

Dozens of pupils face repeating Primary Leaving Exams (PLE) after the scam was discovered.

BY ALEX ASHARA
& BYOMUGABI SEGUJJA

The parents of at least 12 former Primary Seven candidates at Kabuga Demonstration Nursery and Primary School in Kagadi District want the Ministry of Education, Uganda National Examinations Board (Uneb), and security agencies to intervene after their school director fled after issuing testimonials with forged Primary Leaving Exams (PLE) results.

Authorities said they are looking for the director, identified by parents as Titus Mukwasira, to help with investigations into the incident.

According to affected parents, Mr Mukwasira had operated the school for about three years, before reportedly selling it earlier this year, and disappearing amid the unfolding scandal.

Kabuga Demonstration School started in 2023, and its first P7 candidates reportedly sat their examinations at Golden Star Nursery and Primary School in Kyaterekeru Town Council and received their results. In 2024, candidates sat at Nyamigisa Primary School in Nyamucumu Parish, Muhorro Sub-county, all in Kagadi District.

Until recently, Kabuga Demonstration Nursery and Primary School, located in Muhorro Sub-county, was operating without a valid licence and lacked a Uneb centre number, despite pupils of the school being able to sit PLE exams.

Candidates and parents have since revealed that during the third term, they were informed they would sit for their PLE at Kitaihuuka Primary School in Kyenjojo District as their school lacked a Uneb centre number.

However, the learners say they were reportedly taken to another school in Kyenjojo District, where they sat exams. It is believed these were fake examinations under the sole supervision of the director.

District authorities had previously recommended its closure for failing to meet required standards.

However, when other schools received their PLE results early this year, parents say they were unable to access their children's details either on their phones or through the school.

When they contacted the director, he reportedly issued them with recommendation letters bearing forged results, before he fled.

Scam unfolds

Suspicion deepened when one parent took the testimonial PLE results, bearing the name and stamp of Kitaihuuka Primary School, to verify its authenticity.

School authorities at Kitaihuuka denied any association with Kabuga Demonstration School and confirmed that no candidates from another school had sat exams at their centre.

In the case raised by a parent, Ms Mackline Ndyamuhaki, her daughter was said to have scored Aggregate 18, written in pen, according to the testimonial PLE results.

However, the testimonial indicates that it is signed by one Christopher

How school issued fake

Kusemererwa, as school head teacher, along with the school stamp, although it is unclear when it was issued.

Interestingly Ms Ndyamuhaki says her daughter was later admitted to Kagadi Secondary School, using this document.

"I also sent money for her to join Kagadi Secondary School. However, I was not convinced by the results," she said.

She added: "When I came home and checked the recommendation of the child, it was totally different from the usual ones. I was shocked, travelled to Kagadi Secondary School, and asked my child, 'Do you have a school identity card?' She didn't have one," she said.

However, after confirming that her child had done fake PLE papers, she went ahead and picked her up from the school.

Ms Ndyamuhaki adds that when the pupils sat for mock examinations, they were not given results, as the director kept dodging them until they gave up.

"As parents, we were asked to pay Sh55,000 for mock examinations, but our children didn't receive results. We tried to demand them, but all efforts failed," she said.

"After paying school fees and registration fees, the director didn't sympathise with parents and only wanted full payments," she added.

Fake mock exams

So, Ms Ndyamuhaki said she was shocked when her daughter insisted that they had sat for fake mock exams and eventually fake PLE.

However, Ms Kate Kunihira, the deputy head teacher of Kitaihuuka Primary School, said their school has no collaboration with the said Kabuga Primary School and denied their school issuing any recommendations.

"As Kitaihuuka, we registered 49 candidates, although two did not turn up for the examinations, and we had no candidates from other schools. I came to hear about this scandal when one parent, Ms Ndyamuhaki, visited our school to check the validity of the papers they had received," she said.

The centre number indicated on the recommendation result slips was different from that of Kitaihuuka.

"Our centre number is 003044, as opposed to 480026 indicated on their testimonials. However, he used our school name and P.O. Box 1045 Kyenjojo," Ms Kunihira said.

She added that their official documents are printed, not handwritten, with grades filled in using a pen.

"Evidence of forgery can be seen in the testimonial, which indicates that she scored Aggregate 18, but when writing the division, he again wrote 18 instead of Division Two," Ms Kunihira told the Daily Monitor.

We have since established that Rubona Primary School, where pupils allege they sat their exams, is a government-aided school but does not have a Uneb examination centre number. Its candidates would instead sit examinations at Biganda Primary School.

In another case, Ms Gloria Katushabe, another parent, said they paid Sh120,000 for school fees per term, Sh100,000 for Uneb registration, Sh55,000 for mock examinations, and an additional Sh55,000 as facilitation

during the PLE period for two days.

"After all the expenses, the director defrauded us. Our children didn't have Learner Identification Numbers (LINs), school identity cards (IDs). They didn't even have a briefing for PLE; they were only transported to the centre on Sunday and had their first paper on Monday," she said.

She added that one parent who owned a vehicle transported the pupils to the place where they sat for exams, on condition that his Sh70,000 fee payment would be considered as clearance for the remaining school balance.

Ms Katushabe explains that she inquired at other schools around

REDFLAGS IDENTIFIED

- No UNEB centre number at the school
- Pupils lacked Learner Identification Numbers (LINs)
- No official invigilators or scouts during exams
- Question papers reportedly photocopied
- Results handwritten instead of printed
- Wrong centre number on result slips

Kagadi to find out how this compared with her son's report. However, they gave different responses, which increased her suspicion.

"All these people kept dodging parents' demands, including Mr Kenneth Aliqanyira, the head teacher. When I asked him why pupils had done different examinations, he also deceived me, adding that at times Uneb gets suspicious of a school and sets different exams," she said.

She said after the results were released, they inquired why they could not access their children's results online, but were misled.

They later demanded recommendation forms, which required a payment of Sh10,000 upon collection.

"It was after registering my child to join Senior One that I realised the results were fake, because the secondary school tried to verify them with Uneb, and the children from Kabuga Demonstration Nursery and Primary School were not known," she said.

Another parent, Mr James Natukunda, said: "After the exams, my child told me there were no scouts or invigilators like in other centres. But since they had never sat PLE before they assumed that was the normal procedure."

According to some of the candidates,

Discovery
It was after registering my child to join Senior One that I realised the results were fake, because the secondary school tried to verify them with Uneb, and the children from Kabuga Demonstration Nursery and Primary School were not known. Gloria Katushabe, parent

PLE exams, results

were forced to keep silent after being intimidated that the area was insecure, with rumours of suspected rebels in the area," the pupil said.

Mr Fred Byamukama, a parent who also acted as a driver transporting candidates to sit for their exams, said he drove the pupils to the alleged examination centre, although he was not sure of its exact location.

"After reaching the said centre, I dropped the pupils off with their director and continued with my journey to Fort Portal. Driving them was meant to offset the school fees balance of Sh570,000, and this was done after an agreement," he said.

"I came to know about the fake results after my friend, who is a teacher, critically analysed the recommendation of the results of my child and informed me that we had been given results which were not authentic," Mr Byamukama added.

Turn to P-7

After investigating this further, this publication has established that seven pupils had joined Senior One but are now planning to repeat Primary Seven.

When we visited the school on April 6, there were no pupils but notices and dates of April 2, 2026, were written on the blackboard, indicating that the school is operational.

Also neighbours of the schools, say the school is operating under a new
