Farmers get Irish potato seedlings for planting

Rubanda District local government have donated 120 bags of Irish Potato seedlings under the Operation Wealth Creation (OWC) programme to the farmers in Nyamweru Sub County.

Maj. Innocent Ngabirano the OWC officer in charge of Rubanda District flanked by district LCV vice chairman Silver Baguma and the Resident District Commissioner Hajji Badru Ssebyala last Wednesday presided over the function that saw several farmers receive the seedlings at Nyamweru primary school playground. Two farmers from each village got a bag of Irish potato seedlings measuring 100kilogrammes. Mr Baguma asked the beneficiaries not to sell or eat the seedlings but plant them for better harvests. He appealed to the agriculture extension officers to teach farmers better farming practices.
