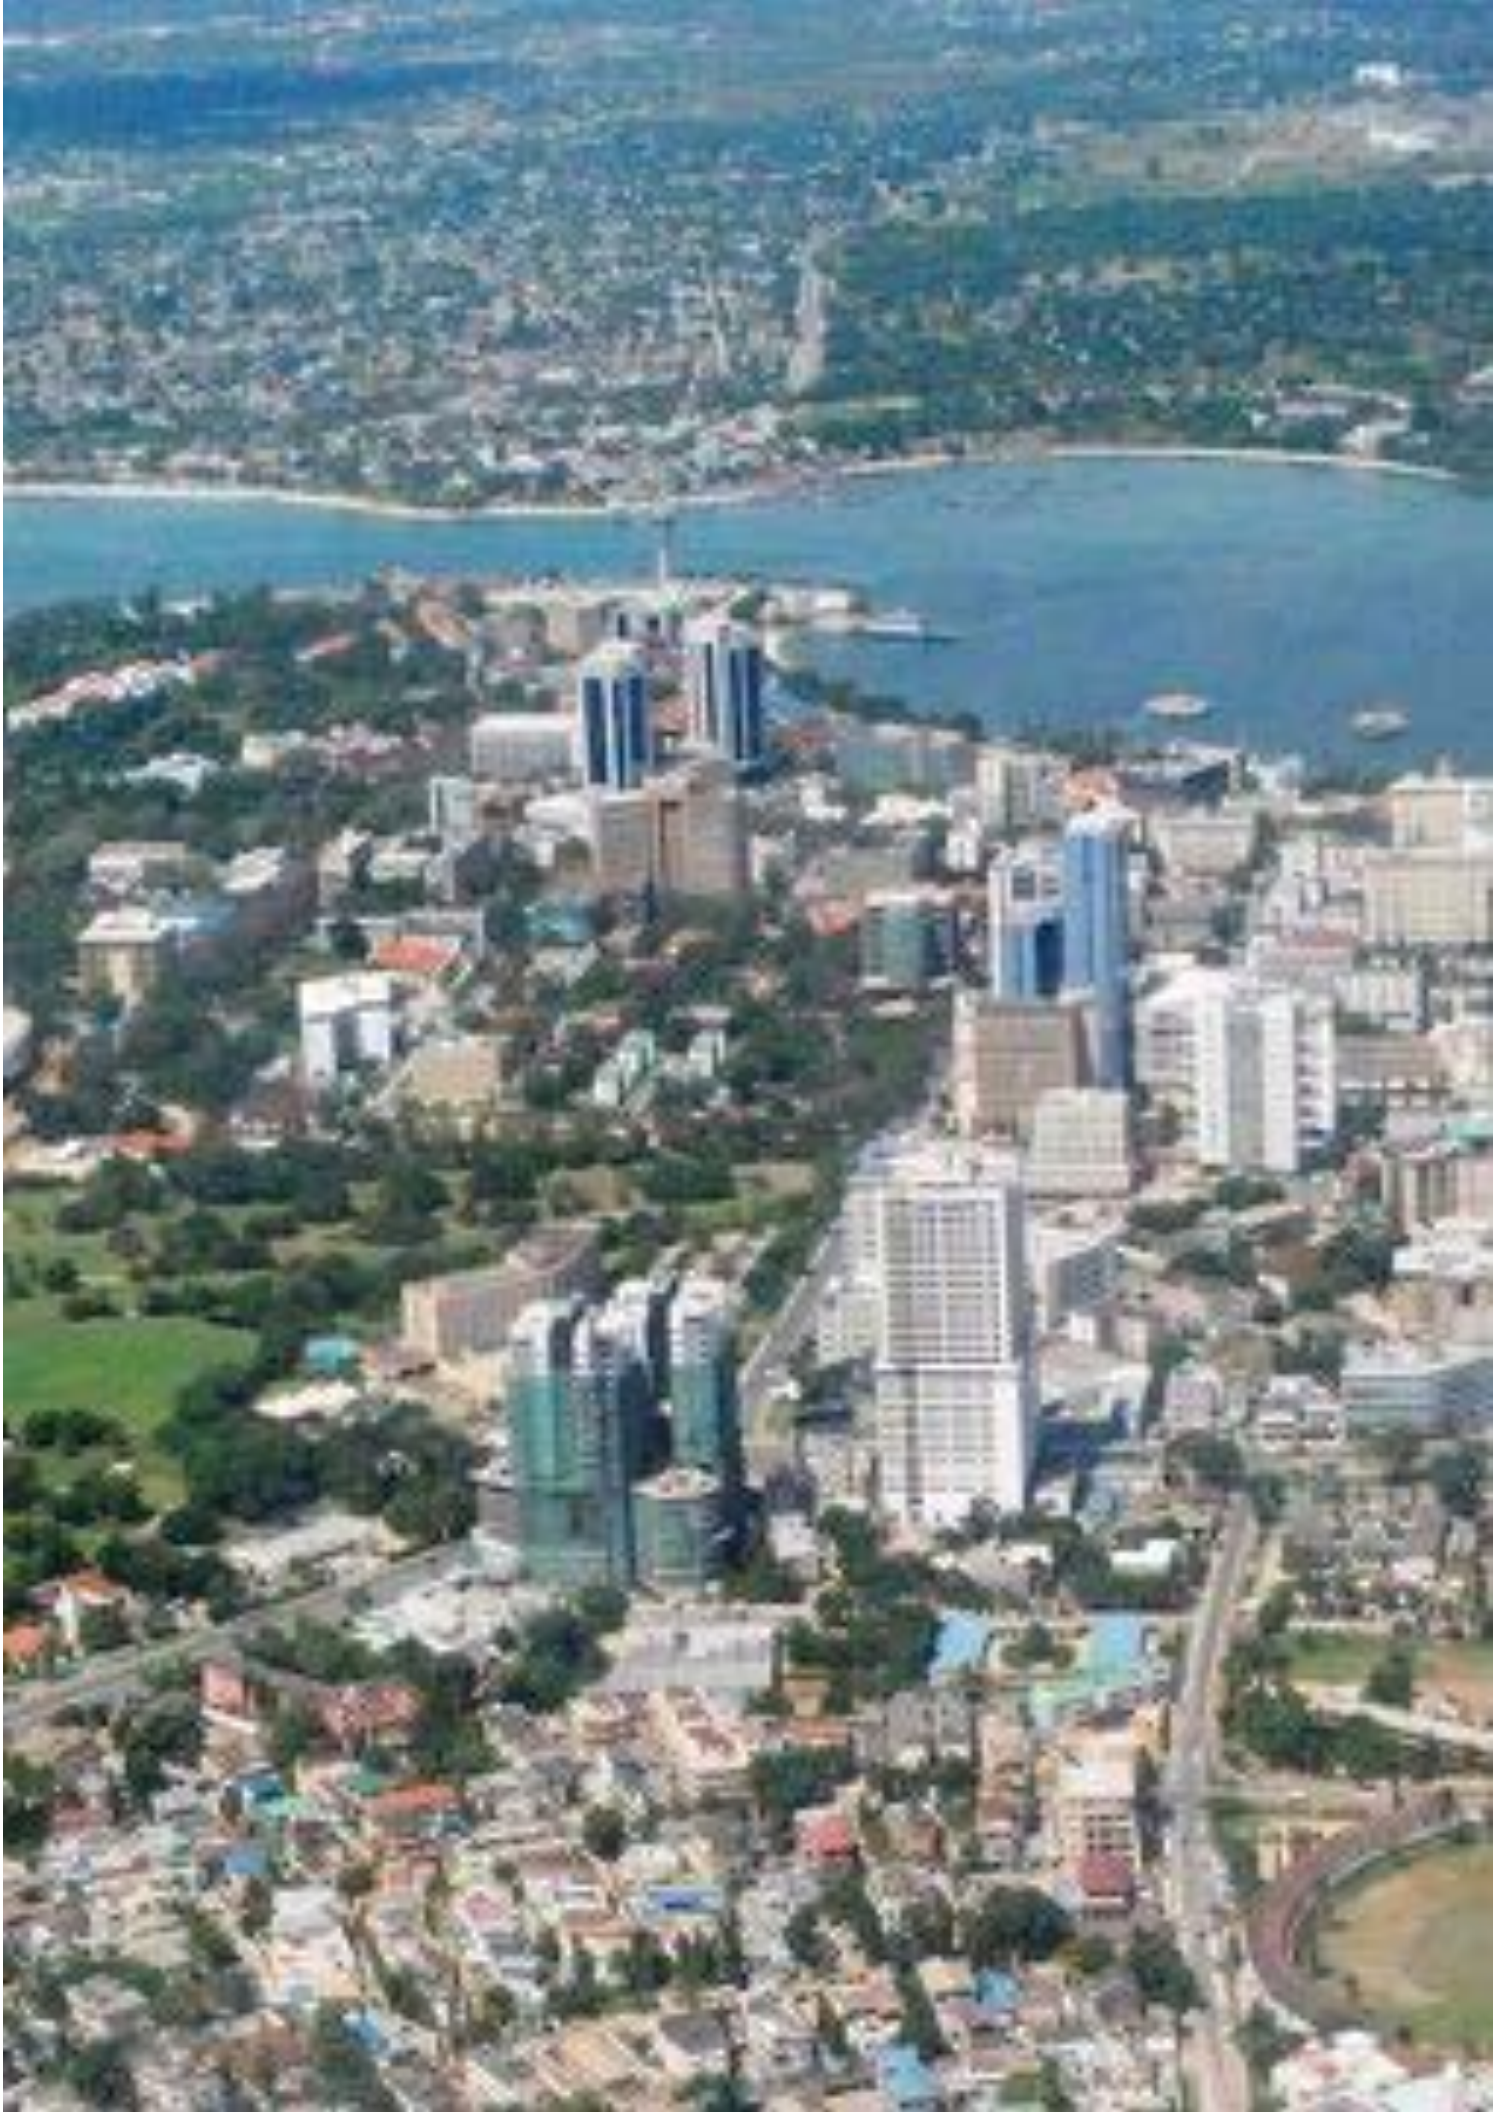
Rwanda total tax revenues increased by 7.08 percent to US$ 1,278.8 million in 2015 from US$ 1,194.2 million in 2014 against a target of US$ 1,235.0 million. The overall performance rate was 103.5 per cent. Customs revenue collections increased by 7.8 percent to US$ 369.4 million in 2015 from US$ 342.7 million in 2014. The customs performance rate was 105.5 per cent against a target of US$ 350.2 million. Excise duty recorded an increase of 5.2 percent while VAT on imports increased by 5.8 percent. Import duty also increased by 20.0 per cent leading to an increase of 7.6 percent of the total revenue in 2015.

6.4 TANZANIA

Tanzania's total revenue collected in 2015 decreased by 7.0 percent to US$ 5939.0 million from US$ 6,384.5 million in 2014. Customs revenue increased by 1.0 percent to US$ 2.338.3 million in 2015 from US$ 2315.3 million in 2014. VAT on imports decreased to US$ 801.9 million from US$ 857.7 million in 2014. Import duty and Excise duty performed at 92.6 percent and 117.9 percent of the set targets of US$ 430.14 million and US$ 476.96 million, respectively. However, the portion of customs revenue to total revenue increased by 39.4 percent in 2015 compared to 36.3 percent in 2014.

6.5 UGANDA

In 2015, total customs revenue decreased by 1.27 percent to US$ 1,486.8 million in 2015 from US$ 1,505.9 million recorded in 2014. This performance was 103.9 percent of the set target of US$ 1,431.3 million. VAT on imports accounted for 40.6 percent of the total customs revenue with Excise duty contributing 32.3 percent. Compared to their respective targets for the year, other taxes (withholding tax and environmental tax) registered the highest performance of 114.3 percent, followed by Excise duty with a performance rate of 105.4 percent and VAT on Imports duty with 103.7 percent. The key taxable imports included fuel, vehicles, parts, electrical machinery, sugar, beverages, machinery, iron and steel, and edible oils and fats. The proportion of customs revenue to total revenue marginally increased to 43.3 percent in 2015 from 42.9 percent recorded in 2014.



CHAPTER 7:
INVESTMENT FLOWS IN THE EAC

7.1 GLOBAL INVESTMENT TRENDS

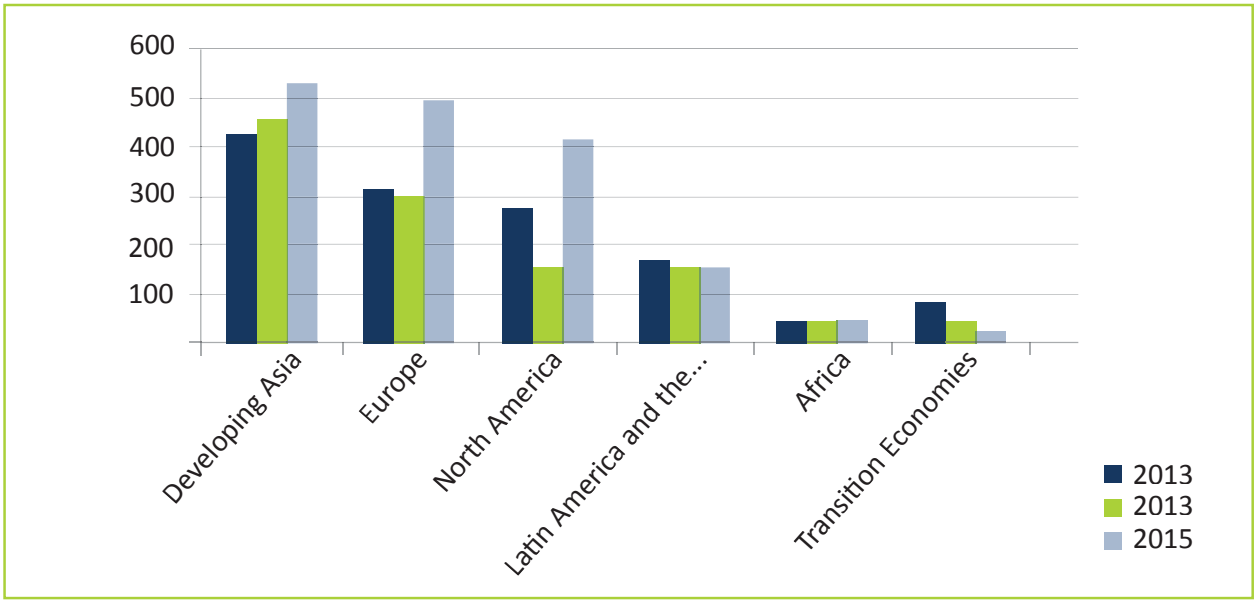
The United National Conference on Trade and Development (UNCTAD) World Investment Report 2016 shows that global Foreign Direct Investment (FDI) in 2015 rose by 38 percent to US$ 1.8 trillion in 2015 from US$ 1.3 trillion in 2014. This increase in FDI was due to more favourable investment policies to attract investments especially in Asia and North Africa. FDI inflows to the developed world increased by over 55 percent to US $ 962 billion in 2015 while inflows to developing economies grew by a modest rate of 9 percent to over US$ 765.8 billion in 2015 from US$ 701.8 billion in 2014.

According to the World Investment Report 2016, Asia was the largest recipient of FDI flows in 2015 with over 50 percent of FDI concentrated in the manufacturing sector. According to chart 7.1 below, FDI inflows into Asia grew by over 15.6 percent to US$ 541billion in 2015 from US$ 468 billion in 2014. FDI to Africa and Latin America fell in 2015. FDI into Africa fell by 6.9 percent to US$ 54 in 2015 from US$ 58 billion in 2014. However, there was growth in the FDI inflows to North Africa. FDI inflows into North Africa grew by 9 percent in 2015 to US$ 12.6 billion in 2015 mainly due to growth of investment in Egypt where inflows increased by 49 percent to US$ 6.9 billion and Morocco where sizable inflows of US$ 3.2 billion were recorded. Inflows to Sudan also increased by 39 percent to US$ 1.7 billion in 2015.

FDI to Latin America fell modestly at 1.2 percent to US$ 168 billion in 2015 from USD $170 billion in 2014. According to the Asia Pacific Trade and Investment Report 2015, the fall in global prices for crude oil and other mineral ores that occurred in 2014 and persisted into 2015 was a major cause for the decline of FDI into Africa and Latin America. Crude oil prices fell by over 47 percent in 2014 and continued to fall to a low level of US $ 40 per barrel by the end of 2015.

Outward FDI from developed countries increased by 33 percent to US$ 1.1 trillion in 2015 from US$ 827.1 billion. Europe had the largest share of outflows in 2015. Outflows from Europe grew by over 85 percent to US$ 576 billion in 2015 from US$ 311.6 billion in 2014.

FIGURE 26: FDI INFLOWS BY REGION, 2011-2015 (US$ BILLIONS)



Source: *UNCTAD, FDI/MNE data base 2016*

7.2 EAC INVESTMENT OUTLOOK

The UNCTAD World Investment Report 2016 shows that the investment inflows to the EAC were mainly in the industrial sector especially manufacturing, energy and mining. The major investments in the manufacturing sector include textile firms that have invested in new industrial ventures in the Region. The investment is mainly driven by potential markets in the European Union and the US based on existing export promotion arrangements signed between the two Regions and the EAC. Other key investments are aimed at the extractive and the mining sectors where major international companies have invested in the oil and gas as well as mining sectors. In addition, investments in the services sector especially tourism and communications increased in 2015.

Legal and Policy Framework

The legal framework for investment promotion in the EAC is set out in the EAC Treaty, the Customs Union and Common Market Protocols, Investment Promotion Acts and Companies Acts, as well as various regulations. These legal frameworks contain provisions for issuance and harmonization of investment exemptions and incentives, prioritization of sectors, regulation of cross border investments as well as operation of Special Economic Zones (SEZs).

The policy framework for investment promotion in the EAC is set out in several regional and national documents. The key policy documents for investment promotion include the EAC Model Investment Code; the EAC Industrial Development Strategy; EAC Development Strategies (I – IV); and EAC Private Sector Development Strategy. The aim of the strategic policies is to promote both domestic and foreign investments through a holistic approach to infrastructure development, industrial development and public sector engagement.

Institutional Framework

The institutional arrangement for investment promotion exists at the regional as well as the Partner States Levels. At the regional level, investment promotion is regulated through the EAC Secretariat, the EAC Business Council and the EAC Court of Justice (EACJ). Partner States have set up central government ministries to oversee investment policy. At the same time, Statutory Agencies were set up to promote and facilitate investment.

The agencies are Burundi Investment Promotion Authority (API), Kenya Investment Authority (KenInvest), Rwanda Development Board (RDB), Tanzania Investment Centre (TIC), Uganda Investment Authority (UIA) and Zanzibar Investment Promotion Agency (ZIPA). These Investment Promotion Agencies (IPAs) promote growth of inward FDI by facilitating, promoting and attracting new investments and encouraging re-investments. IPAs assist investors with acquisition of relevant permits, licences and approvals.

In order to act as one-stop centres, the IPAs have undertaken a number of reforms to enhance business climate through improving business registration processes and reducing the cost of doing business to make the Region a favourable investment destination. With support of UNCTAD, Tanzania, Kenya and Rwanda have developed Investment facilitation portals, dubbed e-regulations which map out investment facilitation procedures per country. In Kenya, a lot more investments are beginning to be established in Counties as a result of renewed marketing, investment promotion and facilitation strategies and campaigns by County governments. Kenya has also streamlined investor application, processing and approval procedures through development of e-platforms and digitization of services.

7.3 INVESTMENT OPPORTUNITIES IN THE EAC

The EAC region has vast investment opportunities in all sectors of the economy mainly Agriculture, Tourism, Manufacturing, Mining, Extraction, ICT, Energy, and Oil & Gas. Other emerging sectors are: Building and Construction, Real Estate Development, Transport and Logistics, Banking, Finance and Insurance. To harness EAC investment potential, the EAC Custom Union Protocol provides for the establishment of Export Promotion Schemes and Special Economic Zones (SEZs). These initiatives provide specific incentives to attract FDI and Cross-Border Investments (CBI) while the Common Market Protocol provides a window for deeper integration by free movement of goods, services and people. However, the EAC Partner States need to fast track full implementation of the Customs Union and Common Market Protocols in order to develop the Region as a Common Investment Area with similar laws and policies favourable to FDI and growth of local investments.

Also, EAC Partner States continue to implement the components of the Cooperation Agreement between EAC and the World Bank on Investment Climate Programme, signed in March 2012. The Region is negotiating with US on an enhanced EAC-US Trade and investment partnership cooperation grounded on four pillars: Regional Investment Treaty; Trade Facilitation; Commercial Dialogue; and Capacity Building. The EAC-EU Economic Partnership Agreements (EPAs) have been concluded and are awaiting signature. The EAC-COMESA-SADC tripartite FTA was launched in Egypt in September 2015 and EAC Partners States are all beneficiaries of the AGOA regime. The Regional agreements will make the EAC a more favourable investment destination in Sub-Saharan Africa.

7.4 INVESTMENT CLIMATE

In 2015, the Global Competitiveness Report ranked the EAC Partner States as shown in Table 7.1. Rwanda Uganda and Burundi improved slightly on global rankings, while Kenya, Tanzania declined. Rwanda continued its upward movement on the rankings moving up four places from 62nd to 58th position and improving in seven out of the 12 pillars on the rankings. Rwanda improved in business sophistication and financial markets. Rwanda also benefitted from the existence of strong public and private institutions. Uganda's rankings rose to 115th in 2015 from 122nd in 2014 while Tanzania and Burundi improved marginally in 2015 to 102nd from 121st and to 136th from 139th, respectively.

TABLE 18: EAC GLOBAL COMPETITIVENESS RANKING 2013/14-2014/15

COUNTRY	GLOBAL RANKING			CHANGE
	2013/2014	2014/15	2015/16	2014/15 -2015/16
Burundi	146	139	136	3
Kenya	96	90	99	-9
Rwanda	66	62	58	4
Uganda	129	122	115	7
Tanzania	125	121	120	1

Source: *Global Competitiveness Index report 2014/15 and 2015/16 (World Economic Forum)*

According to the World Bank 'Doing Business Report' trading across economies is important for global economic growth. The World Bank 'Ease of Doing Business' Report 2015 points out that while East African economies are reforming, they are not performing well on the 'Ease of Doing Business' ranking. The report highlights progress in starting a business and accessing credit. However, most East African economies are constrained by inadequate infrastructure. East Africa has two main road corridors: the Northern Corridor connects the hinterland to the port of Mombasa and the Central Corridor, approximately 800 miles, connects the EAC to the port of Dar es Salaam. According to the Northern Corridor-Transit Transport Coordination Authority, the state of the road infrastructure causes delays which lead to losses of about US$ 800 per day for each truck. Rail infrastructure is limited in East Africa. Rwanda and Burundi have no operational railway and less than 5 percent of total cargo in the Region is transported by rail while the existing railway system and lines in Uganda, Kenya and Tanzania limit cargo weight and freight. The lack of adequate infrastructure affects the capacity of the three landlocked countries to reduce the cost of transport which makes up about 50-70 percent of the price of commodities. Infrastructure constraints at the ports due to limited capacity and aging equipment cause significant delays and backlog in clearing.

7.5 EAC INVESTMENT FLOWS

In 2015, East Africa saw its FDI inflows decrease by 16.4 percent to US$7.2 billion from 8.6 billion in 2014. This was largely driven by reductions in FDI inflows into the United Republic of Tanzania and Uganda although there was growth in FDI inflows into Kenya and Rwanda. Inflows to the United Republic of Tanzania reflected increased investment into the gas sector; while Kenya was driven by infrastructure, oil and mineral exploration, manufacturing, information communications and technology, transport and logistics. Overall, investment inflows in the Region were concentrated in the finance and insurance, transport and communications as well as utilities sectors. Over the year, inflows into the finance and insurance sectors amounted to about US$ 2.8 billion while investments into the utilities sector amounted to about US$ 1.8 billion. In terms of employment creation, investments in the finance and agricultural sectors contributed about 11,381 and 10,207 jobs, respectively. Other notable contributors in terms of employment creation were the investments in the mining sector that contributed about 6,831 jobs in 2015. During the year, the majority of the investments came from USA and China which invested about US$ 1.5 billion and US$ 1.3 billion, respectively.

TABLE 19: FDI INFLOWS INTO EAC REGION, 2010-2015 (US$ MILLION)

Country	2010	2011	2012	2013	2014	2015	Percentage Growth 2014/2015
Burundi	1	3	1	7	32	1.8	-94.4

7.5.1 OVERALL INVESTMENT FLOWS

BURUNDI

In Burundi, the value of FDI inflows decreased to US$ 1.80 million in 2015 from US$ 151.0 million in 2014. Only one project was registered in 2015 compared to ten - in 2014.

KENYA

According to the World Investment Report 2016, FDI inflows to Kenya in 2015 increased to US$ 1,437 million compared to US$ 1,051 recorded in 2014. Proposed FDI inflows to Kenya recorded by the Kenya Investment Authority grew twofold to US$ 2,187.2 million in 2015 from US$ 874.1 million in 2014. The number of projects registered also doubled to 251 projects in 2015 from 124 projects in 2014. The growth was largely attributed to improved investors' confidence in country's business environment and the growing domestic consumer market. The African Economic Research Consortium 2014 report indicated that Kenya is increasingly becoming a favoured business hub, not only for oil and gas exploration, but also for manufacturing, transport and the booming technology industry. Investment inflows to the country more than doubled in 2015 due to increased investor preference of Kenya as a Regional business hub. Kenya is also becoming a major conference hub, with high level meetings and delegations such as the Global Entrepreneurship Summit (GES) and the World Trade Organisation (WTO) meetings held in July and December 2015, respectively.

FDI INFLOWS INCREASED **196.2%** TO $1.1B **IN 2015**

RWANDA

FDI inflows to Rwanda increased by 196.2 percent to US$ 1.1 billion in 2015 from US$ 359.61 million in 2014. The number of investment projects increased by 166.67 per cent to 144 projects from 54 projects over the same period.

TANZANIA

In Tanzania, the value of registered projects under FDI decreased by 37.3 percent to US$ 3,449.7 million in 2015 from US$ 5,502.9 million registered in 2014. In comparison to the figures recorded in 2014, the mismatch was due to normal causes of flow trends including non-registrations of the new investments in oil and gas sector. The overall number of FDI projects registered in the year decreased to 305 projects from 423 registered in 2014.

FDI INFLOWS DECREASED **37.3%** TO $3,449.7 M **IN 2015**

FDI INFLOWS DECREASED **70.6%** TO $517 M **IN 2015**

UGANDA

In 2015, the value of FDI inflows to Uganda decreased by 70.6 percent to US$ 517 million from US$ 1,755 million in 2014. In 2015, China was the major source of FDI flows to Uganda with total investments amounting to US$ 111 million.

7.5.2 INTRA-EAC INVESTMENT FLOWS

Total value of intra-EAC investment increased by 14.5 percent to US$237.8 million in 2015 from US$ 207.7 million in 2014. In contrast, the number of registered projects decreased by 16.2 percent from 68 projects in 2014 to 57 in 2015. Tanzania, Kenya and Uganda continued to attract a large amount of intra-EAC investment as illustrated in Table 20.

TABLE 20: INTRA-EAC INVESTMENT FLOWS, 2011-2015 (US$ MILLION)

Partner State	Source	2011		2012		2013		2014		2015		Percent Change, (2015 over 2014)

Source: *Partner States Investment Promotion Agencies*

Burundi

Burundi registered minimal intra-EAC Investment in 2015 compared to 2014. The Burundi Investment Promotion Authority (API) did not register any significant investment project related to intra-EAC investment flows. This implied that the total recorded intra-EAC investments by value was not substantial in comparison to investments of US $1.4 million registered in 2014.

Kenya

In 2015, a total of 14 investment projects from the other Partner States valued at US$ 132.1 million were recorded by the Kenya Investment Authority (KenInvest). Rwanda was the main investor among the Partner States accounting for 85 percent key projects in the construction sector. Investment flows from the EAC Partner States accounted for 0.6 percent of the total investments into Kenya during the year. In order to attract more investment, there is need to harmonise investment policies and laws in the Region to provide for a Common Investment Area consistent with the EAC Treaty, the Customs Union and Common Market Protocols.

Rwanda

In 2015, 2.9 percent of Rwanda's total foreign direct investment originated from Kenya, Tanzania and Uganda. The number of investment projects to Rwanda increased from 7 in 2014 to 9 in 2015 while the value increased from US$ 26.20 million in 2014 to US$ 30.50 million in 2015. The share of total investments to Rwanda originating from Kenya, Tanzania and Uganda amounted to 70.5 percent, 19.0 percent and 10.5 percent, respectively. The analysis shows that the share of global investment flows originating from Kenya and Tanzania dropped during the year compared to 2014 while investments from Uganda increased marginally to about 10.5 percent in 2015 from 6.5 percent in 2014.

Tanzania

In 2015, total projects registered by Tanzania as intraEAC investments were 20, that is, from Kenya 14 projects distributed to sectors of finance, insurance, real estate and business, manufacturing, transportation, communication and storage and community; and social and personal services. Three investments were from Uganda to Tanzania, one in manufacturing sector and two in transportation sector. Investments from Rwanda were also three, one project in manufacturing sector and two in transportation sector. The intra-EAC investments flow to Tanzania valued US$ 55.32 million in 2015 compared to US$ 111.3 million in 2014. The Intra-EAC investment flows to Tanzania accounted for only 1.6 percent of the total FDI inflows of USD 3,449.7 million in 2015.

Uganda

The intra-EAC investment inflow to Uganda decreased by 23.5 percent to US$ 19.8 million in 2015 from US$ 60.4 million in 2014. The number of projects registered decreased to 13in 2015 from 17 in 2014, the bulk of which were registered by Kenyan investors. No projects were registered from Burundi during the year.

7.6 EMPLOYMENT CREATION

During the review period, the number of jobs created through licensed FDI declined by 27.4 percent to 72,268 in 2015 from 99,513 in 2014. All partner states recorded decline in the number of jobs created except Kenya and Rwanda which recorded increase of 61.9 percent and 33.9 percent, respectively.

TABLE 21: NUMBER OF JOBS EXPECTED THROUGH FOREIGN INVESTMENTS, 2011-2015

7.7 SECTORAL DISTRIBUTION OF FOREIGN DIRECT INVESTMENT

Burundi

In 2015, one project amounting to US$ 1.8 million was registered. The project, specifically related to Education, was registered under the Community, Social and Personal Services sector. This was a decline in investment inflows compared to 2014 where 10 key investment projects in communication, construction finance and transport were registered. In terms of value, the investment flows declined by over 94.4 percent from US$ 151 million in 2014

KENYA

In 2015, the leading sectors in attracting FDI were Construction, Mining and Quarry; Retail Trade and Tourism accounting for 60.4, 21.2 and 9.3 percent, respectively of the total FDI inflows. Also in 2014 Construction was the leading sector accounting for 55.9 per cent. However, Agriculture, Manufacturing, Tourism and Services (Banking and Financial services, ICT) have been the main sectors of growth. A lot more new investments are coming up in Construction, Real Estate Development, Transport and Logistics, Wholesale and Retail, Energy, Mining and Quarrying.

RWANDA

In 2015, Community, Social and Personal Services; Utilities (water & energy); Finance, Insurance, Real Estate and Business Services; and Transport, Communication and Storage sectors were the main recipients of FDI jointly accounting for 76.1 percent. This amounts to US$ 810.3 million of total FDI inflows. In terms of the number of investment projects, Manufacturing and Agriculture, Fishing, Forestry and Hunting sectors were leading with 41.0 percent. The total number of jobs expected to be created through FDI in 2015 were 11,005. The Agriculture, Fishing, Forestry and Hunting, Community, Social and Personal Services, and the Manufacturing sectors accounted for about 70.5 percent of the total number of employment opportunities.

TANZANIA

In 2015, Finance, Insurance, Real Estate and Business services together attracted the highest FDI inflows accounting for 36.73 percent of registered projects, amounting to about US$ 1.3 billion and created 6,936 employment opportunities. Water and Utilities sector also attracted a significant level of investment in 2015 accounting for about 29.2 percent of all investments amounting to US$ 1.0 billion and creating about 4,620 employment opportunities during the year. The contribution of the Transport, Communication and Storage sectors declined in value falling from US$ 3.3 billion in 2014 to US$ 114.4 million in 2015.

UGANDA

The Manufacturing; Finance, Insurance, Real Estate and Business Services; Electricity, Gas & Water; and Agriculture sectors attracted the largest share of FDI inflows accounting for about 79.1 percent of total inflows valued at US$ 408.7 million in 2015. The other six sectors, all together attracted a combined investment value of US$ 108 million. With regard to expected employment, prospects were highest in the Manufacturing sector which accounts for 45 percent of the expected jobs. This was followed by Agriculture and Finance, Insurance, Real Estate and Business Services accounting 18.5 percent and 16.8 percent, respectively.

Manufacturing sector registered the highest number of projects, 103 projects, (42 percent) of the total projects while the Finance, Insurance, Real Estate and Business Services, and the Agriculture sectors registered 51 projects and 35 projects respectively as shown in Table 7.7.

KENYA

In 2015, South Africa, Ireland and Rwanda were the major sources FDI inflows to Kenya valued at US$ 1.2 billion, US$ 463.0 million and US$ 112.0 million, respectively. The top ten source countries accounted for 91.9 percent of the total proposed FDI inflows to Kenya in 2015. Traditionally, major source countries for FDI inflows to Kenya are UK, EU mainly Germany, France and Italy; US, China and Japan. Other new entrants are South Korea, South Africa and Turkey.

UGANDA

In 2015, the value of FDI inflows to Uganda decreased by 70.6 percent from US$ 1,755 million in 2014 to US$ 517 million in 2015. The five major sources of investments were China (US$ 111 million), Nigeria (US$ 58 million), India (US$ 43 million), Sri Lanka (US$ 42 million) and United Kingdom (US$ 28 million). With the exception of China, each of the other top 10 source countries provided projects valued at less than US$ 100 million as shown in Table 7.12.

CHAPTER 8:
CHALLENGES AND POLICY RECOMMENDATIONS

8.1 CHALLENGES TO TRADE AND INVESTMENT IN THE EAC

Since the inception of the EAC Customs Union in 2005, there has been an increase in intra-EAC trade. Both intra-EAC trade as well as trade with the rest of the world has grown. Despite the growth in the volume of trade, EAC contribution to global trade is meagre amounting to less than one percent of global trade. The low volume of trade between EAC and the rest of the world can be attributed to a number of factors:

i. Infrastructure constraints: The World Bank's World Economic Outlook Report for 2015 shows that EAC still suffers from infrastructure deficits specifically poor road connections as well as costly and unreliable power supply and internet connectivity. Road transport network is critical since three of the five Partner States are landlocked and have to transport raw materials as well as final products over long distances in order to reach markets in the Region and beyond. A study by TradeMark East Africa concluded that a one dollar investment in infrastructure can result in more than two dollars' worth of trade opportunities in the Region.

ii. Delays in conclusion of trade agreements: EAC has negotiated a number of trade agreements in order to provide exporters with access to international markets. These trade agreements include the EAC-EU EPA agreement, COMESA-EAC-SADC TFTA and EAC-US TIPA.

iii. Ineffective management of the EAC exemption regime: The EAC established an exemption regime in order to attract investment and spur industrial development in the Region. There are various types of exemption regimes in the EAC. Some relate to the Region while others are country specific. The exemption regimes include duty waivers and exemptions as well as exemptions on a range of domestic tax obligations for manufacturers for the export market. However, there is no mechanism yet for monitoring the implementation of the regime to ensure that goods produced from raw materials that have benefitted from duty exemptions are not sold on the domestic market.

iv. Lack of value addition to export commodities: EAC countries mainly export commodities primarily agriculture products and mineral ores with very little value addition. For example, the top 10 exports from the Region are primarily agricultural raw material while the Region imports mainly capital goods, manufactured goods and services. While EAC has a comparative advantage in agriculture and agro processed goods, there is little value added to the few goods that are produced within the Region.

v. Lack of complementarity: The EAC regional integration has yet to provide real benefits for member states due to lack of complementarity since almost all the Partner States are at the same level of development as highlighted by the real GDP growth figures of the five EAC Partner States. This affects the level of intra-EAC trade that can be undertaken.

vi. Investment related policies and strategies exist in the Region but are scattered in numerous national programmes and strategic plans: There is yet no comprehensive regional investment strategy to guide investment promotion in the Region. Also, Partner States have developed national investment promotion strategies to enhance investment. However, these national level programmes are not linked among the five countries and have different implementation time frames which make regional approaches difficult.

vii. The investment regime in the EAC provides for exemptions and incentives to attract investment: These are contained in the protocols, laws and regulations of the EAC Partner States. However, there still exist variations in implementation of the exemptions and incentives regimes among the Partner States. Partner States are still applying discretion to grant exemptions on a case by case basis. For example, Rwanda has established Special Economic Zones (SEZ) while Uganda and

Tanzania operate Export Processing Zones (EPZ). These differences do not promote transparency in the investment promotion at the regional level.

viii. The Region is reforming in order to attract investments, however, Partner States still practice cumbersome administrative and regulatory practices with regard to registering a business and getting a license: This has affected the competitiveness rankings of the individual countries on the World Bank Doing Business Index and the World Economic Forums' Competitiveness Index. The low ranking of the Partner States on these competitiveness indicators discourages investments into the Region.

ix. Delayed development of key policies that would promote the Region as a single investment destination and provide guidance to the Community and individual EAC Partner States on how to engage third parties when negotiating trade and investment treaties:
Such policies include:

a) EAC Trade Policy;
b) EAC Model Investment Treaty;
c) EAC Regional Investment Policy;
d) Private Sector Development Strategy; and
e) EAC Special Economic Zone Policy.

x. The institutional arrangements for investment promotion exist in the respective Partner States and consist of dedicated public institutions including Ministries, Departments and Agencies: The capacity of these agencies to support investment promotion differs from country to country. Also, these institutions have inadequate capacity and resources to undertake large scale investment promotions. As a result, they tend to rely on support for firms that are already willing to invest in the Region.

xi. The FDI inflows into EAC over the last five years have been dominated by resource extraction and energy sectors: These capital intensive sectors do not lead to long term strategic engagement in the host economies nor create many jobs through re-investment of profits. This has the effect of undermining domestic diversification efforts at the domestic level. There is also a risk of large scale profit repatriation that tends to worsen the balance of payments positions of the host countries.

8.2 POLICY RECOMMENDATIONS

In order to mitigate the unfavourable trade and investment position in EAC, the following policy recommendations are proposed:

- Enhance value addition for EAC export products, for example, agricultural and mineral products to attract high returns from exports;
- Partner States should adhere to EAC tariff bands;
- Conclude the on-going trade agreements with key trade partners ;
- Improve the cost of doing business and the investment climate in the Region.
- Improve the policy framework for investment through the development of a common investment policy to guide investment from a regional perspective.
- Strengthen the capacity of investment promotion agencies at the national level and the Investment Department at the EAC Secretariat in order to harmonize the investment policies.

Notes:
(1) COMESA excludes Kenya, Uganda, Burundi and Rwanda
(2) SADC excludes Tanzania
(3) COMESA and SADC have overlapping membership

TABLE 5A: INTRA-EAC TRADE OF THE MAJOR TWENTY IMPORTS, 2014 (VALUES IN US$ MILLION)

Partner state	Ctry of Origin	HS level	Description of Goods	CIF Values
Uganda	Burundi	2 digits		
		72	Iron and steel	1.73
		09	Coffee, tea, mate and spices	1.28
		84	Nuclear reactors, boilers, machinery & mechanical appliances; parts	0.62
		41	Raw hides and skins (other than fur skins) and leather	0.35
		24	Tobacco and manufactured tobacco substitutes	0.04
		87	Vehicles other than railway/tramway roll-stock, parts & accessories	0.03
		39	Plastics and articles thereof	0.02
		48	Paper & paperboard; art of paper pulp, paper/paperboard	0.02
		05	Products of animal origin, nes or included	0.00
		76	Aluminium and articles thereof	0.00
		49	Printed books, newspapers, pictures & other products,etc	0.00
		06	Live tree & other plants; bulb, root; cut flowers, etc	0.00
		96	Miscellaneous manufactured articles	0.00
		73	Articles of iron or steel	0.00
		90	Optical, photographic, cinematographic, measuring, checking, precision, etc instruments and apparatus	0.00
		85	Electrical machinery mechanical parts thereof; sound recorder, etc	0.00
		63	Other made up textile articles; sets; worn clothing, etc	0.00
		94	Furniture; bedding, mattress, mattress support, cushion, etc	0.00
		47	Pulp of wood/of other fibrous cellulosic material; waste, etc	0.00
		14	Vegetable plaiting materials; vegetable products nes	0.00
		4 digits		
		7204	Ferrous waste and scrap; remelting scrap ingots of iron or steel	1.72
		0901	Coffee; coffee husks and skins; coffee substitutes containing coffee	1.28
		4101	Raw hides and skins of bovine or equine animals, not tanned	0.35
		8474	Machinery for sorting, agglomerating Earth, stone, ores, etc	0.23
		8462	Machine-tools (incl. Presses) for working metal by forging, etc	0.18
		8429	Self-propelled bulldozers, angle dozers, graders, levellers, etc	0.13
		2401	Unmanufactured tobacco; tobacco refuse	0.04
		8704	Motor vehicles for the transport of goods	0.03
		8443	Printing machinery; machines for uses ancillary to printing	0.03
		8438	Machinery, nes, for the industrial preparation of food or drink	0.02
		8422	Dish washing machines; machinery for cleaning, filling, aerating	0.02
		4819	Cartons, boxes, etc; box files, etc, of paper, paperboard, etc	0.02
		3917	Tubes, pipes and hoses, and fittings thereof, of plastics	0.02
		7216	Angles, shapes and sections of iron or non-alloy steel	0.01
		3923	Articles for the of goods, of plastics; stoppers, etc, of plastics	0.01
		0507	Ivory, tortoise-shell, whalebone and whalebone hair, etc, unworked	0.00
		7611	Aluminium reservoirs, tanks, etc, (excl. For gas) >=300 l	0.00
		4901	Printed books, brochures, leaflets and similar printed matter	0.00
		0602	Other live plants, cuttings and slips, mushroom spawn	0.00
		8420	Calendering or other rolling machines and cylinders thereof	0.00
	Kenya	2 digits		
		25	Salt; sulphur; earth & stone; plastering material; lime & cement	86.93
		72	Iron and steel	57.69
		39	Plastics and articles thereof	46.43
		27	Mineral fuels, oils & product of their distillation,etc	45.84
		22	Beverages, spirits and vinegar	38.47
		30	Pharmaceutical products	23.37
		34	Soap, organic surface-active agents, washing preparations, etc	22.50
		87	Vehicles other than railway/tramway roll-stock, parts & accessories	20.27
		17	Sugars and sugar confectionery	18.20
		48	Paper & paperboard; art of paper pulp, paper/paperboard	17.31
		15	Animal/vegetable fats & oils & their cleavage products; etc	16.25
		73	Articles of iron or steel	12.91
		21	Miscellaneous edible preparations	12.50

TABLE 5A: INTRA-EAC TRADE OF THE MAJOR TWENTY IMPORTS, 2014 (VALUES IN US$ MILLION)

Partner state	Ctry of Origin	HS level	Description of Goods	CIF Values
		28	Inorganic chemicals; compounds of precious metals, radioactive elements, etc	11.62
		64	Footwear, gaiters and the like; parts of such articles	10.64
		85	Electrical machinery mechanical parts thereof; sound recorder, etc	9.75
		24	Tobacco and manufactured tobacco substitutes	9.59
		76	Aluminium and articles thereof	8.57
		49	Printed books, newspapers, pictures & other products, etc	7.96
		84	Nuclear reactors, boilers, machinery & mechanical appliance; parts	7.66
		4 digits		
		2523	Portland cement, aluminous cement, persulphate cement, etc	51.38
		7210	Rolled iron or non-alloy steel, >=600mm wide, clad, plated or coated	37.37
		2710	Petroleum oils, etc, (excl. crude); preparations thereof, nes	36.26
		2501	Salt and pure sodium chloride; sea water	30.61
		3923	Articles for the of goods, of plastics; stoppers, etc,	24.05
		3004	Medicaments of mixed or unmixed products, for retail sale	22.02
		1704	Sugar confectionery (incl. white chocolate), not containing cocoa	17.80
		7209	Cold-rolled iron or non-alloy steel, >=600mm wide	15.24
		2203	Beer made from malt	14.85
		3402	Non-soap surface-active agents; washing preparations, nes	12.79
		2207	Ethyl alcohol, undenatured of >=80% alcohol, denatured spirits	12.08
		2402	Cigars, cigarillos, cigarettes, etc, of tobacco or tobacco substitutes	9.59
		8716	Trailers and semi-trailers; other vehicles, not mechanically propelled	9.18
		1517	Margarine; edible preparations of animal or vegetable fats or oils, nes	8.70
		8702	Public-transport type passenger motor vehicles	7.61
		6402	Other footwear with outer soles and uppers of rubber or plastics	7.32
		2716	Electrical energy	6.88
		8309	Stoppers, caps and lids, capsules for bottles of base metal	6.83
		3401	Soap; organic surface-active products in bars, etc; paper with soap, etc	6.71
		2 digits

	2710	Petroleum oils and oils obtained from bituminous minerals, other than crude	12.69
	2401	Unmanufactured tobacco; tobacco refuse	10.59
	1704	Sugar confectionery (incl. white chocolate), not containing cocoa	10.45
	8507	Electric accumulators (incl. separators thereof)	9.84
	2501	Salt/pure sodium chloride whether or not containing anti-caking agents; seawater	8.74
	3402	Non-soap surface-active agents; washing preparations in powder, liquid, etc	7.41
	8309	Stoppers, caps and lids, capsules for bottles... of base metal	6.83
	1517	Margarine; edible preparations of animal or vegetable fats or oils, nes	5.99
	8431	Parts suitable for use with the machinery of 84.25 to 84.30	5.92
	1511	Palm oil and its fractions whether or not refined not chemically modified	5.65
	3105	Mineral or chemical fertilizers, nes; other fertilizers; goods =<10kg	5.31
	8716	Trailers and semi-trailers; other vehicles, not mechanically propelled	4.91
	4819	Cartons, boxes, etc; box files, etc, of paper, paperboard, etc	4.76
	7615	Table, kitchen, household and sanitary articles. of aluminium	4.40
	2836	Carbonates; peroxocarbonates; commercial ammonium carbonate	4.00
	7210	Rolled iron or non-alloy steel, >=600mm wide, clad, plated or coated	3.96
Burundi	2 digits		
	27	Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes	181.86
	85	Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles	81.38
	84	Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof	74.91
	30	Pharmaceutical products	65.16
	87	Vehicles other than railway or tramway rollingstock,and parts and accessories thereof	56.32
	72	Iron and steel	27.00
	10	Cereals	19.55
	31	Fertilisers	17.37
	25	Salt; sulphur; earths and stone; plastering materials, lime and cement	16.81
	48	Paper and paperboard; articles of paper pulp, of paper or of paperboard	16.18
	90	Optical, photographic, cinematographic, measuring, checking, precision, medical or surgical instruments and apparatus; parts and accessories thereof	15.07
	39	Plastics and articles thereof	14.82
	63	Other made up textile articles; sets; worn clothing and worn textile articles; rags	14.58
	73	Articles of iron or steel	13.93
	11	Products of the milling industry; malt; starches; inulin; wheat gluten	12.54
	17	Sugars and sugar confectionery	10.46
	15	Animal or vegetable fats and oils and their cleavage products; prepared edible fats; animal or vegetable waxes	10.06
	40	Rubber and articles thereof	9.53
	21	Miscellaneous edible preparations	9.36
	62	Articles of apparel and clothing accessories, not knitted or crocheted	8.91
	4 digits		
	2710	Petroleum oils, etc, (excl. crude); preparations thereof, nes	176.56
	8517	Electrical apparatus for line telephony or line telegraphy	48.23
	3004	Medicaments of mixed or unmixed products, for retail sale	46.28
	8703	Motor cars and other motor vehicles for the transport of persons	23.37

TABLE 6B: TWENTY MAJOR IMPORTS OF EAC COUNTRIES FOR 2015 (US$ MILLION)

Country	Hs level	Description of Goods	CIF values
Burundi	4 digits		
	8429	Self-propelled bulldozers, angle dozers, graders, levellers, etc	17.23
	3002	Human blood; animal blood; antisera, etc; vaccines, toxins, etc	16.72
	8422	Dish washing machines; machinery for cleaning or drying bottles or other containers	16.33
	3105	Mineral or chemical fertilizers, nes; other fertilizers	15.45
	8704	Motor vehicles for the transport of goods	14.05
	2523	Portland cement, aluminous cement, persulphate cement, etc	12.59
	9018	Instruments and appliances used in medical, surgical, dental or veterinary sciences	11.28
	1001	Wheat and meslin	10.31
	1107	Malt, whether or not roasted:	10.29
	7210	Flat-rolled products of iron or non-alloy steel, of a width of 600 mm or more, clad, plated or coated	10.16
	1701	Cane or beet sugar and chemically pure sucrose, in solid form	8.90
	6309	Worn clothing and other worn articles	8.36
	2106	Food preparations not elsewhere specified or included.	7.94
	4820	Registers, account books, note books, order books, receipt books, letter pads, memorandums	7.57
	4011	New pneumatic tyres, of rubber	7.35
	7214	Other bars and rods of iron or non-alloy steel, not further worked than forged, hot-roll:	6.65
	30	Pharmaceutical products	33.04
	39	Plastics and articles thereof	22.46
	34	Soap, organic surface-active agents, washing preparations, etc	21.44
	10	Cereals	19.03
	85	Electrical machinery equipmentparts thereof; sound recorder, etc	16.69
	84	Nuclear reactors, boilers, machinery & mechanicalappliance; parts	15.46
	27	Mineral fuels, oils & product of their distillation,etc	14.97
	15	Animal/vegetable fats & oil & their cleavage products, etc	12.96
	24	Tobacco and manufactured tobacco substitutes	11.32
	25	Salt; sulphur; earth & stone; plastering material; lime & cement	10.73
	17	Sugars and sugar confectionery	10.64
	48	Paper & paperboard; art of paper pulp, paper/paperboard	9.55
	87	Vehicles other than railway/tramway roll-stock, parts & accessories	9.21
	28	Inorganic chemicals; compounds of precious metals, radioactive elements, etc	8.74
	83	Miscellaneous articles of base metal	7.21
	76	Aluminium and articles thereof	7.00
