NAMUTUMBA

Medic advises patients on drugs

Dr Paul Kibenge, the Namutumba District Tuberculosis (TB) programme officer, has cautioned patients against skipping medication. Speaking to TB patients at Magada Health Centre III in Magada Sub-county last week, Dr Kibenge attributed the TB prevalence in the district to patients' skipping of treatment. "Out of 100 people in Namutumba District, 42 per cent have the TB virus and are mainly the younger children and elderly persons," he said. **[Ronald Seebe]**
