

## The blood of murdered women cries for justice

In a space of six months, 23 women have been murdered in Wakiso district. A number of arrests have been made, yet despite that, the murders have continued. The families and friends of these 23 women and, indeed, the nation at large are still grappling with the pain of the innocent loss of lives, which is unacceptable.

Many questions still abound. Is it just a coincidence that all the victims are women? Who is behind these murders? How are the murderers eluding law enforcers? What steps are being taken to end this spate of murders?

No other person should die in such a gruesome manner! Justice needs to be served sooner, rather than later.
