

Why students should endeavour to choose right A-Level combinations

Feedback. When it comes to A-Level combination selection, learners are advised to be careful and seek consultation from parents and teachers. Students tell us why this is important in our feedback segment.

A-LEVEL COMBINATIONS

The right combination at A-Level can open doors to a marketable career in the future. It is important to pick a combination that will lead a student towards studying for a marketable profession at University.

Jazirah Nanyonjo
S1 Kampala High School

Marketable careers

There are limited job opportunities available and yet there are many qualified but unemployed people. This means that students should pick combinations that can potentially lead them to marketable careers.

It is important to choose a relevant A-Level subject combination because it makes learners work hard towards achieving a specific goal.

Anna Grace Asio.
S.6 Priscilla Comp Girls Ss Katakwi

It is important to choose a relevant A-Level subject combination because it helps one to meet the demands of the job market.

Esther Akwli.
S.5 Priscilla Comp Girls Ss Katakwi

Choosing a relevant A-level subject combination makes a learner love his or her subject combination hence concentrating in class.

Kevin Akareut
S.5 Priscilla Comp Girls SKatakwi

The right combination can relieve students of the burden to perform well in subjects that they find difficult. When selecting their combination at A-level, students should choose subjects that they know they were good at O-level.

Shanilah Namale
S1 Kampala High School

It is wise for a student to be flexible in their decision about the combination that they are taking at A level so that if they do not attain the marks required for their first choice combination, they have alternative combinations.

Muhammed Arksam
S1 Kampala high school

It is important to choose a relevant A-level subject combination because it makes one

to know the future career and how to work for it.

Joan Amagoro
S2 Priscilla Comp Girls Ss Katakwi

Choosing a relevant A-Level subject combination helps one to achieve his or her dream career.

Catherine Akareut
S2 Priscilla Comp Girls Ss Katakwi

Picking the right combination at A-level can bring a student closer to attaining their dream career in the future. Students need to consult with career guidance advisors at their school so that they pick combinations with clear understanding of what career options those combinations will lead them to.

Blessing Nalukonge
S4 Kampala High School

There are limited job opportunities available and yet there are many qualified but unemployed people. This means that students should pick combinations that can potentially lead them to marketable careers.

Sumayah Nansayi
S6 Kampala High School

The combination that a student chooses

can affect the student's academic performance at A-Level. If a student picks subjects that they already find enjoyable and easy to learn, this can positively impact their academic performance at A-level.

Andrew Ssentongo
S3 Kampala High School

Choosing a relevant A-level subject combination helps one to determine the academic destination and know how to work for it accordingly.

Ruth Ariko
S.5 Priscilla Comp Girls Ss Katakwi

Choosing a relevant A-level subject combination makes the learner to know what skills to employ in the job market.

Catherine Asego
S.2 Priscilla Comp Girls Ss Katakwi

Picking a combination with the subjects that a student is genuinely interested in learning can reflect on the student's academic performance at A-Level. Therefore students should consider what it is they want to gain from studying any particular combination that they choose.
